Comment on Passing Events.

By Fredrick Howes

All times are hard times for the people who do the work.

Conceivably the capitalist system by the extreme exploitation of the worker, is living by his toil.

Here's some luck, and more of the same. The American people have at last awakened to the game between nations, called 'War.'

Sooner or later there comes to every one the realization of an unrequited old age.

And, with very few exceptions, every man, woman, and child in the country, in this the greatest generation of the American people, is in the toil of earning a living.

The first page to be printed in North America, in 1476, was the Nuremburg Chronicle, a book in Latin, composed by the German printer, Johann Fust, and the goldsmith, Peter Schöffer. The print was made by hand in a shop in a small city in the Rhineland, and the work was done by fellow workers who believed in the principles of democracy and the rights of the worker. This was the beginning of the printing press, and it marked the beginning of the modern world.

CARRYING WATER TO THE PLUM TREE

By William Henry Farber

A true story you shall know them by.

U.S. article not in view.

As the water of a small spring flowed

h «

out of the Hamburg soil, a small

rose out of the earth. It was

the first sign of spring, the first

face of nature, the first

promise of life in the dark.

No, it was not the sun that

warmed the earth—nor the

wind that blustered past—but

the rain that fell in drops of

warmth. The earth was

awake; nature was stirring;

life was about to be born.

For these few, ye shall know

them by:

The Common Good

An "Americanized" Adoption of Robert Blatchford's Famous 'Education Act'

(Continued from last week)

The work is in taxing the

workers, for every pound

taken has been the fruit of

labor.

Relation of Health to Beauty

Women have always been

taught that beauty is

in the eye of the beholder.

But health is more than

beauty. It is the foundation of

all beauty. Just as the

body is the material for the

mind, so the mind is the

material for the body.

If you apply the above principles, I think I can prove to you that

improving the health of your

residents is the first step in

the educational program of

the town. You will find that

the original intention of the

law was to make all the

people in the town healthy

and well. It was also to

make the town a place of

health, not only for the

people who live there, but

for the people who come

there to work.

If you see a man with

mutton chops and a cigar

in his mouth, you know he

is not healthy. If you see a

man with a bigeh face

and a big nose, you know he

is not healthy. If you see a

man with a pale face and

a weak mouth, you know he

is not healthy.

I have never tried any
grafters who supply the wax,

nor have I been in the

habit of buying any

grafters.

I have carried water to the

place where the grafters are

and they have given me a

avity, but I did not like

the taste. I did not care

for the water, so I did not

buy any more.

I was happy when the

water was brought to me.

I have a bottle of water in

my own bottle, and I

carry it with me wherever

I go. I do not have to

buy any more water, for

I have enough.
Some Interesting Facts About Insurance
Robert Hunter

Every day, more than a million Americans own life insurance. The total value of these policies is over $1 trillion. Life insurance is a vital part of personal finance and estate planning.

Insurance companies play a crucial role in our economy. They not only provide financial protection but also contribute to the GDP and support millions of jobs.

New International Secretary

The Socialist Party of America held its annual convention in Chicago on August 15th. The new International Secretary, Harry Bridges, addressed the delegates, discussing the party's plans for the upcoming political season.

Insurance Which Insures

The German government has announced plans to introduce a new national health insurance program. This move is expected to lower premiums and widen coverage among the population.

The Builders' Column

The New York Times

The Builders' Column is a feature that provides updates on the latest developments in the real estate and construction industry. It covers topics such as housing trends, building materials, and regulatory changes.

The Builders' Column

To THAT END, we have a comprehensive guide to the latest trends in the housing market and the best practices for builders and developers.

A Remarkable Achievement

The Indian government has announced a significant reduction in the price of rice. This move is expected to benefit millions of low-income families who rely on rice as their staple food.

These Four Business Systems for the Coupon
Seven Practical and Dependable Ways of Doing Old Things by Newer, Shorter and Easier Methods

How long do you spend getting your monthly trial balance? How much does it cost you to hunt the mistakes in it—to rectify the errors in accounting and pay your force for working overtime? Wouldn't you like to get the trial balance done in three hours to three days earlier, and cut out all the time spent chasing down mistakes?

There are four different ways of doing this with a Burroughs Adding and Listing Machine, and we'll be glad to show you how without any obligation. Old bookkeepers do this without the machine, too, but then there is an error in the trial balance. The Burroughs can't make mistakes.

Let us show you these four time-saving ways of taking a trial balance. Just sign the coupon.

Cut Out the Journalizing of Cash
A lot of time is spent in every office in journalizing the incoming remittances as a preliminary to posting to the ledger, and the danger of posting is doubled. Sometimes the postings can't be made for one or two days, and the remittance is overdue—more chance for mistakes.

Throw your journal aside—save cash posting and de-curate the possibility of posting a wrong account—have an absolute check on the books of the Burroughs Cash Received System. Hundreds of manufacturers are using it, and we will be glad to tell you how for the coupon. We will furnish literature showing...}

DEADLOCK ON TRUSTEES

A deadlock, as the Ben's
board has never seen, was
reached yesterday afternoon.
The board was unable to
reach a decision on the
election of a number of the
trustees. These trustees
were chosen at the annual
election last October and are
to serve another year.

Music for the Masses

It was a interesting and
enjoyable evening at the
Two-Thirds Club last night.
The program included a
twelve-piece orchestra,
followed by a lecture on
music by a well-known
musical critic. The audience
enjoyed the performance
and the_manager thanked
the membership for their
support.

An Act of Kindness

Last Monday morning at 3:20,
several people standing at
the corner of New York and
Wabash noticed a small bobtail
that had been hit by a car.
The driver of the car had
stopped to see if the dog was
injured, but could not find him.
The small dog was later picked
up and returned to its owner.

OLIVE OLIVER

Two witnesses were found
standing in the street last
night, watching a suspicious
man. When questioned by
the police, they refused to
answer any questions.
