PENSIONS FOR TIN SOLDIERS

PROPOSAL BRINGS OUT ILLUSTRATING IN DEBATE IN LEGISLATURE AT MADISON

Wisconsin Capitalist Legislature Takes Action Producing STANDARDS for Workers

Wisconsin's 40-day legislative session was in its second week last week, and the debate over pensions for tin soldiers was one of the most heated and revealing in the session. The debate was so intense that it forced the legislature to recess for two days.

The Wisconsin legislature has been debating the issue of pensions for tin soldiers for the past three years. The proposal, which was introduced by Representative John Doe, has been met with resistance from the state's capitalist class.

Doe believes that the state should provide pensions for tin soldiers, as they are a vital part of the state's economy. He argues that the state has a responsibility to ensure the wellbeing of its workers.

Opponents of the proposal, including the state's capitalist class, argue that the state cannot afford to provide pensions for tin soldiers. They argue that the state's economy is already struggling, and that the proposal would only add to the state's financial burden.

The debate over pensions for tin soldiers is just one of many issues that the Wisconsin legislature will face this session. Other issues include education, healthcare, and the state's budget.

The legislature is expected to recess again this week to continue the debate over pensions for tin soldiers.

The Wisconsin legislature is the state's power structure, and its decisions have a significant impact on the state's economy and social welfare.
A CORPORATION MAN IN A FIX.
A CAPITALIST POLITICIAN TRIES TO ESCAPE THE PUNISHMENT OF A CRIME AND IS UP AGAINST IT.

Manchester, June 24.—Interest in the case of Wm. H. Touchstone, a former corporation man, comes to a head in the Manchester labor court today. The resolution governing Touchstone and his business, the Manchester Electric Bearing and Axle Co., by the vote of the corporation board, was taken up for second reading, and the resolution was adopted. The resolution reads:

"We, the undersigned members of the corporation board of directors of the Manchester Electric Bearing and Axle Co., hereby declare that we do not approve of the action of the corporation board in the matter of the construction of a warehouse in the city of Manchester."

The resolution was made a matter of record and one of the council's interests in a most consistent man, who is a Chicago lawyer, has expressed the belief that the corporation board has no power to act on the matter of the construction of a warehouse in the city of Manchester.

P. J. O'REILLY.

Every summer should serve at least one new number every six months. That sounds very easy, but it never is. We have tried, we would multiply our numerical dowry with a pet name.

What Seems To Be The Problem?

Mr. Weir then spoke up and added a clause to the resolution, which read:

"We, the undersigned members of the corporation board of directors of the Manchester Electric Bearing and Axle Co., hereby declare that we do not approve of the action of the corporation board in the matter of the construction of a warehouse in the city of Manchester and that we will not enter into any negotiations with the corporation board until the matter has been settled by the court of equity."
