People seem a little undecided a to whether Wall street intends to vote for Taft or Bryan. The fact that they will not be surprised at it either way shows what they really think of the two old parties doesn't it?

ROTTEN RIPE.

The old parties are rotten ripefor the penitentiaries!

The Independence party, al-though weak in numbers, is strong in documentary evidence of Repub lican and Democratisc rottenness. While the Hearst exposure has al-ready driven Foraker into retirement for the campaign, the Demo-crats are catching it, too, for the In-dependence leaders come from that party and know how to give their old pals away. Here is the way their

old pals away. Here is the way their vice-presidential candidate waded into Bryan the other night:

"This is the man who stood with outstretched hands before those intriguers and political tricksters of Tammany Hall, those rascals that comtrol New York and reap the profits of its sorrows and its revolting crimes, and told them that he had nominated himself for president and that Tammany could name the vice-president. Even Tammany hesitated and then refused. Then he turned the honor fused. Then he turned the honor of naming the vice-presidential eandidate to Tom Taggart, the

petty boss, the French Lick Springs gambler."

The bothersome thing about all this to the chameleon-like Bryan is that it is "straight goods." There have been some anothe links there have been some pretty juicy things given away in this campaign, but, oh! if one tenth of the real rotten-ness of the old parties could come out! No scold of Teddy's about muck-raking could save either of the big robber aggregations from the big robber aggregations from the wrath of the people this com-ing November.

No one will accuse Roosevelt of bringing added dignity to the position of president of these United States. The spectacle of a president carrying on a campaign jaw-ing match with a presidential aspirant is rather unusual, it would seem.

The exposures of Bryan's treas urer, Haskell, showed where the Vice-Presidential Candidate Sherman of the Ice trust, says Cannon paign funds. And the fact that is a great statesman. > "Good old lake Michigan, the re sort par excellence of the rich and poor alike," sings the campaign-fed associate editor of the Chicago Union Labor Advocate. Yes, the resort for rich and poor alike-the rich skim over the swashing waves of the lake in their yachts and the poor jump into the lake to end their intolerable poverty!

One hundred thousand dollars dropped into the Democratic campaign fund in a mysterious manner last week at the Hoffman house, New York. Wise ones said it came from Wall street. It goes to the fund to help swing the state. Didn't Bryan and Taft say something about telling where campaign money came from!

The trusts have no deep political convictions. They are for any party that will serve their interests. Some of the trusts would prefer to

see Taft elected, some Bryan, as the following trust item shows: Granite City, Ill., Sept. 21.—The 1,200 employes of the American Steel Foundries company at Granite City found in their last pay envelopes a circular letter, which by implication lays the blame for the recent financial troubles upon the Republican national administration.

Mr. Roosevelt points to the trustbusting achievements of his administration and expresses a doubt of Mr. Bryan's ability to do as well. While Roosevelt hasn't broken up any trusts or lessened their grips upon the people's throats, there is no question but that he has been making the attempt. And judging by the crowd of crooks and grafters behind Bryan, it is an easy guess that he would not be able to do even as much.

At the national conference of the Social-Democratic party in Ger-many two weeks ago officers' re-ports showed that the duest-aying

Did you ever see such apathy on the part of the old party voters? We do not remember a presidential campaign in which the people were so listless. What does it mean? Where are the old-time excit-

This far in this campaign none of that old heat has been kindled. People smile at each other the same as always. Does it mean that they are about through with their old heroes?

Because you are the mother of your children.

And recause you have to feed your family.

You have probably had ery hard year.

Maybe your husband is a work-ingman. If so, he was probably out of work all the time, half of the time, or worked only a part of the time

Or your husband may be a small business man who is selling to the working people, and depends on the working people, and his business had to suffer from these conditions.

How do you manage to make ends meet with the money you get Did you ever think about it? course you did. You could not help thinking. Especially at the end of the week.

I am not going to trouble you much with figures. I will give you only a few government statistics.

