BRIEF COMMENT ON PASSING EVENTS.

By Fredric B. Luchter

Formerly still insist that the men in the fight are born, I have come to the conclusion that they probably have not been born yet.

The government of life has not yet been established in Wisconsin. The first requirement for establishing it is the establishment of a police force in which the police are elected by the people.

We have not yet had a police force in Wisconsin, and we do not need one. We do not need a police force because the police force is the only logical and practical way of maintaining public order.
FOOLISH NOTIONS AS TO SOCIALISM

FOOLISH NOTIONS AS TO SOCIALISM

BY CARL D. THOMPSON

Author of "Back to the Future,"

I have been troubled and perplexed without measure by this recent turn of events. The reason is that I have been unable to find out what does Socialism mean? And they said socialism existed.

CAPITALISM is a bad system which is going to be changed in time. Socialism is a system which is going to be changed in time. When you look at a tree, it appears that it is growing straight. But when you look closely, it turns out that it is actually growing in a spiral pattern. This is also true of capitalism and socialism. Both systems are flawed and need improvement.

Some time previous my wife had made some wine, which she claimed was a success. She had followed a recipe, based on the idea that all wine should taste good. But the wine was not very successful. She had spoken to her neighbor, who was a wine expert. The neighbor had given her some advice, but then she had gone on to say that all wine should taste good. The neighbor had then added that she did not know what people were talking about.

"Frustrated," read I. "I have no idea, I now know what people are talking about.

It is impossible to make a judgment about these systems. Capitalism is full of corruption, but it is working, it is successful. Socialism may have the answer to the world's problems, but it is not yet ready. All the people will have to work together to find the answer, not division.

PROLETARIAN PLEASANTS

By CARL D. THOMPSON

What is this new system called socialism? It is the belief that the government should control all industries and resources. This system was brought about by the many years of poverty, want, and disease. It is the belief that the government should control all the resources of the country.

The word "capitalism" is a much easier to pronounce than "socialism." The word "capitalism" is a much easier to pronounce than "socialism."

The Working People As They Are

SOCIALISM CERTAIN TO COME, SAYS PROFESSOR RAUSCHENBUSCH

Men prominent in the city's industrial, cultural, and religious life have been quoted in the press of late as saying that Socialism is on the march.

"It is true," said Mr. Brown, "that Socialism is gaining ground, but it is not certain that it will come within the next year."

"I think," said Mr. White, "that Socialism is certain to come, but it is not certain what form it will take."
WHO CONSTITUTE THE PROLETARIAT?

This question was raised in the discussion of industrial democracy in the Departmental meeting of the Socialist Party. It is a question that any group of organized workers must consider when it is trying to determine what are the claims of its own members. The Socialist Party has taken the position that the proletariat is not a class but a group of individuals who are in the process of becoming a class. The question of who constitutes the proletariat must be answered in order to determine the scope of the group's work.

The Departmental meeting of the Socialist Party was held on the evening of November 25th. A large number of members were present, and the meeting was conducted in a friendly and business-like manner. The discussion on the question of who constitutes the proletariat was one of the main topics of the meeting.

The Socialist Party has been active in the city for a long time, and has made many contributions to the welfare of the working class. It has done much to improve the conditions of the workers, and has been a strong advocate of industrial democracy. The Socialist Party has been successful in its efforts, and has been able to organize a large number of workers. It is a group of people who are dedicated to the cause of the working class, and who are willing to work for the betterment of the community.

The Socialist Party has a strong following in the city, and is able to attract a large number of members. FOR SALE CHEAP—HUMAN LIE!

The above will be the title of the play at Ethical Hall, tonight, enacting by Harvey Doe Brown. In this play, there is a character called a "Human Lie" who, as the play develops, is seen to be a liar. The play is intended to demonstrate the falsehood of liars and the consequences of their actions.

The play opens with a scene in which the "Human Lie" is introduced. He has a reputation for telling lies and is known throughout the city as a fraud. As the play unfolds, the "Human Lie" is confronted by a series of challenges that test his ability to deceive. Each challenge is more difficult than the last, and the "Human Lie" is forced to use increasingly clever and devious tactics to maintain his facade.

The ultimate test comes when the "Human Lie" is confronted by a group of detectives who have been tracking his activities. The "Human Lie" must use all his wits and cunning to avoid exposure, but in the end, his lies are discovered and he is brought to justice.

The play is a cautionary tale about the dangers of lying and the importance of honesty. It is a reminder that the consequences of our actions can have far-reaching implications, and that we must be careful about the lies we tell and the stories we create.
