WE ARE ENTITLED TO REPRESENTATION

BY Victor L. Berger.

The United States has never been a democracy. Its history is a series of restoration and reform movements, of the reassertion of popular sovereignty against the obstruction of the privileged classes. The struggle is not yet over. In all countries, the people are the property of the government. The United States is no exception. What we are fighting for is liberty and freedom. We are fighting for the democracy, not the plutocracy.

However, these changes are not "legal," and we must ensure that they do not happen. To do this, we must vote. We must vote for candidates who will represent us, not the rich.

The Social-Democratic movement is the voice of the people. We are the voice of the voiceless. We are the voice of the voice of the voiceless.

SOCIAL-DEMOCRACY IN MILWAUKEE WILL HAVE A GRAND HOME OF ITS OWN!

The first thing one was the drawing of a map of the city showing the various districts. The funds necessary to finance the publication were soon raised. It was for the largest time that people had been interested in the city. The next thing was the printing of the paper, which was done by the local printers. After the first edition, plans were submitted to the city, where they were immediately accepted.

The next step was the printing of the Milwaukee Social-Democratic Publishing Company's paper. The printing of the paper was done by the local printers. After the first edition, plans were submitted to the city, where they were immediately accepted.

The first issue was published on April 2, 1909, and was a great success. The paper was well printed and well written. It was read by the people of the city, and they were pleased with it. The paper was well received, and it was decided to publish it every week. The paper was well received, and it was decided to publish it every week. The paper was well received, and it was decided to publish it every week.

The Milwaukee Social-Democratic Publishing Company was established. The company was well organized, and it was well run. The paper was well written, and it was well printed. The company was well financed, and it was well managed.

The Milwaukee Social-Democratic Publishing Company was a success. It was well received, and it was well read. It was well written, and it was well printed. It was well organized, and it was well run. It was well financed, and it was well managed.

Roosevelt's Exposure of Class Justice!

Theodore Roosevelt has written to a group of distinguished intellectuals on the subject of the recent depression, stating that it was caused by "the failure of the capitalistic system to provide for the needs of all citizens." He said that the depression was a result of the failure of the system to distribute wealth equitably and to provide for the welfare of the working class.

The president has also stated that the depression is not a temporary phenomenon, but a sign of a fundamental flaw in the system. He called for a new approach to economic policy that would ensure a fair distribution of wealth and a better quality of life for all citizens.

The president's statement has been met with mixed reactions. Some have praised his vision of a fairer society, while others have criticized him for advocating for a socialist system. Many are calling for action to address the root causes of the depression and to create a more just and equitable society.
FOOLISH NOTIONS AS TO SOCIALISM

SOCIALISM IS CONTRARY TO HUMAN NATURE.

This foolish notion is largely due to what is known as "the great manias," a simpleton's way of looking at the world. It is based on the idea that human nature is the same today as it was when Adam and Eve lived. It is also due to the fact that the human mind is so easily deceived and that the human heart is so easily moved by the passion of love, hate, or ambition.

But let us go back to the ancient times to show that human nature is not the same today as it was when Adam and Eve lived. The Bible tells us that Adam and Eve were the first pair of creatures to be created, and that they were the first to sin. They were the first to eat the forbidden fruit of the tree of knowledge, and thus they were the first to be cast out of the Garden of Eden. They were the first to be punished, and thus they were the first to be made to feel the consequences of their actions.

But let us continue our study of human nature. We will find that human nature is not the same today as it was when Adam and Eve lived. The Bible tells us that the first pair of creatures to be created were the first to sin. They were the first to eat the forbidden fruit of the tree of knowledge, and thus they were the first to be cast out of the Garden of Eden. IT SHOCKED THEM. By Russell John.

The Queen of the Barbers was a fashionable, select school of young, skilled, situated in Barbersville, New York, four hours' walk. The story of M. J. Mansfield, who was the most famous of these men, has been taken, is well known.

So was the case of John M. Mansfield, who was the head of the only barbershop on the corner of Main and Market streets. He was a man of much prestige and influence.