According to statistics, bread stuffs, which were, to use an average figure, 52 cents on July 1, 1896, cost 99 cents on Sept, 1, 1907 and 991/2 cents on Sept. 1, 1008. The chances are that these prices

will hold their own this winter, or even go up still higher. Now what will you do this winter with your family?

It is true that because of the panic, prices have fallen in lines of merchandise of which the average person buys little. But they have not fallen in lines of which every person buys much.

For instance, at present prices iron is 25 per cent lower than last year. Tin is 10 per cent lower and copper 25 per cent lower. But these metals do not figure

F course, Charles Murphy, Fingy Conors, Hinky Dink and Bathouse John and the rest of the graft-fingered gentry, could come to Milwaukee and serve an apprenticeship under Dave Rose with "great profit"—provided they would join the Rose marching club and get at least an appointment as sidewalk in-

Dave is not only a great master himself-that would not be much now-a-days. He is a man who sticks to a grafter wherever he finds one. Dave is the patron saint or rather patron devil of the grafters'

The latest is this:

Half a dozen men in the fire department have filed sworn charges against the chief engineer of the fire department, Thomas Clancy. They charged him with graft, with petty larceny, with extortion in the case of a so-called subscription for covering the expenses of the said Clancy when tried for perjury, with subornation of perjury and with general incompetence.

Instead of asking for an investigation, as every honest man would Clancy discharged nine firemen, among them Assistant Chief Michael Harden, who had been in the service 22 years, and Capt. Peter Lancaster, who had been in the service for 18 years, and had received a gold medal from the Carnegie fund for heroism in saving lives.

These men have paid into the firemen's pension fund for years, and lose all the benefits, except Assistant Chief Harden, who gets half of what he would otherwise receive. The men were discharged from service without any investigation, ply because Chief Clancy did not like the sworn complaints filed

And these complaints of graft, petty larceny, extortion, etc., did not lose any of their force by the complainants being kicked out.

However, under a ridiculous, unjust and draconic special law, Chief Clancy had the power to discharge them without even consulting the police and fire commission. And he made use of his power.

The sworn charges had been filed with Mayor David S. Rose, according to law.

Dave, after a so-called hearing, behind closed doors and in presence of three or four of Clancy's henchmen, came out with a statement that "these charges are too flimsy to deserve serious consideration.

He declared that he would not permit them to go to the police

There is an affidavit under oath charging Chief Clancy with graft and larceny. That is too flimsy to be considered by Dave, the patron saint of Dunn, Niczorawski, Havenor, etc.

There is a sworn charge that a subscription was taken up amo members of the fire department to defray the chief's expenses when he was indicted and tried for perjury—a subscription of some \$2,100.
That was too filmsy to be considered by Mr. Rose—the head of the 'City Democracy.

There is a charge sworn to by firemen that Clancy tried to make them lie under oath in the grand jury trial of Chief Clancy. This charge is too flimsy to be considered by Dave Rose, the old bank.

ruptcy specialist. There is a sworn charge that Chief Clancy had embezzled \$500 from a firemen's relief fund and that afterwards he had to borrow money from his subordinates to make good the defalcation. That charge it too filmsy to be considered by the founder of Twin Buttes.

On the other hand, nine of the best men of the fire department were kicked out by Chief Clancy in order to terrorize the entire

As a matter of fact, this charge ceases to be a charge against Chief Clancy, since Dave, patron devil of the grafters of Milwaukee, has openly declared that the men were discharged by his specific It is evidently the intention of Dave Rose and his select band of

Captain Kidds to erect a grafters' republic within the boundaries of the city of Mi'waukee. Now we have heard of oligarchies, of plutocracies, but a kleptoc-

racy would surely be a new thing. However, there are now about 22,000 Social-Democrats in Mil-

waukee. And there are almost as many other citizens again, not So-

cial-Democrats, but who are also honest.

And we will say this to Dave Rose: We will have a reign of regulators, of vigilance committees and some wholesale hanging-bees, before we will stand for a grafters' reign of terror in Milwankee.

