Comment on Passing Events.

Socialist in Europe, Socialist in Brazil as the John Burns of France. It remains to be seen how many of our friends regard the evidence regarding Bridge's recent action as evidence of Bridge's regime as prince minister of France. That will be the test.

The Wisconsin State Federation of Labor, Labor Council was in session for the second time under the new rules of procedure which give the Federation the semblance of democracy. The demonstrative against the war in the various countries will be heard up here in a short time. The only call on the Federation to the states is the resolution of the Federation of Labor on the war, and the Federation of Labor will not hear a thing on the subject of the war.

The Washington Post has commented that the Spanish Socialists have formally asked the government to renounce the war. It is certainly a serious matter, and the government of Spain has renounced the war. The Washington Post has also commented that the Spanish Socialists have formally asked the government to renounce the war. Norway

[The Scottish's Appeal]

The evening of Whitsunday, May 30th, from Copenhagen, the
director of a great society for the protection
of children had written to the editors of the
Scottish. This was the second and third time
such a letter had been received. The first letter
had been written to the editor of the New York
State Times, and the second to the editor of
the New York Herald.

The letter was written in response to a letter
written by the editor of the New York Herald,
who had expressed his opinion that the
Norwegian people were not interested in
Norwegian politics, and that they were
satisfied with the government as it was.

The letter stated that the Norwegian people
were very interested in politics, and that they
were very concerned about the current
situation in Norway. The Norwegian people
were not satisfied with the government as it
was, and they were very concerned about the
future of their country.

The letter ended with the request that the
editor of the New York Herald be informed of
the true situation in Norway, and be given the
opportunity to write an article about it.

The editor of the New York Herald was
surprised by the letter, and he was very
interested in the information that it contained.

Tidings of the Times

The city was in a state of great excitement. The
people were gathered in the town square,
waiting for the results of the election.

The results were finally announced, and
there was great rejoicing among the people.
The government had been overthrown, and a
new government had been formed.

The people were very happy about the
result, and they were looking forward to
the future of their country.

When You Need a Doctor

[Article]

If you want to really know how to keep a
family healthy, you must make sure that
they have a good doctor. A good doctor
knows how to prevent illness, and how to
treat it when it does occur.

The best way to find a good doctor is to
ask your friends or neighbors who they
recommend. You can also look in the
directory of your local hospital, or ask
your local health department.

The most important thing to do is to
make sure that you see a doctor regularly.
This will help you to detect any problems
early, and to start treatment before they
can become serious.

Foolish Notions as to Socialism

Socialism is not what it is often thought to be.
It is not about taking over all the
producers, and giving them all the
products. Socialism is about making sure
that everyone has enough to eat, and that
everyone has a chance to work.

Socialism is not about taking away
people's property, and giving it to
someone else. Socialism is about making
sure that the government is there to
protect the people, and to look out for
their interests.

Socialist All Belong to the Lower Classes

This is a common misconception about
Socialism. Socialism is not about
taking everything away from the rich, and
giving it to the poor. Socialism is about
making sure that everyone has a
chance to be happy, and to live a
good life.

Socialism is not about taking away
people's freedom, and giving it to
someone else. Socialism is about
making sure that everyone has the
freedom to do what they want, and to
make their own choices.

Socialist Belief in the Good Will of Man

This is another common misconception about
Socialism. Socialism is not about
believing that people are all good.
Socialism is about making sure that
everyone has a chance to be happy, and
to live a good life.

Socialist Belief in the Value of Work

This is another common misconception about
Socialism. Socialism is not about
believing that work is the only thing
that matters. Socialism is about
making sure that everyone has a
chance to do what they love, and to
live a good life.

Socialist Belief in the Importance of
Individual Liberty

This is another common misconception about
Socialism. Socialism is not about
believing that individual liberty is
more important than anything else.
Socialism is about making sure that
everyone has a chance to be happy,
and to live a good life.

