For President

EUGENE V. DEBS

President Debs has been last seen in railroad camps when his speeches. The Social Democrats insist he is in Chicago, and the Socialist Party this morning published its list of delegates to a conference in Boston, Massachusetts, of which the Socialist Party is a member. It is expected that Debs will attend the conference and make his views known. He may also be found in the surrounding area.

MR. BRYAN OUGHT NOT TO CARE—FOR HE WILL BE SOLD WITH WALL STREET!

even a Negro who is a negro today, but if he were a white man, he would not be a negro tomorrow."

Mr. Bryan should not care for Wall Street. If he did, he would not have been a candidate in the first place.

But it is significant that Mr. Bryan should not care for Wall Street, because it is not a matter of importance to him. Wall Street is a matter of importance to the people, and it is only by giving the people what they want that Mr. Bryan can make his way.

The Social Democrats insist that Mr. Bryan should not care for Wall Street, but the Republican Party insists that he should. The Republican Party wants Mr. Bryan, and the Social Democrats do not. The Social Democrats want someone else.

As for Wall Street, it is only by giving the people what they want that Mr. Bryan can make his way. The Emancipation of Women.

In proposing civic and business opportunities to women, those who have the welfare of the race at heart, and who desire to do something for them, will not fail to observe that the long-suffering and meekly-endured disabilities of women have by no means been the only reason why women have not been able to secure the position they are entitled to in society. The constitutionally and morally honorable position of woman is one which, in all its aspects, and as far as it goes, is by no means consistent with the conditions of the present time. It is only in recent times that we have been able to realize the fact that women have the same rights as men, and that they have a right to take their share in the enjoyment of the benefits of civilization.

The growing of this doctrine is by no means a new one. The belief that women have the same rights as men is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. The doctrine of the emancipation of women is by no means a new one. To the Trades Unionists and the People of the United States.

A question has been raised as to whether the movement of the 4-hour week is or is not a direct and necessary step in the direction of the 8-hour day. The supporters of the 4-hour week say that it is, and they point to the fact that the Socialist party is the only public organization that is championing the cause of the workers in this matter. But the 8-hour day is a question of economic policy, and the Socialist party is the only organization that has any real interest in the matter. The 4-hour week is a question of immediate relief, and the Socialist party is the only organization that can do anything about it.

Socialism is the only solution of the world's economic problems. The workers are the creators of wealth, and they should have the right to enjoy the fruits of their labor. The Socialist party is the only organization that is working for the establishment of the 8-hour day and the 4-hour week.

Socialist Republicans are not interested in the 8-hour day or the 4-hour week. They are only interested in the promotion of their own party and the advancement of their own interests. They are not interested in the welfare of the workers, but in the advancement of their own party. The Socialist party is the only organization that is interested in the welfare of the workers and in the establishment of the 8-hour day and the 4-hour week.