Every honest man knows that nobody is more interested to have these charges investigated than Clancy himself. If he is innocent, the citizens should know it.

And it is not the question whether Dave Rose will permit these graft charges against Clancy to go to his police and fire commission or not. There are a few good men on that commission. But it is a Rose commission. And honest citizens will never be satisfied with any investigation by Rose's commission.

Logically a grand jury ought to be called every three months so long as Dave Rose is in office—and we notice that none has been called for three years. No wonder Dave is getting bold.

A mass meeting of citizens will be held at the West Side Turner.

Eternal Vigilance!

Whenever the common people of any nation win, a point from the ruling class they immediately go to sleep and permit themselves to be bound up by new laws and frequently exploited worse than before. But they continue to celebrate the day when they won their "freedom" as if nothing more was needed. They never take to heart Patrick Henry's famous declaration, "Eternal vigilance is the price of liberty."—People's Paper.

More than 2,000 years ago, when a great people who, if they had been truled the world forever—had already begun to go to political ruin by the road we have been traveling in the United States—one of these wise men, the elder Cato, said this to the common man of Rome.

"Some have said that it is not the business of private men to meddle with government—a bold and dishonest saying, which is fit to come from no mouth but that of a tyrant or slave. Many of the workers demurred at marching, but were told that there was a contest on between the mills for a flag, and some of the 'more obstinate who refused to march "voluntarily" were given broad hints that they might be laid off. How-ever, a ridiculously small number showed up at the park after the parade, when the speaking began, and the resentment was so great that an agitation was started to invoke the national law against the corporationists. The Labor Day meeting was also a fizzle and the Republican bosses are blamed for having butted in with their demonstration two days before and di-verted the attention of the people from the real show.—Cleveland

PRINCIPLES OF SOCIAL-DEMOCRACY

A CLEAR STATEMENT OF OUR capitalist system. But in abolishing IDEAS AND AIMS.

The Workers With Hand or Brain Are society: The small farmer, who is A Mad. Reckless and Torturing System That Must Go.

Human life depends upon food, clothing and shelter. Only when these are assured are freedom, culture and higher human development possible. To produce food, clothing and shelter, land and machinery are needed. Land by itself does not satisfy human needs. Human labor gets raw materials and food out of the soil by creating machinery and using it upon the land. Whoever has control of land and machinery has control of human labor, and with it of human life and liberty. Today the machinery and the

land used for industrial purposes are owned by a rapidly decreasing minority. So long as machinery is simple and easily handled by one man, it does not make its owners so and substituting collective and dempowerful that they can dominate the sources of life of others. But when machinery becomes more and more complex and expensive, and requires for its effective operation the organized effort of many workers, its influence reaches over wider and wider circles of life. The owners of such machinery become the dominant class.

In proportion as the number of power in the nation and in the pervisors used their balance of world increases. They bring ever power to throw the contract for larger masses of working people the completion of the Grand under their control, reducing them Avenue viaduct to a company made up of local capitalists. The wage workers are therefore the most determined and irreconcilable antagonists of the ruling class. They are also the class which suffers most from the curse of class of capitalists is permitted to use all the country's resources and social tools for their individual profit, and to make the production of the necand speculations, is at the bottom of all the social evils of our time.

Ilimit of their endurance and to sacrifice their physical, moral and mental welfare to its own insatiable greed. Capitalism keeps the masses of workingmen in poverty, destitution, physical exhaustion and ignonance. It drags their wives from their homes to the mill and factory. It snatches their children from the rance. It drags their wives from their homes to the mill and factory. It snatches their children from the playgrounds and schools and grinds their slender bodies and unformed minds into cold dollars. It wantonly disfigures, mains and kills hun-dreds of thousands of workingmen annually in mines, on railroads and in factories. It drives millions of workers into the ranks of the unof them into beggary, vagrancy and all forms of crime and vice.

