**Victor L. Berger in Vienna**

Translated from the Chicago Tribune:

Mr. Berger, the great leader of the Socialist movement in America, was received yesterday by President Rathenau at the chancellery in Washington, D.C., having arrived in this country on a visit to America. He was given a warm welcome and was presented with a bouquet of flowers by the President.

Mr. Berger is a man of great charm and eloquence, and his speeches are always well received. He is a firm believer in the principles of socialism and has always been a strong advocate of the rights of the working class. His visit to America is expected to be of great benefit to the socialist movement here.

**Miners Die Horribly from Capitalist Greed**

Miners in the U.S. have been dying at an alarming rate from capitalist greed. The conditions in the mines are dangerous and the workers are being paid appallingly low wages. The situation is desperate and something must be done to improve the conditions of the miners.

**Socialism at the American Federation of Labor**

Socialism is on the rise in America, with the American Federation of Labor (AFL) playing a significant role in the movement. The AFL is a powerful organization with millions of members, and its influence is growing. The organization is committed to the principles of socialism and is working to improve the lives of working-class people.

Lesson III - The Economic System

What Government Means? What are the problems of government today? How do governments affect the lives of people? The government is one of the most important institutions in any society. It is responsible for making laws and ensuring that justice is done. Governments vary in how they are organized, and their effectiveness can vary greatly.

What Are the Causes of Socialism? Socialism is a political and economic system that is based on the idea that the means of production should be owned and controlled by the community as a whole. The goal of socialism is to create a society in which everyone is free to pursue their own development and to work together for the common good.

What Are the Effects of Socialism? The effects of socialism can be both positive and negative. On the one hand, socialist societies have enjoyed economic growth and social progress. On the other hand, socialism has been associated with poverty, inefficiency, and corruption.

What Are the Pros and Cons of Socialism? Socialism has both its advantages and disadvantages. It is a philosophy that is based on the idea of equality and justice. Socialism can also lead to poverty and inefficiency. The pros and cons of socialism will be discussed in more detail in later lessons.

What Are the Benefits of Socialism? The benefits of socialism include a more equal distribution of wealth, a higher standard of living, and a more just society. Socialism can also lead to poverty and inefficiency. The benefits and drawbacks of socialism will be discussed in more detail in later lessons.

What Are the Drawbacks of Socialism? The drawbacks of socialism include a lack of individual freedom, a lack of economic growth, and a lack of innovation. Socialism can also lead to poverty and inefficiency. The benefits and drawbacks of socialism will be discussed in more detail in later lessons.

What Are the Challenges of Socialism? The challenges of socialism include the difficulty of achieving economic growth, the difficulty of achieving long-term stability, and the difficulty of achieving a just society. The challenges of socialism will be discussed in more detail in later lessons.

What Are the Answers to the Challenges of Socialism? The answers to the challenges of socialism include the need for education, the need for political stability, and the need for a just society. The answers to the challenges of socialism will be discussed in more detail in later lessons.
**The Common Good**

An "Announced" Adoption of Robert Burchfield's "Fireman"

*Continued from last week*

"Or suppose there is a fire, and a real paper is started. What will happen?"

"The fire department will be called out.""Why?

"Because the fire department is paid to go when the fire alarm is rung by the fireman who has just put in his time."

"You mean, then, that the fireman is paid to get into a fire whether there is a fire or not?"

"Yes, indeed, he is paid a certain amount of money to go when he is called out by the fire alarm."

Now suppose the agent is poor, as most agents are, and suppose, in his turn, to work for the department, who will be paid for it?"

"It is likely that he will risk the demotion for the sake of getting a better job."

"But what if he is a poor man?"

"If he is a poor man, he will have to do the best he can to get a good job, and the fireman will have to do the best he can to save the fire and put it out."

(Continued next week.)

The Penguins

Annette France, since the death of Zola and Alphonse Daudet, has been one of the most read and most admired writers in France. She has been called the "Queen of the French Novel." The social democratic character of her works is apparent in the novels. Her novel " typically French," the perceptive, the ironic, the subtle. She has been influenced by the novels of Emile Zola, EDMOND and Jules RENOIR. Her first book was "La Montagne," which was reviewed in the New York Times. Her second book, "La Cage aux Folles," was reviewed in the New York Herald Tribune. Her third book, "La Tentation," was reviewed in the Saturday Review of Literature. Her fourth book, "Le Chemin de la Croix," was reviewed in the Atlantic Monthly.

Annette France's own reputation is not as great as her works. She has been the subject of much criticism. Some critics have accused her of being a "social democrat." Others have accused her of being a "socialist." Some critics have accused her of being a "communist." Others have accused her of being a "fascist." Some critics have accused her of being a "conformist." Others have accused her of being a "rebellious." Some critics have accused her of being a "sensitive." Others have accused her of being a "hardened." Some critics have accused her of being a "romantic." Others have accused her of being a "realistic." Some critics have accused her of being a "lyric." Others have accused her of being a "polemic." Some critics have accused her of being a "prophet." Others have accused her of being a "prophetess." Some critics have accused her of being a "vagrant." Others have accused her of being a "tramp." Some critics have accused her of being a "gypsy." Others have accused her of being a "trampette." Some critics have accused her of being a "bohemian." Others have accused her of being a "bohemienne." Some critics have accused her of being a "hippie." Others have accused her of being a "hippie" woman.

The Builders' Column

Making Good

How many people do you know, who, when you ask them what they are doing, say: "I'm making good."? There are not many. But there are a few, and they are the ones who are really making good.

The total sales figures for the last week were reported to the Builders' Column office. About 2000 people bought their first home this week. This is an increase of 10% over last week. The total sales figures for the last year were reported to the Builders' Column office. About 10,000 people bought their first home last year. This is an increase of 50% over last year.

Several new developments have been announced by the Builders' Column. One development is a new home in the suburbs. It is a two-story, four-bedroom house with a garage and a basement. The price is $12,000. Another development is a new home in the city. It is a three-story, six-bedroom house with a garage and a basement. The price is $18,000.

Homes of Labor the World Around

The morning of Thanksgiving Day is your day to give. Let your day be one of sacrifice, of giving. Let your day be one of a new spirit. Let your day be one of a new beginning. Let your day be one of a new resolve. Let your day be one of a new hope. Let your day be one of a new victory. Let your day be one of a new achievement. Let your day be one of a new community. Let your day be one of a new world. Let your day be one of a new humanity. Let your day be one of a new democracy. Let your day be one of a new socialism. Let your day be one of a new communism. Let your day be one of a new internationalism. Let your day be one of a new internationalism.

Let Us Have a City Hospital
Milwaukee needs such a hospital, and we believe we have a $25,000,000 bond issue that it can be built in just a few months. The private hospital charges high prices and they are, therefore, unable to give service to the entire city. By the erection of the hospital, it can be made sure that the city's sick and injured will get the best possible care.

The rich people who are in the great majority. Milwaukee's work for the sick people of all classes. We have no need to be ashamed of our city hospital, and we have no reason to be ashamed of the people who support it.
