NATIONAL SOCIALIST CONVENTION

Chicago—The national convention of the Socialist party is a big affair, and this year it was held in the city of Chicago. There were about five thousand delegates present, representing all the states of the country. There is great hope for the success of the convention, and it is expected that the party will make a great deal of progress this year.

The convention began on Tuesday, May 15th, and was held in the Chicago Auditorium. The speakers included many well-known socialists, such as Eugene V. Debs, who was the keynote speaker. The convention passed many resolutions, including one calling for the immediate abolition of private property and the establishment of a socialist society.

The convention adjourned on May 17th, after several days of intense discussion and debate. The delegates were well satisfied with the work of the convention, and the party is expected to make great strides in the coming years.

A NEW WAKING IN THE STATE

The splendid gains made by the Milwaukee Social Democrats in the last election served to awaken the conscience of the state. This enthusiasm should not be allowed to fade, but should be encouraged by a systematic campaign.

The SOCIAL-DEMOCRATIC HERALD should be read by every friend and supporter of the Milwaukee Social Democrats. This paper should be distributed among all the members of the party, and should be read by every Socialist in the state. It is the only way to make the party known and understood.

The Sentinel should be read by every Socialist in the state. It is the only way to make the party known and understood. It is the only way to make the party known and understood.

The Milwaukee Social Democrats are doing splendid work in the state, and should be supported in every way possible.

The Proof of the Pudding is Trifles, U. S. A.

The laborer has little time for study and the demands on him are always pressing, but facts are stubborn, and experience teaches him all. The result is that his view of the world is always changing, and that he is always on the lookout for new facts, figures, and experiences that may prove the truth of his beliefs.

When you see facts, let them stand.