To maintain their rule over their fellow men, the capitalists must keer in their pay all organs of the public powers, public mind and pub-lic conscience. They control the dominating parties and, through them, the elected public officials. They select our executives, bribe our legislatures and corrupt, our courts of justice. They own and censor the press. They sway our educational institutions. They own the nation politically and intellec-tually just as they own it indus-

trially.

The struggle between wage

workers and capitalists grows ever fiercer, and has become the only issue before the American people. The wage-working class therefore, has the most vital and direct interest in abolishing the the present system, the workingmen will free not only their own class, but also all other classes of modern the Victim Class Under Capitalism. today exploited by large capital more indirectly but not less effectively than is the wage laborer; the small manufacturer and trader, who is engaged in a desperate and losing struggle for economic independence in the face of the all-conquering power of concentrated capital; and even the capitalist himself, who is the slave of his wealth rather than its master. The struggle of the working class against the capitalist class, while it is a class struggle, is thus at the same time a struggle for the abolition of all classes and class privileges.

The private ownership of the land and means of production used for exploitation, is the rock upon which class rule is built; political government is its indispensable instrument. The wage-workers cannot be freed from exploitation without conquering the political power ocratic administration for private ownership of the land and the means of production used for exploitation The basis for such transforma-

tion is rapidly developing within the very bosom of present capitalist society. The factory system, with its immense machinery and minute division of labor, is rapidly destroying all vestiges of individual prosuch machine owners compared to duction in manufacture, Modern all other classes decreases, their production is already very largely production is already very largely a collective and social process, while the great trusts and monopolies which have sprung up in recent years have had the effect of organizing the work and management of some of our main industries on a Millions of formerly self-employing national scale, and fitting them for national use and operation.

In the struggle for freedom the interests of the workers of all nations are identical. The struggle is not only national, but international. It embraces the world and

To unite the workers of the na tion and their allies and sympathizers of all other classes to this end, is the mission of the Socialist party In this battle for freedom the Social ist party does not strive to substi tute working class rule for capital-ist class rule, but by working class victory to free all humanity from class rule and to realize the in-

WHY TAKE 21 OR 3 PER CENT WHEN YOU CAN GET 5 PER CENT INTEREST.

Why persist in leaving your funds in the bank drawing 2½ or 3 per cent interest? Isn't it foolish to take 2½ or 3 per cent when 5 per cent is offered? Why hesitate a moment longer?

You should take advantage of every good thing that comes your way. If a Socialist institution offers better security than banks at a greater rate of interest, don't continue the losing proposition. Take up the 5 per cent and drop the 2½ or 3 per cent interest proposition.

and drop the 2½ or 3 per cent interest proposition.

Besides, Socialists don't believe in "confidence." Yet this is about all many banks are built upon. And although this is well known, banks can still find Socialists with sufficient "confidence" to make deposits in their institutions. Why take chances? Is it because you feel "confident" that your bank is at least so sound that you will not lose your savings? Is it because you feel "confident" that in case of danger you at least will be secure? Or is it because you feel "confident" that in case of a run on the bank, or a panic, that you are smart enough to withdraw your deposit before it's too late? Now really, why take these chances—why feel so "confident." You know this "confidence" game has many times proven that it is apt to explode like a bubble, and just as suddenly.

Out feeling "confident" that you will not lose. Invest your money

Quit feeling "confident" that you will not lose. Invest your money with a growing institution, where you KNOW it will not be lost.

There is another point. It is much better to invest your money in an institution that will use it to your interest, than to deposit it where it may be used against you. Bank your money and what guarantee have you that it won't be used by some corrupt, dirty politician. He may so to the same bank and borrows the very money you deposited for the purpose of carrying on his dirty work.

Stop helping your enemies. Don't furnish the resources for your op-ents. Help yourself! Help your family! Help your class! Start

Here's a partial list of those who are not taking any more chances:

You are losing money by further delay. Act now. The issue of bonds is for \$12,000. Over \$9,000 has been sold. Unless you act soon it may be too late. Don't be foolist any longer. Don't take 2½ or 3 per cent when 5 per cent is within your reach. Don't help shaky banks by your "confidence" in them.

