Comment on Passing Events.

By Frederic Nohl.

Two Socialists have just been expelled from the National Bank at Milwaukee. Ross, a bank employee, has been removed on the ground that he has been a Socialist, and the other, Mr. J. P. O'Brien, has been removed because he is considered a dangerous character. The latter is a well-known labor lawyer who has been actively engaged in organizing the Labor Union. The fact that he has been removed is a clear indication of the growing strength of the Socialist movement in Milwaukee. It is to be hoped that the bank will be compelled to reinstate Mr. O'Brien and return him to his position.

The Wisconsin legislature has recently passed a law prohibiting the sale of alcohol in the State. This measure is a step in the right direction, but it is not sufficient. The prohibition of alcohol is only a beginning; it must be followed by a thorough investigation of the entire liquor traffic in the State. The Socialists are committed to the principle of prohibition, and we shall continue to press for its enforcement until it is carried out.

A Banker Calls Wisconsin University Sociologist

Mr. W. H. Thomas, President of the University of Wisconsin, has recently expressed his views on the social and economic conditions in the State. He has called attention to the fact that the University is not only a center of learning, but also a focal point for the development of the social and economic life of the State. He has urged that the University should take an active part in the solution of the problems that face the State, and that it should be a leader in the development of the Socialistic movement.

VICTOR L. BERGER'S EASTERN TOUR

Mr. Victor L. Berger, Socialist member of the House of Representatives, is on an Eastern tour in his efforts to secure the nomination of the Socialist candidate for President. He is making a vigorous campaign, and is expected to make a strong showing in the election. The Socialist party is growing in strength, and Mr. Berger is one of the leaders of the movement. He is determined to carry into effect the principles of Socialism, and to establish a State that shall be the exponent of the collective ownership of the means of life, and of the democratic control of the social and economic life of the Nation.
Barbarous America
By Robert Hunter

The United States government is engaged in a campaign of barbarism against the American people. The recent suppression of labor rights, the violation of the rights of workers, and the use of force to suppress strikes and protests are all evidence of this.

The situation is particularly serious in Alaska, where the working class is fighting for better wages and working conditions. The United States government has been using its military forces to suppress the workers' protests.

Restrict the Workers' Vote

Restrict the vote to laboring men and women. This is the policy of the United States government, which is working to suppress the voice of the working class in the political process.

The Ethics of Labor

YESTERDAY, Mr. Philip is reported to have been engaged in a personal interview with Mr. Roosevelt. The President is said to have expressed the view that it would be advisable to restrict the vote to laboring men and women.

The Virgin Islands

The Virgin Islands are a vital part of the United States. The government is working to suppress the voice of the working class in the political process.

More Men Than Jobs

Reason Why Immigrants Do Not Benefit Their Conditions by Coming to America

By Miss Houd.

The number of men in the United States is increasing at a rate that alarms some observers. This great increase is due to the fact that more men are coming to this country than are being born. The United States is a land of opportunity, and many men from other countries have come here in search of work. However, many of these men are not finding the work they seek, and the result is an increase in the number of men in the country.

The immigrants are working in factories, on farms, in offices, and in other industries. They are doing the same kind of work as the native-born men. Many of them are being paid less than the native-born workers. This is because the immigrants are willing to work for less money than the native-born workers.

Some of the immigrants are working for less than the minimum wage. This is because they are not aware of their rights. They are not sure how much they are entitled to be paid. They are also not sure how to file a complaint if they are not being paid what they are entitled to.

The problem is not unique to the United States. It is a problem that affects all countries that have a large immigrant population. The solution is not easy, but it is necessary. The immigrants must be educated about their rights. They must be taught how to file a complaint if they are not being paid what they are entitled to. The government must also be more vigilant in enforcing the laws that protect the rights of immigrants.

The immigrants are an important part of the American workforce. They are helping to keep our economy running. However, they must be treated fairly. They must be paid what they are entitled to be paid. They must be given the same rights as the native-born workers. This is the only way to ensure that the immigrants are benefiting from their work.

In the meantime, the government must take steps to help the immigrants. It must provide educational programs that teach them about their rights. It must enforce the laws that protect their rights. It must also provide job training programs that help them find work. These steps will help to ensure that the immigrants are benefiting from their work.

Socialist Revolution "Delayed"

The socialist movement is in a state of delay, as the socialist parties have not yet achieved the goals that they have set for themselves. The socialist revolution, which was expected to occur in 1915, has been delayed due to a number of factors. The socialist parties have been unable to unite and build a strong socialist movement in the United States. Discovery That Street Railway Has Withheld Car License Fees For Years—Will Be Asked to Make Good

The separation of Monday's normal traffic from Wednesday's, the busiest day of the week, has been made possible in the city by the arrangement of the tracks of the 4 Th. st. car line, which will take the place of the 6 Th. st. line during the street car strike.

The new line will run from the 4 Th. st. bridge to the 6 Th. st. bridge, and will be operated by a special crew of men.

The street car company has been asked to make good the $72,000 spent on the new line, which it is estimated will cost $2,000 per day to operate.
