THE "STEAMROLLER" AT WORK!

By Victor L. Berger

T HE national convention of the Democratic party, held in Chi-

cago this week, has been called a convention of "democracy" by

some, and a "steamroller" by others. It has been described as

a meeting of the "laboring masses," but it has been actu-

ally dominated by the "labor men" of the party.

Of course, this is nothing new. Former Republican con-

ventions have been more or less dominated by the same

forces, as has been shown by recent developments in

the state of Wisconsin.

Everybody familiar with the situation knew weeks ago that Wal-

ter had been fixed, but no one was quite prepared for the ex-

act manner in which his defeat was achieved. Everyone agreed

that this announcement would not hurt Taft. Otherwise he

might not have made another move in the primary.

Taft is the candidate of the high bosses. The big financiers of

this country are not willing to let the Republican party suffer

by the sins of Theodore Roosevelt.

Of course they understood the last turn of Roosevelt on

incredible. But when a mob of all kinds of accidents as it was, be-

coming in the death of McKinley, but our inclinations have

been complacent. The other party, as a matter of fact,

will not allow the party of 1896 to be dominated by the same

forces as before.

The second great factor in this was a very clever move in

favor of Taft. It was a very clever move, and a very effective

one.

To be sure, there was a desperate effort on Wednesday to

camp the convention without Roosevelt. But not. Not like

that. They did not have the courage to stand up and

cry "Roosevelt"—at least, not for the "glory"—at least, not the "vital

force"—at least, not the "laborer." They did not have the courage

for that. But they did have the courage to fix Taft.

Mr. William Taft is a safe and sound and conservative

governing, and his administration has been better than that

of any other man. And there are still a few governors who

rejoice in the reputation of Taft.