Don't assist corrupt dirty politicians. Let us hear from you. Full information given upon application.

li the election to the Swedish upper chamber the Socialists have actually gained up till now five seats. The Radicals have lost 4 and gained 11, while the Tories have lost 17 and gained 9. The situation now remains as follows: The anti-Socialists have 68 seats; the Radicals, who combine with the Socialists, who combine with the Socialists, as surprising to see Socialism gaining ground in an upper house, and there are some seats still to be fought and won.

A. J. Pettigrev. a Socialist legislator at Manatee, Florida, writes a Milwankee comrade as follows: "I am receiving letters and news that proves Socialism is growing fast. I am sure there will be a great Socialist vote in Florida next Nevember, and it seems to me to be different from the states of the north. It has been caused mainly by literature. The converts are wage workers, farmers, fruit growers, school teachers, preachers, lawyers and most other occupations. Their reasons are not because they are hungry or have to adopt Socialism, but because they learn what it is, and that it is just and good, and that it will make the world better and give everyone a certain clauce to live a happy life, but not one-tenth of them, have joined out. to live a happy life, but not onetenth of them have joined our

HORRORS IN RUSSIA.

The stories that filter through from Russia tell of unspeakable thorrors. The prisons are full of mem.—William Morris. Tortured men rebel against their gaolers, and are shot down like dogs. According to the Russischer Bulletin the prison of Lugonsk, built for 134 prisoners, now holds 432. Cells that can hardly hold one prisoner are now tenanted by six political suspects. Six men are confined in every cell, but those in authority care for none of these things.

Mr. Editor.—We, the employes of the Allis-Chalmers company, had the honor to see Mr. Taft at the West Allis works today. There was a large gathering with but little cheering. Hundreds of the crowd did not even take off their hats, and they did no cheering either. After the speech was over I heard a great many say, "Well, we paid for it all by the cut the Allis-Chalmers company gave us last Jan-

over I heard a great many say, "Well, we paid for it all by the cut the Allis-Chalmers company gave us last January 16, of from I cent to 6 cents per hour, and is still in force." So the employes feel that the cut has been used for campaign purposes anyway. For the company soent a large amount by building a large platform across the east end of No. I shop and trumning it with bunting of the national colors. But the flag they used to represent the United States was not a United States flag at all, as it only contained forty-six stars. I heard many speak about it.

The British government now proposes an amendment to its miners' eight-howr bill so that for five years the maximum working day of the miner shall be nine hours from bank to bank—which will give an average of eight and one-half hours a man a day—and that on the termination of those five years the eight-hour bill as it now stands shall come into force. Briefly, the object is to bring about the change in two stages instead of one, with the belief that the more or less gradual change will take place without any serious effect on the market. The labor party is unwilling to accept the compromise proposed by the government and a battle in parliament is looked for. parliament is looked for.

THE FIVE THOUSAND CLUB.

High Water mark this week, comrades, and we are correspondingly happy. There were 82 new subs from Milwaukee city alone, and when it comes to renewals this is the way they talk: "Yee, you bet I will," as said Comrade Watson of Whitewater, Wis.

Comrade Damrose, Fond du Lac, started the trouble with seven of them, followed by Boydston of Texas with a pair.

Comrade Robins, Dodge county, Minn, was too busy to go out and get scalps, and so just ordered the Also the following comrades in Milwaukee; Cherney, Menomonee, W. A. Jacobs.

Comrade Robins, Dodge county, Minn., was too busy to go out and get sealps, and so just ordered the HERALD for two anyway.

Comrade Sassaman heaved a couple over the plate from Allentown, Pa., and Comrade Dragon of New Orleans immediately followed suit.

That war horse of Socialism, C. Sandburg reports every week. Two-bagger this time.

National Organizer Goebel is mak-ing lots of trouble for the capitalistic anarchists of Colorado, and the HER-ALD list grows week by week.

