Health, Common Sense and Socialism

By S. S. Johnson

D

The physical makeup of the human race is proper to the conditions of the present time. Circuses, carousels, health resorts, nutmeg graters and all places of amusement and enjoyment are full of people for whom they were intended. They don't demand birth control because they don't want it.

The capitalist gets properly so called "all the toys of life" and "the good things of this world." He wears the best clothes and goes in the best cars. He lives in big houses and has the finest furniture. Yet he doesn't demand birth control because he knows he can't afford it.

It is the common laborer who is constantly fighting birth control because he must have children in order to support himself and his family. He has no leisure for amusement and recreation because he is always working to keep body and soul together. He is fighting birth control because he can't afford it.

The what has decided to do with the world. It is, indeed, in the hands of the common laborer.

The theory of population is not the science of population, but simply the science of the distribution of population over the face of the earth. The purpose of this paper is to give the facts of population, and to acquaint the reader with the conditions of social life in our country and throughout the world.

The population of the United States is increasing rapidly. The annual increase is about 1,200,000. This is the result of the following causes:

1. The increase of the birth rate.
2. The decrease of the death rate.
3. The net immigration from other countries.

The birth rate is increasing rapidly. This is due to the following causes:

1. The increase of the number of married people.
2. The increase of the number of married people who use birth control.
3. The increase of the number of married people who are satisfied with their present number of children.

The death rate is decreasing rapidly. This is due to the following causes:

1. The improvement of medical science.
2. The improvement of public health.
3. The increased comfort of life.

The net immigration from other countries is increasing rapidly. This is due to the following causes:

1. The increase of the number of persons who are willing to emigrate.
2. The increase of the number of persons who are able to emigrate.
3. The increased comfort of life in this country.

The purpose of this paper is to give the facts of population, and to acquaint the reader with the conditions of social life in our country and throughout the world.

"Back to the Soil"

Victor L. Berger in Oklahoma

The demand for workmen's compensation.

Mr. W. H. S. Buel, of the Wisconsin Institute of Social Science, has just published a book on "The Demand for Workmen's Compensation." It is a valuable contribution to the literature on the subject, and is a welcome addition to the works of the Wisconsin Institute. The book is well written, and is a clear and concise statement of the arguments for and against workmen's compensation. It is a must for anyone interested in the subject.

Socialists Inaugurate Reform
Prisoners at the Jail Will No Longer Be Fed by the Contract System But by the County District. No More Poor Grub and Tainted Meat—Adams' View.

A new idea, championed by the Chicago Social Democrats, was voted by our local, W. A. Adams, to be the keynote of the current campaign for better conditions for prisoners at the Milwaukee City Jail.

Adams' device is to feed prisoners in the jail at a regular table or in a regular kitchen where they can have proper provisions. The idea is to put an end to the present system of food, which he feels is not sufficient to feed the prisoners adequately. The present system is also said to be unhealthy and unsanitary.

Adams' device is to have a regular kitchen and table where the prisoners can eat properly. This is believed to be a step in the right direction and is expected to improve the conditions at the jail.

Insufficiency of Present Street Railway Fares

Street railway fares in many cities must be increased in the near future, or some limit must be placed upon the service to be furnish

Street railway men of long experience and experts are convinced that there can be no further reduction of operating costs except by cutting wages. Therefore, they feel that relief must be found in higher fares, or limitation of service.

Among those who have studied the subject seriously it is agreed that unless present conditions are changed the cities will be obliged, in time, to provide their own street railway service by municipal ownership and operation. Under this plan all defects would be made good from the public funds. Loans from street railway operation would fall upon the tax payers.

It is considered reasonably certain that, if the companies continue to operate, one or more of the following changes of methods must be put into practice:

- Abolition of free transfers
- Adoption of the zone system of rates, used in European cities
- Increase in size of fare
- Reduction or abolition of taxes

The taxes of The Milwaukee Electric Railway and Light Company in four years increased 491 per cent. In the same period the operating revenue increased 33 per cent.

The Milwaukee Electric Railway and Light Company.

Wisconsin State Organization

MILWAUKEE—The Wisconsin State Organization of the Socialist Party held its first meeting at the Social Democratic Hall, 1125 W. Wisconsin Avenue, on Monday evening, June 30. The meeting was well attended and the resolutions adopted were: To build up the party in Wisconsin and to support candidates who are pledged to the principles of socialism.

Ameringer Dates

Ameringer, a well-known socialist, will be in Milwaukee for a short time, and will speak on socialism and the candidates for governor. He will also be available for interviews and will make speeches at various places in the city.

Experts Give Lie to Gen. Otis' Charges Against Organized Labor

The Milwaukee Journal of February 7 reports that the War Department has informed Gen. Otis that the recent charges he made against labor in behalf of the Allies are not correct. The War Department states that it has had no complaints from the Allies regarding labor conditions in the United States. The Department further states that it has not been able to substantiate any of the charges made by Gen. Otis.

News of Organized Labor

What is to be considered one of the most extraordinary episodes of the present labor agitation is the case of the railroad strike in the West. The railroad strike of the Pacific Coast states was brought about by the ironclad contract between the railroad companies and the trade unions. The railroad companies, it is claimed, have been using this contract to prevent the formation of any new union by striking the men who have been organizing for the purpose of forming a new union.

Man Speaks: "I do not think there is any particular benefit in the strike. The strikers have been at work, and we are sure that the public is satisfied with the result."

Finishes Today: The strike will end today, and the railroad companies will resume work.

The railroad companies have been using this contract to prevent the formation of any new union by striking the men who have been organizing for the purpose of forming a new union.

Federated Trades Council of Milwaukee

The Federated Trades Council of Milwaukee has issued a statement in which it is reported that the recent strike of the railroad workers was caused by the action of the railroad companies in attempting to prevent the formation of a new union. The council states that the railroad companies have been using the ironclad contract to prevent the formation of any new union.

Federated Trades Council

The Federated Trades Council of Milwaukee has been active in trying to settle the railroad strike. The council has been trying to secure a better working condition for the railroad workers. The council has been trying to secure a better working condition for the railroad workers.

The council has been trying to secure a better working condition for the railroad workers. The council has been trying to secure a better working condition for the railroad workers.

The council has been trying to secure a better working condition for the railroad workers. The council has been trying to secure a better working condition for the railroad workers.

The council has been trying to secure a better working condition for the railroad workers. The council has been trying to secure a better working condition for the railroad workers.
An Abstract Trust

The obvious idea seems to have been to have the City Bank to go to the savings bank and get some of the funds that the banks are cleared through the Chicago Federal Clearing House.

Oglethorpe & Title Co., William

An odd connection has been made between the city and the banks.

Will Lecture on Co-operation

On Sunday afternoon, Jan. 26, at 3:30, in the Chicago Public Library, there will be a lecture on co-operation by Mr. W. H. Durant. Mr. Durant is an old-time co-operator and has been a leader in the movement for many years.

Garment Workers' Benefits

The cooperative movement of the past ten years has been successful in gaining for the worker a large part of the benefits which are enjoyed by the consumer. The worker is able to buy at wholesale prices and to obtain a fair wage for his labor. The cooperative movement is gaining in popularity throughout the country.
