Comment on Passing Events.
By Frederic Heath

The Socialist has gained three new points in Boston.
The Labor Union of Connecticut.
Four Socialists were victorious in the recent municipal election, and are now members of the Board of Aldermen of the town of New Britain.

The new Socialists do not publish the labor newspaper.

Free and Universal Education
By Robert Hoxie

We have been told that education is a matter of personal privilege, and that it should be freely offered to all who choose to take it.

But education is not a privilege, but a right.

Every child born in this country is entitled to the same education as every other child.

The government should provide education for all, and every child should have the chance to receive it.

A Stormy Meeting of Aldermen
By Robert Hoxie

Mayor John Stone has called a special meeting of the Aldermen to discuss the issue of free and universal education.

The Aldermen are divided on the issue.

Some Aldermen support free education, while others believe it should be a matter of personal choice.

Mayor Stone must decide on the matter.

The Class Struggle
Its Economic and Its Biological Basis
By Dr. H. E. Wallis
The class struggle is the most peremptory order of the day. It offers the best
means of relieving the sufferings of the masses and of securing to them the
freedom and the dignity which are their due. A classless society can never
be achieved without an utter overthrow of the existing social order. The
people must destroy the existing system of personal and property rights, and
in its stead establish a system of social and collective rights, without
respect to individual relations. They must destroy the existing class
system and raise up a new one. This new system must be based on the
principle of the common ownership of the means of production and of the
profit they yield. This is the only way in which the class struggle can be
arrested and the people can triumph over its enemies.

The Socialism and the Railroads
By Horace B. Washburn
The people of the state of Washington have made up their minds
that the railroads shall not have the public road system as a corporation
in perpetuity. They have taken the first step towards achieving this
objective. They have passed an act giving the public the right to
control the railroads, and have declared that the railroad corporations
shall not have the right to fix rates without the consent of the
government. This is a very significant step towards the realization of
the class struggle.

The Beautiful Doctrine of Assured Risk
The Sad Story of a Common Working Girl Before the Masters' Courts
MRS. BILLIE is a working girl who was injured in the employ of
Louis H. Coit and Company. She worked in their printing department, and
in the course of her work she was injured in the manner described below.
She was a very pleasant girl, and her injury was a very serious one. She
was taken to the hospital, where she was treated properly, and she
recovered. She was later taken to court by the masters' lawyers, and
the case was settled.

Socialism is the New Patriotism
By Raymond D. Flanders
Socialism is the new patriotism. It is the only means of making the
people understand their rights and duties. It is the only means of
securing the common ownership of the means of production and of the
profit they yield. It is the only means of establishing a classless society.

Select Your HEATER
Always being made to order is the most efficient in the most economical. The GABLER HEAT-
ER, the electric radiator, is used in all the best houses in the city. It is both efficient and
economical.

The Friend of the Working Class

By Robert Hunter

The secretary, peering through the slatted shutters of the door, could see the glow of 10-candlepower light flickering about the hands of the men in the back room. The doctor was about to enter.

Mr. Hunter and the mayor are long-time friends. They have been working together in the community for the past five years, five long, hard years. They have seen each other through thick and thin, through good times and bad. They have been on the same team, playing the same game.

"He's a fine, honest man," the mayor said, as he shook Mr. Hunter's hand. "I've been working with him for a long time. He's a fine, honest man."
A Letter from John Deitz

Several weeks ago this paper received a letter from John Deitz of Damon, Wyo., in which he sought to get the public right to some special incident in his career. The time was some years ago, but his friends in this community could point to a number of things in which he was ahead of his time. Such a letter is always a welcome conundrum to this paper, and it is the story that he tells us which makes it interesting.

Cassie Deitz, Wyo., Sept. 13th, 1891

Dear Sir: I was just coming along the street when I saw a man walking with a lighted cigar and carrying a book in his hand. I thought he looked a little like me, but all the same I thought I would try to talk to him. "Hello, fellow," I said, "are you going to tell me about this thing you have in your hand?" He answered, "Yes, I am. I am going to tell you about it." "What is it?" I asked. "It's a book," he said. "What about it?" "Well," he continued, "it's a book that describes all the things you can do with electricity." "What kind of book is it?" I inquired. "It's a book about electric lights," he replied. "What's the name of it?" "It's called 'The Electrician.'" "Where did you get it from?" "I bought it from a man who was selling it on the street." "How much did it cost?" "It cost me five dollars." "How old is it?" "It's about two years old." "Is it worth five dollars?" "I think so. I have been using it for a while now and I have found it very useful." "Have you used it for anything?" "Yes, I use it for lighting my home and my business. It has been very helpful." "Do you think other people should buy it?" "Yes, I think so. It's a very good book and I think it would be helpful to anyone who is interested in electricity." "Thank you for telling me about it." "You're welcome."

Yours sincerely,

John Deitz
Mrs. Rorer says:

"There is no reason why you should not cook with gas the year round."

The world's greatest cook says:

"If your kitchen is not heated by your furnace or boiler you can make it livable by the use of a coke amusement in a gas range. At the same time you can use the most convenient fuel obtainable—gas."

"The kitchen heater attached to the gas range above will burn any kind of cheap coal, wood, coke, sweepings, rubbish, paper and even garbage."

"This combination will take up much less room, is much more economical, and convenient, and much cleaner than a coal range. It can be attached to any range."

We will be glad to show you these heaters work at our demonstration, at the Gas Office, 302 Wisconsin Street.
Let Mr. McGee Answer These Plain Questions

Why did the district attorney's office give the allegations in the report to the papers for days before the case came to court?

1. It is a matter of general consent that the case is not the sort that should be hushed up, and that the public interest requires that the evidence be fully examined.

2. It is not a fact that Mr. McGee, the district attorney's chief, wanted to see the evidence before making any statement.