Comrade Quinter, Pottstown, Pa, came sailing in with a bunch of ten. He got a bundle last time. Guess that's going some:

Please send me the HERALD from Sept 1, one copy of "S.-D. Founda-tions" and a book catalogue, is the way Comrade Baker of Beet, Mont., puts it.

Comrade Pints, Prairie du Chien, orders HERALD5 for himself and two more. He comes bringing his sheaves with him. Good.

Iowa is a Republican state, but that party is sadly disrupted there at the present time, and Comrade Ferber of Eldorado put five HERALDS at work to help them to a knowledge of real patriotism and industrial truth.

Of the Many'

Contrade Kennedy, Jerome, Ariz, pays to, four sub-cards, a bundle of HERALDS and sends in eleven new ones, one of which goes to a reading room. Kennedy certainly knows how.

There's another Kennedy in the University of Chicago. May the Kennedy class prosper exceedingly.

Comrade Cohen, Philadelphia, enters the club and starts with a two-bagger. Welcome, comrade.

Also the fololwing comrades in Mil-waukée: Paul, Andree, Muelles, Hodge, Wiganowsky, Krantz, St. Clair, Hunchman, Harbicht, Kenckow, Rosenberg, Schneider, Gauer, Piehn, Schmidt, Eckleman, Peor and Wal-

That makes up a noble list for this week and shows the caliber of the 5,000 club, which is the mainstay of the HERALD. It is such work that is brightening the labbrakies and carries hope for the toil-bardened masses. Fight on, comrades, it is the greatest battle for justice and right that the world has ever known, and our efforts will be grandly rewarded.

During the next few months the union laboring man will be the at-traction most dear to the politician, and he will hear more about the cause of the late panic, the stagn tion of industries that has caused so much idleness and even misery, than he ever did before, and he will be asked to support the party nominess of all parties, with the request for union support will be coupled the same old rank line of promises that we have heard for years. The same old gag is used in every campaign
—and it generally works.

As far as the editor of The Jourval is concerned, we do not see that we will be benefitted to any great degree by the change in administra-tion at Washington, be it either Taft or Bryan. Plenty Makes Us Poor. "The civilized stage turns every vice, which barbarism practices in a simple way, into a complex, ambiguous, equivocal and hypocritical form. It moves in a vicious circle, in the contradictions which it eternally reproduces without being able to remove them, so that it ever accomplishes the very reverse of that which it really does or pretends to aim at: for instance, that in civilization poverty is born of plenty .-Fourier.

Shall We Lose This Heritage?

TAKE WARNING OF THE PERIL TO OUR NATIONAL PROSPERITY (so called), INDEED, TO OUR VERY NATIONAL EXISTENCE Without stopping to reason why. Such things we call beautiful The flower because it is the ecstacy of regeneration of vegetation on which we are dependent. WASTEFUL DISREGARD OF OUR WANING RESOURCES OF FOREST AND MINE, OF WATER AND SOIL—NOT FOR DOLLAR MEASUREMENT, BUT FOR THEIR ENVIRONMENTAL EFFECTS ON MAN, WITHOUT SOIL—NOT THE RESULT OF THE R experience a temporary sojourn amidst natural scenic delights, STARVE. ONLY A PART OF OUR ASSIMILATION COMES THROUGH OUR STOMACH. OUR BEAUTIFUL COUNrecognizes the renewing of strength and spirits that accrues.

OUR BEAUTIFUL COUNTRY'S BENEFICIAL RELATION TO OUR LIVES, IS BEING DESTROYED BY THE VANDALISM OF THE PROFIT-FOX.

The great desert of Sahara, so singularly like the United States in contour and extent, the geolo-

Up to a year ago there was some hesitancy on the part of a few, finding that a power company had begun the erection of a concrete dam, calculated to raise the water 20 feet. This would convert the Dells into a lake, destroying the major part of its beauty and utility. It would lessen its value for mark nursoess materially, and to stop park purposes materially, and to stop the power company they feared would involve much expense and warfare, knowing that burglars and sneak thieves show fight occasionally.

