WORKING MEN WILL RESIST!

By Victor L. Berger.

I t is reported that in the few weeks which have passed since the breaking out of the financial panic, no less than 10,000,000 American workers have been laid off their jobs. It is estimated that in the last few weeks the average weekly earnings of the working men of this country have been reduced by more than one-third. Within a few days the news has come from different parts of the country that not only the factories, but also the mines, railroads, and other industries have been hit by the panic. It is known that in the coal fields, steel mills, and textile factories, wages have been cut and hours of work increased. The situation is serious and it may become more serious unless immediate action is taken.

Within the next few days the workers will have to decide whether they will accept the situation as it is or whether they will resist. The workers have a right to demand a living wage and a fair share of the wealth of the country. They have a right to organize and to strike for better working conditions. The workers have a right to demand that the government take steps to prevent another panic.

The workers will have to decide whether they will accept the situation as it is or whether they will resist. The workers have a right to demand a living wage and a fair share of the wealth of the country. They have a right to organize and to strike for better working conditions. The workers have a right to demand that the government take steps to prevent another panic.

The proposal to establish a working class in the public schools is not a new one. It is a proposal that has been advocated by many workers for many years. The proposal is not a new one. It is a proposal that has been advocated by many workers for many years. The proposal is not necessary to rescue the workers from the clutches of the capitalist class. The workers can and will save themselves. The workers can and will save themselves.

The proposal to establish a working class in the public schools is not a new one. It is a proposal that has been advocated by many workers for many years. The proposal is not necessary to rescue the workers from the clutches of the capitalist class. The workers can and will save themselves.

Some editorial comment by Frederick Heath.

Socialism is the kind of dream that makes the other fellows wake up. Well, wake up here, May the 1st.

Some there were at the Mil- wanders' Farm Ball, the papers say. Why? No answer.

To the Everyday Man.

Are you a Socialist? Not me, you must be.

You, my friend, are a workingman. A real, honest-to-goodness, pay-your-dole workingman.

You don't believe in all these Socialistic ideas, and I don't blame you. But it would surprise you to know that you are already practically a Socialist. How so? Why, because you have been working for so many years to pay that pay-dole you have been talking about.

You may not like it, but you have been doing exactly what a Socialiste would want you to do.

You have been working. You have been earning a living. You have been paying taxes. You have been supporting the government. You have been doing all the things that the Socialistes want you to do.

And yet, you say, "Socialism is all right. But I don't want to hear about it. I want to be left alone."

Well, you are already in the Socialist camp. You are already a Socialist without knowing it.

You are a Socialist because you have been working for so many years to pay your pay-dole.

And yet, you say, "I don't want to hear about Socialism. I want to be left alone."

Well, you are already in the Socialist camp. You are already a Socialist without knowing it.

You are a Socialist because you have been working for so many years to pay your pay-dole.

And yet, you say, "I don't want to hear about Socialism. I want to be left alone."

Lake Shore and Fox River Valley Notes
By Chief, Sunnyside, Daily Tribune, Muskegon, Mich.

Things are looking up for Societe Mission this winter. The weathermen predict a mild winter and the prospects for the game are good. In a number of places, bowling factories have been built or expanded. There is a great interest in the game, and bowling is becoming very popular. Many new teams have been formed, and the prospects for a good season are excellent. It is hoped that the weather will continue to be mild, and that bowling will be an enjoyable pastime for all.

CITY FORESTRY
12. South Side Forestry

To develop the South Side, consistent with the needs of the various neighborhoods, is a major undertaking. The city council has been working closely with local organizations to develop a comprehensive forest management plan. This plan includes the establishment of a forest reserve, the implementation of sustainable forest management practices, and the promotion of education and outreach initiatives to inform the public about the benefits of forest conservation.

Local Mishicot is not large, but it is a very fine organization. Conductor Fred Clancer is always present to carry on the policies of the organization. Conductor Zebulon, an able and efficient conductor, has been at the helm of the organization for many years. He is respected by all for his many years of service and is held in high regard by the members of the organization.

Local Muskegon is also very active. Conductor Fred Clancer is always present to carry on the policies of the organization. Conductor Zebulon, an able and efficient conductor, has been at the helm of the organization for many years. He is respected by all for his many years of service and is held in high regard by the members of the organization.

Wichita Falls Herald

The Wichita Falls Herald is a well-respected newspaper in the community. It covers local news, events, and issues of importance to the residents. The newspaper is known for its in-depth reporting and commitment to providing accurate and timely information.

The Cost of Printing

"The cost of printing a book is a complex and multifaceted issue, influenced by a variety of factors such as paper quality, printing method, and distribution costs. The cost of printing can be broken down into several components: materials, labor, and overhead. The materials cost includes the cost of paper, ink, and other supplies. Labor costs are related to the time and effort required to produce the book, including typesetting, proofreading, and binding. Overhead costs include the cost of maintaining the printing facilities and equipment. The cost of printing can vary significantly depending on the edition size, printing method, and distribution strategy."

The Co-Operative Printers has just issued a new series of the Leading News of the Day, containing the latest news from all parts of the world. The papers are printed on fine white paper, and are bound in handsome covers. Each number contains from 16 to 20 pages, and is postpaid for $1.00 per year. You will find it in your drugstore.

The idea is to create a modern and progressive newspaper, which shall be read by all classes of people. It has a circulation of over 5000 copies, and is distributed in all parts of the country. The editors are men of power and ability, who have contributed to the best and most valuable works of our time. They have written for such newspapers as the New York Times and the Boston Herald, and are now bringing to the world a new and original conception of what newspapers should be.
