And Now Milwaukee Also Has Its Dreyfus Case

By Victor L. Berger

W. WILLIAM ROGERS, the city health commissioner of this city, has been arrested on a charge of assault

and battery against a Negro maid, and a warrant has been issued for his arrest. The maid, who is a former 얼마나..

unemployed woman, Dr. Sabbath was arrested by the

cops, who found her hiding in the dresser of the woman

with whom she was living. She was taken to the police

station, where she was later released on bond.

This is the second time in a week that the Dreyfus case has

come up in the city. The first time was last Sunday, when

the police arrests a man for assault and battery against a

Negro maid. The man was later released on bond.

**The Milwaukee Electric Railway and Light Company**

**The City's Interest in a Public Utility**

For this reason, it is in the interest of the City that the Company should be given opportunity for its natural growth and development.

Only a successful public utility company can give good service. To be successful, a company must have the support and assistance of the Public and must be treated with reasonable consideration.

Regulations and restrictions that are burdensome to a company are likely to impinge on the Public or the utility of the service. They are particularly detrimental if their only effect is to hamper the operations of the Company without bringing any actual benefit to the Public.

Compliance with unnecessary and unreasonable requirements frequently imposes heavy expense upon a company and thus adds to the cost of providing service.

A City is solving its own interests best in treating a public service company reasonably and fairly. There is no inconsistency in the idea of the Public and a public utility company working in harmony for the mutual benefit.

By means of this the City would be taking the shortest and surest route to good service, at the lowest rates, without restrictions or cost of such service.

Socialists Will Get Municipal Light Plant!

Beginning at the first steps the city administration has taken on the subject of providing for Milwaukee a municipal electric lighting plant, the program being put over there at a moderate pace without much haste.

The program must be carried out with caution, and the people should be given the best opportunities to learn about it and form opinions on it. The program should be carried out with the greatest care and attention to the best interests of the people. The Frame-up Collapsed and the “Beast” Roared

By CHARLOTTE THOMPSON

A certain vice of the “Beast” and the “pursuit of profit” appears again in the front pages of the weekly issue of the “Beau Brummel.” The fact that the issue does not speak for itself, and the fact that the issue is not a very profitable one, is the reason why it is not published.

The facts are as follows: When the issue was put together, a number of people got together and said that about the Bureau of Indian Affairs, and what is more, that about the Indian Affairs Office.

The “Beau Brummel” is appearing under the name of T. C. Montgomery, and it appears to be a monthly magazine published by the Bureau of Indian Affairs.

The issue is a special one to be sold at a very low price.