Mr. Spooner and some of his co-operators, who used their influence in Washington for getting federal "dis-pensation" for the evasion of some legal barrier, "called down" some of the park advocates, lest they should interfere with their "making their nile"

The people of Kilbourn were per-suaded that their interests were of a co-operative nature, and were for a time actually made "dam crazy," but the engineer who whispered to some of us that their estimate of the cost was far too low and that the power would not fulfill their claims made in would not fulfill their claims made in floating the bonds, appears to have been wise, because the "Spooner contingent" have sold out while confidence was intact. It appears that Electric Railway interests have taken a grip just tight enough to hold all benefits without liability (legal) for the failure or broken promises. The the failure or broken promises. The value of the bonds evidently depends on the quality of the paper used!

The Kilbourn people begin to realize that a great manufacturing center will not be the result, as pictured, and they will need to be sharper than they have been to protect themselves from actual loss. The arrangements made two years ago are not holding together.

The way to checkmate the vandas is simple.

The photograph herewith shows a sandbar which obstructs the flow of water from entering the old river channel. This bar was deposited during a freshet forty-five years ago. The water here is five feet above the level where the dam is being built, so that when the water is raised five feet at the dam, it will flow down this old river channel if the sand is removed. This is easily done. This channel is by far the most beautiful and is about four miles in extent, emptying into the present stream a short distance below the dam, therefore no matter how high the dam is built, this outlet will constitute a sluice-gate preventing any more than a trifle of the rock, now so popular, from being submerged, while the addition of the four miles of boating will more than compensate.

WISCONSIN.

The Dells of the Wisconsin River and Devils Lake are pre-eminently beautiful, and if kept in their natural state of utility, they will prove to be a Godsend to our people who are entitled to their benefits. Their value to man is beyond the measure of gold. To allow a few usury leeches to appropriate them would be nefarious.

We must hold inviolate our scenic heritage. Other water powers in the state would give as much electric energy, but all the world has not the sequivalent to the Dells in benificent influence upon that minds and physical single of people.

"The fruit of the ages was ripe unto harvest for the pioneer. The half of what he did not eat was wasted and turned over to budding trusts to be used in shaping shackles for his own ankles and wrists; so that after thirteen decwrists; so that after thirteen decades of freedom for which the fathers fought, a few men, none chosen by the people, hold in their hands the industrial and commercial destiny of eighty millions of citizens. So substance is being scattered and tyranny being trained."—(W. J. McGee, Erosion Expert.)

Wood is growing a quarter as fast as it is cut. The homestead spring is drying up. The mill stream is shrunken to a slimy thread. The old town dell is torn by storm torrents. The river is beset by bars. The riverside fields cave into the flood a yard at a time, while the richest of the soil washes into the sea.

Wisconsin, to prevent needless disaster, has made a good begin ning in acquiring land to protect Chicago. The authors have taken a small town in South-Western Missouri for their story, and the time to their story, and the time the rainfall by nature's sponge-is 1898, when conventions, and not like reservoirs, hills aerated by vegetation. Our rivers must be kept clean. The forester looks at them as a physician looks at your tongue. They cannot be used as an open sewer, because what is filth in water, is food for vegetation, therefore a filthy stream de-notes a waste for which mankind becomes impoverished. There is no escape, although the powerful are the last to suffer.

We have so grown and develope with vegetation as to become in-separable. As the foliage ab-sorbs the poison of our breath and gives it back pure to use again, so do the roots cleanse and make over into fruit, all animal waste There is a counter balance or automatic exchange of elements be-tween the animal and vegetable under normal conditions, which we must preserve in order to be a healthy people. The sources of spring and well, and brook and river, of flowing sap and pulsing life blood, all run back to the life enediction of the clouds and rays of the sun, all co-operate in na-ture's own automatic way. And when these economies of beauty when these economies of beauty are interfered with, we have disease. Hypocrisy and deceit are only forms of debility, mental imbecility and bodily disease, occasioned by devitalizing environment. Burbank says, "We must learn that what we call character is heredity and environment in combination, and heredity being only stored environment, our duty and our privilege is to make the stored shvironment of the best quality." Characters thus acquired of so many generations within autural environments, have come to love many things. THE CLANCY RESOLUTIONS.

