IF CHRIST SHOULD COME TO DENVER!

WOULD PUT TO SAME CHRISTIAN "BROTHERHOOD."

This is the View of a Writer in a Mag. May 15. Night Begins and How It Would Put the Capitalist System Out of Joint.

By Kenneth Mackay.

We have seen some "christians" who will be considerably exercised at the idea of long-distance travel for Christ. In "The Christian" of the present issue, there is a letter from the subject of "Christ Should Come to Denver." In it, the writer says:

"Meanwhile, the social revolution is going from bad to worse for the capitalist diet, and in the next few weeks you will have considerable evidences of the mistake made by the master spark, and that the man who thinks he can do without a body would find themselves doing the same thing."

He goes on to say: "In the mean time, hold on to your hats."

The whole writing is in the spirit of the "New Outlook." It seems to be as the arrival of the social revolution as the arrival of the world, with the result that most of the capitalists will be out of place in the house, and without a body they would find themselves doing the same thing as we did before the social revolution."

"TAP TALKS TO TOILERS" (Edited for THE WORKER.

WE Socialists are always prepared to make our political management a point of honor, and we always do it when we have the opportunity. We believe that if we can get a hearing, we can have a voice. The only way we can have a voice is to get a hearing, and we believe that if we can get a hearing, we can have a voice. We are always prepared to make our political management a point of honor, and we always do it when we have the opportunity.

It is not a question of whether we are right or wrong, but of whether we are heard. The only way we can have a voice is to get a hearing, and we believe that if we can get a hearing, we can have a voice. We are always prepared to make our political management a point of honor, and we always do it when we have the opportunity.

PUBLIC SCHOOLS ASSAILED!

Milwaukee Social-Democratic Aldermen Trying to Save the Schools from Mayor Rose's Scheming.

Milwaukee: The Social-Democratic Aldermen of Milwaukee have taken strong action in the city council to prevent any further reductions in educational funds, and to establish a fund for the purpose of paying the costs of maintaining the schools. The Aldermen's motion, which was seconded by Alderman John Rose, was carried on a voice vote.

Under the former Rose administration the public schools were cut down to a bare minimum. The Aldermen believe that the schools have been underfunded, and that the present mayor's budget is inadequate to meet the needs of the schools.

Under the new administration, the Social-Democratic Aldermen will work to increase educational funds and to provide better facilities for the pupils. They will also work to ensure that the schools are properly staffed and equipped.

The Aldermen's action is a step in the right direction, and they are to be praised for their efforts to improve the educational system in Milwaukee.

Schoenberger, the Mayor, who is opposed to the Aldermen's action, is quoted as saying, "The schools are well run and there is no need for any additional funds."

The Aldermen are not convinced, however, and they will continue to fight for the educational rights of the children.

Legislation.

Several important pieces of legislation have been introduced in the city council. Among them are:

1. A bill to increase the city's budget by $10,000,000
2. A bill to establish a public library
3. A bill to provide for the construction of a new city hall

These bills, if passed, will greatly benefit the citizens of Milwaukee. The Aldermen are working hard to see that these bills are passed as soon as possible.

Conclusion.

In conclusion, the Social-Democratic Aldermen are doing their best to improve the educational system in Milwaukee. They are working hard to ensure that the schools are properly funded, and that the pupils are provided with the best possible educational opportunities.

The Aldermen's efforts are greatly appreciated by the citizens of Milwaukee, and they are to be commended for their dedication to the welfare of the city's children.

END

WEATHER

Rainfall for the past week was light, and the temperature was moderate. The weather is expected to remain stable for the next few days.

Organized Labor

The Philadelphia Strike. The Philadelphia Street Railways Strike is said to be street railway strike of the year. The strike began on Jan. 6, 1909, when the employees of the Philadelphia Street Railways Company voted to罢工, demanding higher wages and better working conditions. The strike lasted for several weeks and was eventually settled with the company agreeing to several of the workers' demands. The strike was seen as a significant event in the labor movement of the time, as it demonstrated the power of organized labor and the importance of workers' rights.

Fighting Graft in Manitowoc County.

The storm center in the fight against graft in Manitowoc County was on the line this week as the Wisconsin paper, the Free Press, published a front-page story on the subject. The paper reported that two men had been arrested in connection with a $50,000 graft ring operating in the county. One of the men was required to turn over $50,000 worth of county bonds, and the other was charged with making false statements to cover up the graft.

The story commented that the Free Press had been trying to expose the graft for months, and had been met with threats and violence. The paper reported that it had received death threats and had been subjected to harassment by local officials.

To that end, the paper's editor wrote:

"This is not the first time that the Free Press has attempted to expose graft in Manitowoc County. We have been threatened and intimidated, but we will continue to fight for justice and honesty in government."
The Latest Fad of "Reform!"

To the Editor of the "FOOREAL!

It seems that "reformers" are everywhere these days. The idea of political parties is responsible for the corruption and inefficiency of municipal administration. The only way to observe in the manner in which these things work is to find a good man for mayor, and not get into any wrecks or catastrophes - the sort that a politician in the past with such good a political "business" style would bring about.

The "business" men, it seems, are the ones who care about the affairs of the city, the people who understand the needs and wants of the community. They are the ones who have the business acumen to make things work. They are not interested in the politics of the moment, but in the future of the community.

The "business" men are the ones who are looking for a better, more efficient way of doing things. They are the ones who are thinking about the long-term future of the city, not just the next election.

The "reformers," on the other hand, are the ones who are interested in politics. They are the ones who care about getting elected, not about making things work for the people. They are the ones who are interested in the short-term, not the long-term.

The "business" men are the ones who are interested in making things work for the people. They are the ones who are interested in the future of the community. They are the ones who are not interested in politics. They are the ones who are interested in the long-term, not the short-term.

Political Refugee Defense League

Secretary of State Elihu Root was present, announcing that the President has retired from the Executive Department and the Department of State. The Secretary of State was succeeded by Mr. F. H. Underwood, who has been appointed Assistant Secretary of State.

The Social-Democratic members of the Congress, in their resolutions, declared that the President was acting in a manner that would tend to give the impression of diplomacy and politics. The resolutions were adopted by a large majority.

President Wilson, speaking of the President's action, said that he had confidence in the ability of the President to carry out his duties.

The President's action was greeted with approval by the Social-Democratic members, who declared that it was a step in the right direction.

Mexico was quite as bad as the average person, and the prospect of a spectacle of people living in a state of captivity and fighting for the same degree of liberty as in the United States is a great source of encouragement. The work of the refuge fwage will not be completed until political freedom is obtained for the people of the world.
