BRIEF COMMENT ON PASSING EVENTS.

By Fredric, Bank

No essay or proof from high levels in Washington, or from any other quarter, can have been more disconcerting to most of the voting public than the emphatic manner in which the President has publicly accepted the responsibilities of the situation, and to the satisfaction of the people. That the President has found it necessary to do so is a matter of satisfaction to the nation.

The President's statement comes as the sequel to the situation which has developed from the publication of the Secretary of the Treasury's report on the report of the Committee on Banking and Currency. The President's statement was made in the course of the last three months, and it is clear that the President is well aware of the fact that the country's financial condition is in a state of great confusion, and that it is necessary to take immediate action to remedy the condition.

The President's statement was made in the course of the last three months, and it is clear that the President is well aware of the fact that the country's financial condition is in a state of great confusion, and that it is necessary to take immediate action to remedy the condition.

TALKS TO TOILETS

By ROBERT HUNTER

The christ in Mr. Taft’s lawyer, Kneff, was a little over five feet tall. He had a stocky build and was dressed in a gray suit with a white shirt and a tie. His hair was neatly combed and he had a mustache.

And His Secretary of State.

The fact is that this is the second time that the President has had a man in his cabinet who was not a lawyer. The first was Mr. Taft, who was Secretary of War in the administration of President Coolidge.

The corporation lawyer defended the President on the ground that the corporation in question had a right to its property, and that the corporation was not responsible for any injury that might result from the use of that property.

The President is a lawyer by profession, and his knowledge and experience in the field of law are well known.

He is a man of great ability, and his advice is always sought by his colleagues and friends.

And his Secretary of State.

The fact is that this is the second time that the President has had a man in his cabinet who was not a lawyer. The first was Mr. Taft, who was Secretary of War in the administration of President Coolidge.

FOOLISH NOTIONS AS TO SOCIALISM
BY A BUSINESS MAN

SOCIALISM IS IMPRACTICAL

This article is designed to be taken with care. It may prevent the present generation from realizing the folly of its ways. We would welcome the result.

In considering the question of practicality of socialism, three factors are involved: (1) the conditions and environment of the present time; (2) the character and mental capacity of the mass of the people; and (3) the organization and structure of modern industry.

The conditions of the present time are such that socialism is unwise and impractical. The existing economic system is the result of thousands of years of evolution and development. It has been tested and improved by the experiences of the past, and it is continually being refined and perfected by the ingenuity and skill of the modern industrialist. Socialism would destroy this system, and substitutes a new one, which is both unstable and inefficient.

The character and mental capacity of the mass of the people also make socialism impractical. The average person is content with the status quo, and is not ready to make the necessary sacrifices to implement socialism. The average person is also too shortsighted to appreciate the long-term benefits of socialism without the corresponding hardships.

Finally, the organization and structure of modern industry make socialism impractical. The large-scale production and distribution of goods and services require a highly developed and organized society. Socialism, on the other hand, would not be able to offer the same level of organization and efficiency, and would be unable to support the existing economic system.

In conclusion, socialism is impractical and should not be pursued as a solution to the problems of society. It is important to consider the practical implications of any proposed solution, and to avoid adopting systems that are both impractical and detrimental to the well-being of society.
The People Shall Rule!

A Plain Statement of the Facts in the School Controversy

We take the following statement circular just issued by the Committee of the Wisconsin Society of Civil Liberties.

The full text of the board of education's Report is in our school board's Record Book for schools building. Their former offer was rejected which was raised in the open session of the Board of Education to receive the vote of the people, which was held last Saturday, May 12th, and recommend it to the Board of Education for their consideration.

But the mayor and the council have no authority to take a position on a matter of policy by a policy vote at all. It does not rest with the council to make such a decision.

The present law, under which we have been working, is that the city council shall make the decision. The city council shall make the decision on this matter, and it will make the decision on the matter of politics and make the decision on the matter of policy. That is the decision of the city council, in the judgment of the judge who is a member of the school board, and the judge of the city council. The decision of the city council is one of the decisions of the city council.

Repetition plays a unique role in that musical institution, "The People Shall Rule!" at the Madison Theatre later tomorrow afternoon. The recital schedule is described as a selection of delightful and popular songs.
Town Topics by the Town Crier.

"THE CRIMINAL." At Ethelton, Sunday evening, a blackboard lettering which read, "The Criminal." Good evening to all the citizens of the town of Ethelton. Greet your neighbors and wish them a good evening.

All friends at the School Meetings will want to know that our meeting place will be held in the School House upon the 23rd of this month.

The meeting will be conducted by the committee members.

Whoever does not attend will be missed.
