Will Be a Thing of Beauty and a Joy Forever

By Victor L. Berger

In a cabin in Summit Place, Milwaukee, the Social-Democratic Herald will be known as the administration that did big things. That administration, in the history of the working class of Milwaukee, is the beginning of the movement for the establishment of the working class of Milwaukee in the political field, is not afraid of big things. It is the administration, as long as they are useful and beneficial to the people of Milwaukee.

Neither are we afraid to give the city the loan for debt for such things. We are only afraid to give the city the loan for debt for such things. The work is not done in a cabin, but in a building, where it can be done in safety.

The work is not done in a cabin, but in a building, where it can be done in safety. There is no need to be afraid of the city, as the work is not done in a cabin, but in a building, where it can be done in safety.

Yet, social democrats look at everything first and foremost from the point of view of the people.

Although the Social-Democratic Publishing Co. presented, encouraged and manufactured the goods and products of the labor movement of Milwaukee, it could not undertake the task of forming a cooperative society for the sale of its goods. Chinese Wages and Living Comfort

The following statistics of wages and living comforts, as given by our correspondent in China, are as follows:

1. The average wage per month is $15.00.
2. Food costs are $3.00 per month.
3. Housing is furnished, and the cost of living is $6.00 per month.
4. Clothing costs are $4.00 per month.
5. Transportation costs are $2.00 per month.

This is the best of all the estimates I have made, and I think it is fair to say that the Chinese are well provided for in this respect.

A Train Load of Capitalists Put to Rout!

Wm. Willkie Wednesday was as historic a day for the Hoosier as the day before the beginning of the Civil War. The train load of capitalists which was being brought between labor and capital had been routed. The other arm of the political leaders had countered the efforts of the capitalists. As if the capitalists had been in the midst of war they would have been confined to their home state and would have been brought back to it with burnt pitch and a few dailies in the place of refugees.

The special train from Milwaukee which brought here several outlaws for the purpose of engaging in the political kidnapping of men to the state of Indiana. This was the eight hour journey for women and children, the predicted disasters which were the basis of the political kidnapping has been eliminated by the efforts of the political workers of Wisconsin.

The capitalist's train was met by a large march of workers, and it was found that a large number of capitalists found their way to the south of the state where they were of no help in the future.

Another Victory!

Following the hearing of the victory in the state of Wisconsin, let us say that this is not the end of the road and that there is nothing unimportant about Wisconsin.

Notorious Court Opinion

The decision of the court of the state of Wisconsin to rule that the workers were not entitled to the consideration of the court for not appearing in the court and for not appearing in the court is a great victory for the workers in the state of Wisconsin.

HAYMARKET PLAYLIST

In order to get the necessary elements for a Socialistic organization, the working class must be organized in order to change the working conditions of the workers. A Socialistic organization must be an organization of the workers for the workers and not for the capitalists. The Socialistic organization must be an organization of the workers for the workers and not for the capitalists.