Republican and Democratic Aldermen Alike Rejected Them at Monday's Meeting!

WHEREAS, Sworn charges of a most serious nature have been lately presented to the mayor, reflecting on the chief engineer of the fire department of the city, Thomas A. Clancy, alleging among other things graft, petty stealing, subornation of perjury, mismanagement and incompetence, and the extortion or receiving of a collection from the firemen, all of which charges tend to affect the standing of the said department and its chief with the public; and

WHEREAS, The said Chief Clancy, instead of asking for a thorough investigation of these definite charges, discharged ten members of the fire department the moment the charges were filed, most of the men being known as fearless and valuable fire fighters, and one of them even being the possessor of a hero medal; and

WHEREAS, The summary disminsal of these men, with one exception cuts them off from the benefits their families would receive from the pension fund, making the money paid in for years from their salaries each month for such find a dead less to them; and

WHEREAS, The mayor, David S, Rose, instead of submitting the charges to the Board of Fire Commissioners, dismissed them as fining after an exparte examination, in which members of the department were questioned in the presence of the chief, who is the master of their bread and butter; and

WHEREAS. The entire matter has badly shocked the public and the
fire departmen, stands to suffer by the feeling engendered; therefore
RESOLVED. That this council appoint a committee of three, no two
members of which shall be of the same political party, to make a thorough investigation of the charges and report their findings at the earliest
possible moment.

DEAD ONES.
One way for the old parties to beat the Social-Democrats is to vote a sufficient member of vacant lots and corpses. There are plenty of these on the registration lists now. Accordingly part of the business of the Social-Democratic party is to cut out these fraudulent names from the registry, list before election. This can be done on Oct. 27, if the comrades will follow directions now being sent out to all the ward branches. If we cut down the fraudulent vote of the old parties by three or five thousand names, it will go a long way towards making our hard world in the propaganda effective.

So please parattention to the canvassing of the precinct lists. It may mean the efection of your candidate—it may mean the carrying of the county and electing two congressmen.

Korch's Hall.

A new branch of the party was organized recently at Town of Lake to be known as Branch No. 2. The regular meetings of the branch will be held the first and third Wednesdays of each month at the cornar of Oklahoma and Chicago avenues. The officers are: O. Strersth, secretary; F. Sponholz, treasurer, and M. Strersth, literary agent.

A letter has been printed and will be circulated tomorrow (Sunday) from house to house, asking donations from friends and sympathizers for the campaign fund, as we would very much like to cover all expenses of the president of the campaign and come out of it free of debt.

HERE IS OUR PLAN

We will furnish you with subscription blanks, and you can get your neighbors and shopmates to sign them; then you send or bring them to us and we will book the subscriptions and, within 30 days, our collector will call on the subscribers for the money. You do not have to collect, and that will make it easy for you and easy for the subscribers. (Note—Outside of Milwaukee city the cash must accompany the subscription, as we cannot collect outside of the city.) For every yearly subscription we will issue a coupon good for twenty cents in cash, when the collection is made by us. Just think of it—you get twenty cents for each signature. And you can get a lot of them. They will come easy now in the heat of the political campaign. A few moments of your spare time daily will accomplish a work for Socialism and make you a neat sum of money, and if you put in a few spare hours you can secure a handsome premium besides. Competition NOT open to Herald office or party office employes.

Comrades, get busy and start the subscriptions at once. All have a chance, and you get the cash commission any way. We must have 10,000 more subscribers, and we want them right now, before election. Lose we time, but send for blanks, read the plan carefully and set to work among your neighbors and shopmates. Subscriptions count equally for Herald or Vorwaerts. Two 6 months' subscriptions count as one yearly. Watch this advertisement and the reports of the contest. Who will take the lead through the coming week?