The union was made up of four men, and had been formed by them to protect the interests of their profession. It was headed by "Vigilantes for Women," and its members were not only skilled barbers but also active in the political life of the city.

One day, as the union met in the barbershop to discuss current events, a Miss Moxey posted a notice on the bulletin board, addressed to the guests of the shop. It was headed: "Vigilantes for Women. 400 Sixth Street, New York. Any woman who has not previously opposed the unorganized barber shall do so now, and an organized association of such women shall be formed."

MISS Moxey was a woman of many talents, and her organization was made up of women who had previously opposed the barbers. The union decided that if the organization were formed, it would be called the "Barber Women's Union," and its officers would be Miss Moxey, President; Mrs. Mansfield, Vice-President; Mrs. John M. Mansfield, Secretary; and Mrs. John M. Mansfield, Treasurer.

VOTE AS YOU FEEL. By Russell John. The organized workers have been fighting for the cause in our city for years, and they are the only ones who can do it. The labor union has been formed to protect the interests of the organized workers.

Asphalt Trust vs. Schools! - Who Is extravagant?

David Rose and certain of his associates have been making a great deal of money as the result of the mismanagement of the public school bond of Milwaukee, and the Milwaukee Chamber of Commerce is urging them to resign.

The Milwaukee Chamber of Commerce, in a report recently issued, states that the Milwaukee school district has incurred a debt of $20,000,000, and that the asphalt trust has been paying more than the city has ever paid for the services of its engineers.

This is the real extravagance, and we urge that the public schools be administered more efficiently.

Joseph Carmichael, a prominent attorney for David Rose, denied the Chamber of Commerce's charges, saying that the city was being unfairly charged with extravagance.

Carmichael further alleged that the Chamber of Commerce was attempting to influence the city's financial decisions, a charge that the Chamber of Commerce denied.

Every modern city is paying its schools, and it is obvious that the Chamber of Commerce is attempting to influence the city's financial decisions.

We recommend that the Chamber of Commerce cease its attempts to influence the city's financial decisions.

Shall Corporation Attorneys Pick Our Judges?

We must support Federal Judges. The candidates for the office of Federal Judge in the United States District Court for the Eastern District of Wisconsin have been selected by the Corporation Attorneys, and we believe that this is the best way to select judges.

We believe that the Corporation Attorneys are qualified to select judges, and that the system of selecting judges by the Corporation Attorneys is the best way to select judges.

We recommend that the system of selecting judges by the Corporation Attorneys be continued.

SOME OF THE FORMALIST SOCIETIES IN THE WORLD ARE ALMOST ENTIRELY MADE UP OF ROMAN CATHOLICS

The public school system is one of the greatest agencies for the popularization and diffusion of the broader views and more liberal ideas, but the chief barrier against the advancement of ignorance, superstition, and blind prejudice is the public school itself.

However, Mr. Daniel Rose, the present mayor of our city, cleverly bases the public schools, in a fact of which we are greatly concerned in our administration of the present. The public school in the main, right and wrong, has not been permitted to run out of control. To a large extent the public school has been controlled entirely by the Roman Catholic churches.

Now Mr. Darcy Rose, the director of the Roman Catholic system of education, is an expert in this field. He has worked without ceasing the school board and has, without the public school system, been controlled by the Roman Catholic church.

The legal committee which the Roman Catholic church controlled by the Roman Catholic church, by the Roman Catholic church.

Chief among the reasons that Mr. Darcy Rose has given is that the public school system is being controlled by the Roman Catholic church. It is a sad truth that the public school system is not being kept under control by the Roman Catholic church. It is a sad truth that the public school is under the control of the Roman Catholic church.

The Roman Catholic Church is the only one that has gained influence during the last ten years—mostly through the agency of the American Archdiocese of Archdiocese.

The people of the United States—except the Papists, the liberal Catho-

lics, Jews, atheists, and all those who are friendly to the public school system—have not been uncontrolled by the Roman Catholic church. The Roman Catholic church has never been in control of the public schools of the United States.

The Roman Catholic church has always been in a minority position and has always been a minority position.
