Comment on Passing Events.

By Frederic Heath.

Well, there certainly ought to be something about the high price the people must pay in the next election. In the special election for a member of Parliament in the district of East Anglia, W. S. W. M. is going to have a fight. He has set up a good little factory in the town of Bury St. Edmunds. In New York, the Standard Oil has really taken one of its greatest strides towards the control of the oil market. It is now in a position to more than double its market share, and has already increased its output by 20%. It is not clear whether this is a good thing for the consumer, but it is certain that the oil market will be more competitive in the future.

The attack on housing in New York, however, is probably the most significant development of the week. The attack comes from a group of housing reformers who are concerned about the rising cost of housing and the lack of affordable housing for the working classes. They are calling for a comprehensive housing policy that includes measures to control rents and increase the supply of affordable housing.

At Your Vitals!

[Editorial comic strip featuring a doctor and patient.] 

Victor L. Berger in New York

We take this week's edition to New York, where Victor L. Berger, the Socialist Party candidate for Governor, is making a strong showing in the primary elections. Berger, who is running on a platform of economic justice and social reform, is expected to do well in the general election, particularly in the cities where he has a strong base of support.

A Study Course in Socialism

Prepared Under Auspices of the National Party

Lesson X.— Classes and the Class Struggle.

The workers and the capitalist class are the two main social classes in modern society. The essential difference between these two classes is that the workers own the means of production, while the capitalist class owns the means of exchange. The workers are therefore in a position to control the production of goods, while the capitalist class is in a position to control the exchange of goods.

The evolution of the class struggle is the development of the social and economic conditions that bring about the division of society into two classes. The development of the capitalist class is a result of the division of labor and the development of the means of production.

Resolution and Revolution—First, the workers must familiarize themselves with the economic conditions of their class. They must understand the nature of the capitalist class and the means by which it controls the means of production.

Questions for Review

1. What is the difference between the production and exchange classes?
2. What is the role of the workers in the class struggle?
3. What is the role of the capitalist class in the class struggle?

The Great Postal Seal

CITIZENS, our nation's lifeblood, at this juncture of our national lifeblood, is the postal service. It is the lifeline that connects the heartbeats of our nation's communities. Without the postal service, our nation's heartbeat would falter, unable to sustain the rhythm of our collective spirit.

The Great Postal Seal is not just a symbol of our nation's heritage. It is a testament to the resilience of our people, who have overcome countless obstacles to ensure that the postal service remains a vital part of our national identity.

The postal service is more than just a means of communication. It is a symbol of our nation's strength and unity. It is a beacon of hope for those who are isolated or disconnected from the rest of society.

The Great Postal Seal is a reminder that we are all in this together. It is a call to action to protect and preserve our nation's postal service, so that it may continue to serve as a beacon of hope for generations to come.

WHY WORKINGMEN DRINK

And why rich men drink?

Why rich men drink is a question worth getting an answer to.

When you have gone as close to the facts as you can, you may find that all who are rich have a right to drink.

The solution to the problem of poverty and drink lies not in the pursuit of wealth, but in the pursuit of knowledge and understanding.

DRINK SUBSCRIPTION

A chance to get the SOCIAL-DEMOCRATIC HERALD, the voice of the working class, and a share of our capital stock. For $5, you may subscribe and receive the weekly issues of the SOCIAL-DEMOCRATIC HERALD for one year. For $10, you may subscribe and receive the monthly issues of the SOCIAL-DEMOCRATIC HERALD for one year.

**The Giggle**

A man who has a good sense of humor, and
shall endeavor to make clear to you the fact
that the lives of the rich are directly opposite
in many respects from those of the poor. It is
very important that you should understand
this, for it has been amply demonstrated
by the experiences of others.

But just as the rich enjoy their
wealth and comfort, so do the
poor suffer from the hardships of
poverty. The second and third
expeditions of the rich result upon the
lives of the poor.

The third that a rich man cannot support his family
with the wealth of others, is also true.

Gompers and Civic Federation Chestnuts

By Robert Hoyt

Mr. Samuel Gompers is one of the most interesting men of our time. He is not only a labor leader, but a man of great personal attractiveness, with a real love for life and its experiences. His speeches are full of humor and interest, and he is always ready to give his time and advice to those who need it. He is a man who has had many experiences, and he has always been able to make the best of them.

Mr. Gompers has been a labor leader for many years, and he has always been able to keep his followers informed about the latest developments in labor relations. He is a man who is always ready to give his time and advice to those who need it. His speeches are always well received, and he is always ready to give his time and advice to those who need it.

Mr. Bookkeeper—
Give Yourself Time
To Earn Bigger Pay

A Little Honesty Philosophy applied to Work of a Bookkeeper

There are good fellow keeping books who hurst scandalous
jests at the man who says they ought to have an adding machine.
Most of us have, sometime in our
lives, had "a system which does the work better than any adding machine." On the other hand, you and I know
there isn't a man made who can take a
sum a mile long and add it up in the wink of an eye.
But we hate to say such things to Henry Penneman because he might feel bad at it.

Where Pride Doesn't Count

But Henry is all wrong, nevertheless. He is priding himself on
the perfection of that work that really doesn't count—just like the man who prides
himself on how he will be letters in longhand.
I haven't prided myself on how
looking a letter I could write—since I had my typewriter.

How About This?

Some time ago the Harvard theater announced that it had filed a suit in the Supreme Court in an attempt to recover from its former manager. The suit was filed in the name of Jacobus, the leading theater manager, and it alleged that the manager had been acting as an agent for the theater in the sale of its property. The defendant, the manager, had been operating the theater for several years and had been paid a percentage of the profits. The manager had refused to account for the profits, and the theater had sought legal action to recover the money.

In the School Board

The most important new book of the week is "The School Board" by Charles F. Post, who has been associated with the School Board for many years. The book is a study of the school system in the United States and the problems that have arisen in connection with it. It is a detailed and comprehensive analysis of the school system, and it is based on extensive research.

The book is divided into three parts: the history of the school system, the present condition, and the future. The history section traces the development of the school system from its early beginnings to the present day. The present condition section deals with the problems that have arisen in the school system and the efforts that have been made to solve them. The future section looks at the possible developments in the school system and the challenges that will be faced.

The book is highly recommended for anyone interested in the school system, whether it be educators, parents, or citizens. It is a valuable resource that provides a comprehensive overview of the school system and its problems.