Socialist Belief in the Need for
Collective Action

This is another common misconception about
Socialism. Socialism is not about
believing that collective action is
more important than anything else.
Socialism is about making sure that
everyone has a chance to be happy,
and to live a good life.

Socialist Belief in the Value of
Education

This is another common misconception about
Socialism. Socialism is not about
believing that education is the only
thing that matters. Socialism is about
making sure that everyone has a
chance to do what they love, and to
live a good life.

The Saloon and the Home

What difference would it make in the saloon and drink quaff if every family in America had a home of its own? The answer is, the saloon and drink would then have nothing to do, for there would be no more saloons and no more drinking. The benefits of the home would be universal, for every family would be content with its own home, and no one would desire to go to the saloon or drink. The home would be the great socializing institution, and the saloon would be the great anti-socializing institution. The home would be the place where all the people would meet to discuss the affairs of the country, and the saloon would be the place where all the people would meet to discuss the affairs of the country.

How About It Mr. Machinist?

The organized machinists of this city are really organizing the members they last year during the panic. The district judge has declared an injunction against a 31-hour strike as illegal as 'help to strike workers on the integrated war plant as well as the strike being an interference with the government's war work.

The reduced fees for joining the union, and the fact that the International Association of Machinists is the only organization in the United States which employs only skilled workers, has led to the machinists in Milwaukee and other mid-western cities to organize an independent union. The machinists' Association in this city can be pointed to as a clean-cut, quafed, progressive organization of trade union workers.

It must be expected that in a trade composed of good skilled workers, the organized machinists will be able to make a great deal of progress in the coming years. The non-union men should never lose sight of the fact that if the organization is to make any headway at all, it must turn the inside and advance their ideas from the inside and stand on the outside.

It is stated by the businessmen of that there are about 50 union members in the city, and that they will be, in fact, in the majority of the membership of the Union in the near future.

The mental trade of machinists is one of the most authoritative and most respected in the country. The trade is the largest in the world, and it is the trade that is most in need of the union. Union membership in this trade, second only to that of the International Association of Machinists in this city, has increased 100 per cent in the last five years, and membership in the union is rapidly increasing.

The machinists have increased the strike and strike-breaking workers in the same shop. Certainly the most effective way to stop this strikation is to be charged with the strike. Striking machinists have been organized for years by the management to settle it.

In the last few years, the strikation of the machinists has been revived. The metal trade of machinists has been in the same shop, second only to that of the International Association of Machinists in this city, has increased 100 per cent in the last five years, and membership in the union is rapidly increasing.

In fact, the workman, in the present state of society, is compelled to accept what he is offered, whether it be social security, or better wages, etc. If he does not accept these, he is not fit to work.

The Wisconsin State Federation of Labor, the Wisconsin Federation of Labor, and the Wisconsin Federation of Labor, all of which have been organized in this city, are doing all in their power to make the machinists stand up for what they want, and they are making it known that they are determined to stand up for their rights.

Park Board Takes No Steps For Free Swimming at Gordon Park

Ritter's criticism was heard the night before in a meeting of the socialistic house, when the public health department of the city council on motion of Ald. C. H. Chamberlain, desired that the park department be approached to get swimming permitted at Gordon Park.

"My suggestion on this part," he said, "is that the park department be approached at once, and the matter made a subject of inquiry."

It appears that the Park Board has no plans to proceed in any way with the public health department's request.

At the City's Expense

Complaint is made that Chica's, the new five-cent amusement park, with the city employed charcoal gre'-mister operating the business, was not brought up to the city on Sunday by the city auditor.

'Ve HAVE YOU NOTICED —
That Chica never exposes to the public the fact that the city does not own the park?

Chica, who has been in business for some time, was instructed by the city auditor to bring the park up to the city on Sunday by the city auditor's office.

No matter how the City Council may say, it is clear that the city does not own the park. Chica, who is in the habit of giving a free ride after his regular fare, has been instructed by the City Council to bring the park up to the city on Sunday by the city auditor's office.

The city auditor's office has no control whatever over the city's parks.
