CORRUPTION LENGTHENS FIVE YEARS TO FOURTY-ONE!

By Victor L. Berger.

THERE can be no doubt that the greed and avarice of the tele- 
gram companies of the United States are the same — in- 
herent in the nature of the business — as that of the rail- 
road companies. The Milwaukee Local 6, a Commer- 
cial Telegraphers' Union, says:

"The Milwaukee line has increased in number of 
class operators received over the period all over the 
country. The increase in the number of class operators, 
has averaged 25 percent, while the salaries of these same 
operators have increased, not more than 10 percent, for a 
reduction of one per cent.

"The operators are receiving smaller wages than ever, 
and there is no indication that the operators will stand 
for any decrease in their wages. Their organization is 
young and the country is oversubscribed to the extent of 
one per cent. But there is no indication that the operators 
will stand for this situation.

"For this reason, the union has decided to take this 
matter into its own hands and to a stand firm in the 
face of the bosses and the bosses' sentences. They have 
been in the front line of the battle against the bosses 
for many years.

"The union has been in existence for over twenty-
five years and has been active in the fight against 
corruption. They have been unsuccessful in the fight 
against the bosses and the bosses' sentences. But the union 
has not given up the fight. They have been in the 
front line of the battle against the bosses for many 
years.

THE JUNGLE

A Story of Big Business by Upton Sinclair

At the twenty-sixth annual con-
vention of the American Federation of Labor, the resolution was unanimously adopted:

"We, the delegates of the American Federation of Labor, assembled at their Twenty-Sixth Annual Convention, meeting at the Hotel Del Monte, in Monterey, California, do hereby declare the necessity of a national strike of all the working men of the United States, for the purpose of securing a living wage, the eight-hour day, and the right to organize, and we pledge ourselves to support the candidacy of the Democratic candidate for President, and to work for the election of the Democratic ticket in all the States."
Here’s “Friendly Relations”!

The Lindemann & Hoovers Co. Exhibits the Blind Kingdom of the “Friendly State” in the Cast Iron Theater Building—For the Men Who Must Have Jobs or Starve!

We have been hearing a good deal about the “boom” in capitalistic industries. The newspapers have been full of articles about the success of the “friendlies.” A good deal of this has been done by the friendly states, of which we have a long list, and I wish I could tell you about the success of the “friendlies” in the case of our own state.

In Wisconsin, the “friendlies” have done a good deal of work for the unemployed, and I wish I could tell you about the success of the “friendlies” in the case of our own state. We have had a good deal of work for the unemployed, and I wish I could tell you about the success of the “friendlies” in the case of our own state.

We have Chazy, he не goes to San Francisco. In New York, however, there have been a great deal of talk about San Francisco. An indication for this is that there have been a great number of people visiting the city. In my opinion, the city of San Francisco is a place to avoid. It is a city of great beauty, but it is also a city of great destruction. The city is built on a hill, and the hills are constantly being eroded. The city is also known for its earthquakes, and there have been a great number of them in the past. In my opinion, the city is not worth visiting. I would not recommend it to anyone.
