THE BEST CURE FOR DEMOCRACY—

IS ALWAYS MORE DEMOCRACY

By Victor L. Berger

The Evening Wisconsin says the following editorially:

A movement of pardon is now before the authorities in Wisconsin. It is a movement that is intended to benefit a large number of those persons who have been convicted of crimes of violence or other crimes.

This movement is one of the most important in the history of the United States. It is a movement that is intended to benefit a large number of those persons who have been convicted of crimes of violence or other crimes.

In the past, those who have been convicted of crimes of violence or other crimes have been subjected to a severe punishment. In many cases, they have been subjected to a punishment that is more severe than is necessary. This movement is intended to change the punishment of those persons who have been convicted of crimes of violence or other crimes.

SOCIALISTS IN ACTION

Milwaukee, Oct. 16 (AP) - For the first time in the many years that they have been the official political party of the city, the Socialists have an organized campaign. For the first time in the history of the city, the Socialists have a candidate for mayor. The Socialists have a candidate for mayor, and the Socialists have a candidate for city council, and the Socialists have a candidate for state legislature. The Socialists have a candidate for every office in the city, and the Socialists have a candidate for every office in the state.

In the election, the Republican candidate, John Doe, has the lead. However, the Socialists, led by Socialist Party of America leader, Jane Smith, are not going to give up without a fight. They are going to fight tooth and nail to try to win the election.

The Socialist Party of America is a national political party that was founded in 1901. It is the oldest and largest socialist political party in the United States. The party is committed to the principles of social democracy, collective ownership of the means of production, and workers' self-management.

Socialist Party of America candidates ran in the 1916 presidential election, but did not win any states. However, they did win enough electoral votes to elect a socialist mayor in Milwaukee, Wisconsin.

Today, the Socialist Party of America is still active. It has a national office in Washington, D.C., and local offices in many cities across the country. The party is active in a variety of issues, including social justice, environmentalism, and anti-war activism.

In conclusion, the Socialist Party of America is a political party that is dedicated to the principles of social democracy, collective ownership, and workers' self-management. They are committed to fighting for a better world, and they are not going to give up without a fight.
