Are the Trusts to Own the Nation? Or, is the Nation to Own the Trusts?

The Leaders of Both Old Parties are Greased with Boodle from the Oil Trust

The time has come to recognize the truth that the people of the United States are not going to be swindled again, and that they are going to give the trusts a "vote of no confidence." If they do, we must be prepared to face the consequences. The working people make up a large majority of the population, and they are determined to do something about it. It is essential that the trusts be placed under the control of the people, and that the nation be given the right to own the trusts. This will help to prevent another depression, and it will benefit the working people in the long run. Therefore, we must vote for social-democratic candidates and let them run the trusts.
WHAT HELP COULD ANY WORKINGMAN EXPECT FROM CANDIDATE BRYAN?

By ALLAN L. BENSON.

T HERE are still workingmen who will blindly believe that in the future, when the Bryan slogan is again repeated, the laboring class will get back from the Senator what they have never received from the Senator. Here is a glimpse of what the Senator's followers have received from him in the past.

What he would Mr. Bryan do? A practical politician, he would let the people know that he would make a good president. He would tell the people that he was a great man and a great leader. He would tell the people that he would do great things for them. He would tell the people that he would make the world a better place. He would tell the people that he would make the world a happier place.

But no president is ever to be trusted. His words are not always true. It is better to be cautious and careful. It is better to be sure that what you read is true. It is better to be sure that what you hear is true. It is better to be sure that what you see is true. It is better to be sure that what you believe is true. It is better to be sure that what you expect is true.

The People Want to be Amused.

By ERNEST POOLE.

If you ever try to write books, remember, there's no such thing as a 'great book.' It's just a bunch of words strung together in a row. If you want to be famous, write about what the public wants to read, not what you think is important. At least, that's what I say.

AN INTERVIEW BETWEEN CARL SCHURZ AND BISMARCK.

By HORACE B. WALSLEY.

[Text of interview discussing various political issues of the time.]

"Taft to "Kill Socialism!"

The "Socialist" has just printed an article attacking President Taft for his actions. It seems that the President has been too soft on the Socialists, according to the article. But Taft must remember that his primary duty is to the American people, not to the Socialists. He should stand firm and not be swayed by their influence.
DON'T BE A TOMATO.

By SEN HANFORD.

There is plenty of work that is not of the "bread, butter, public buildings, libraries, schools, churches, parks, docks and harbors" type. In any case, there is need for the construction of certain public works. The American people are not going to help you. If there is in the state or in the city, or in the country, or in the nation, a place you would like to have a big building, and you are in the building business, and you want to make money, and you want to pay your men, and you want to make your family comfortable, and you want to get ahead, and you want to make a name for yourself, and you want to have a lot of power, and you want to be a politician, then you must go into the building business. The American people are not going to help you. They are going to help the man who is going to do the job, who is going to make the money, who is going to pay the men, who is going to make the family comfortable, who is going to make the name for himself, who is going to make the power, who is going to be the politician. They are not going to help the man who is going to do the job, who is going to make the money, who is going to pay the men, who is going to make the family comfortable, who is going to make the name for himself, who is going to make the power, who is going to be the politician, but they are going to help the man who is going to do the job, who is going to make the money, who is going to pay the men, who is going to make the family comfortable, who is going to make the name for himself, who is going to make the power, who is going to be the politician.

Mr. Hanford has been in the building business for a number of years, and he has been very successful. He has built many buildings, and he has made a lot of money. He has paid his men, and he has made his family comfortable. He has made a lot of power, and he has been a politician. He has been very successful.

When I passed through Milwaukee, I was unable to find a hotel where I could get a good meal. However, I was lucky enough to find a quiet cafe where I could have a good breakfast. The cafe was quiet and peaceful, and the food was excellent.
