SILENT POISON MEETINGS.

The I. O. U. is in its natural habitat. It has been known for years past that the I. O. U. is an organism living entirely on the life of its host. The I. O. U. feeds on the life of its host and kills the host. The I. O. U. is a silent poison. It is a silent poison that never speaks. It is a silent poison that never makes a sound. It is a silent poison that never causes a disturbance. It is a silent poison that never causes a disturbance. It is a silent poison that never causes a disturbance. How It Came About in Germany.

Every nation Socialist through the civilized world knows that Germany has the strongest and best organization of workingmen that exists. It is known that the German-Social Democratic party has the largest franchise of any political party in the world, 12,000,000 in a country of 40,000,000. This rate of progress is due to the combined efforts of the many workingmen and women who are in the party. The ideas of the party are the升华 of the ideas of the workers, and the party is the totality of the ideas of the workers.

THE FIVE THOUSAND CLUB.

Conrad Steiner, who is now the manager of the H. H. L., has introduced the five thousand club into the United States. He has already made a great many friends in this country, and he expects to make more. The club is open to all who are willing to contribute five thousand dollars to the cause of Socialism.

Franklin Delano Roosevelt.

Mr. Roosevelt is a great friend of the Social Democratic movement. He has been a consistent supporter of the party, and he will continue to be. He is a man of great intellect and a man of great heart.
