Socialism is the New Patriotism

A link between the working class and the labor movement is the Socialist National Convention.

Socialism is a movement for the social and economic transformation of society. It is a movement for the abolition of the bourgeoisie and the establishment of a classless society.

Property Owners, Business Men and the Street Railway

Business Men and Owners of Real Estate are the classes of citizens most largely affected by the service of a Street Railway. Their benefit, to a great extent, can be estimated in dollars and cents and, therefore, can be seen clearly.

The Milwaukee Electric Railway and Light Company performs important work every day for nearly every Business Man in the city. There is scarcely any industry in which the Street Railway does not take an active part.

In Retail Trade, the growth of a business and the amount of profit derived from it often depend in a great degree upon the question of transportation.

Real Estate values in all parts of the city are influenced greatly by Street Railway conditions. Therefore, every Owner of Real Estate who wants to be a business block, an apartment house, or a newly planted "addition," is interested in the plans of the City and the growth of its Railway System.

It is of the greatest importance to the City that its business interests shall thrive and its real estate interests shall remain. Besides this, the Business Firms and Real Estate Owners have their invested capital to be safeguarded, and they pay a large proportion of the taxes. These things must all be taken into account in connection with Street Railway Service.

Most of the proposed changes in the Company's service or the construction of its lines are undertaken in the interest of the Business Men or the Property Owners.

Frequently a change is asked for that would benefit only one district of the city or one small group of people. In some instances the change would be bad for the service as a whole or would cause hardship to some of the People.

From these conditions arise many problems in which the City Officers and the Street Railway Company must use the greatest care to act with fairness to all whose interests will be affected. Everything that is reasonable must be done to promote the welfare of the Business Man and Owners of Real Estate. At the same time all other portions of the community must be guarded against injustice.

The Milwaukee Electric Railway and Light Company

The Milwaukee Electric Railway and Light Company is a public utility. It is not a corporation that exists only for the benefit of its stockholders. Its officers are elected by the stockholders. The stockholders are the people of the city, and, therefore, the company is not only a business concern but a public institution. Its success depends upon the satisfaction of the public. It is, therefore, the duty of every stockholder to give the company every assistance in its work. (The Milwaukee Electric Railway and Light Company is a public utility. Address 3010 Wisconsin Avenue, Washington, D.C.

Mr. P. S. Dennis, Director

SO WHAT is going on? The Supreme Court of New York recently handed down a ruling that may be the signal to labor leaders of the nation for greater activity. The order banning the practice of "no shop" agreements is the result of four years of labor activity in the state. The court, in effect, has declared the practice of "no shop" agreements illegal. This decision is expected to have an immediate effect on labor organizations throughout the country.

**Some Disquieting Facts**

A writer in the Free Press says the Catholic Church was represented in the school board. They are so represented, although they have no schools of their own and they have no right to have any. There is no difference in the public schools and the Catholic schools. Yet the public schools have no board of education, while the Catholic schools have a board of directors. It is the duty of the board of directors to see that the schools are run properly and that the children are taught properly.

In conclusion, it is well to point out one or two facts. One is that the Catholic school is the only school in the city that does not have a board of directors. The Catholic schools are not subject to the same regulations as the public schools. They are run by the clergy, and not by a board of directors. The clergy have the right to decide what is best for the children, and the parents have no voice in the matter.

Your Partisan Judges—Why? Why?
How the Milwaukee Judiciary Is Mixed Up in Deals with Millionaires, Grubbers and Labor Exploiters—Pfister Partisans on the Bench

Does Milwaukee's Charles Pfister, part owner of the Milwaukee street railway, own a circuit judge over a circuit judge? Does the Free Press, Milwaukee's and Stephenson's representative office to the Milwaukee? Pfister's boast for his Judge Lodge, judges for his political gains. Pfister political officeholders, no need to be honest. Pfister's boast for his Judge Lodge, judges for his political gains.

More Partisan Judges

The Free Press—are there any partisan judges? Is there any fair, impartial and honest judge in the Milwaukee? Pfister friends to his Judge Lodge, judges for his political gains.

The Big Facts

All these matters in this story are true.

What Is a Partisan? A man who knows how to sell a man a horse, and know how to sell a man a horse, and know how to sell a man.

In other cities where I have lived, there are no partisan judges. That is why we have a true, clean and honest government in Chicago.

The Free Press people believe there are no partisan judges. That is why we have a true, clean and honest government in Milwaukee.

We absolutely assure you that there are no partisan judges in Milwaukee. That is why we have a true, clean and honest government.

Robbing You on Gas!

And the Merchants and Manufacturers' Association is Fighting It

The capture of the Social-Democratic newspaper is in the raising of the stakes as the Great Gas Robbery is in progress. The newspaper was once a free paper, during the spring of the year, when it was published by the owners of the printing plant. The present owners have been previously depleted of power and the struggle is heating up until now the paper has become a monopoly and the conditions are much the same as in the people's world.

The monthly tribute Milwaukeeans.

The company owners have its location changed from Wisconsin Avenue to the corner of Wisconsin and Main Streets. The change has been made because of the superior location of the newspaper in this part of the city.

Well Chosen

Frank Hays, the publisher of the Social-Democratic newspaper, has chosen a leader who brings up some early memories of the city. He is a man of much experience, and it is not surprising that he has chosen a leader who has had a great deal of experience in the city. The newspaper is now in the hands of a man who has been in the city for many years, and who is well known for his ability to handle the newspaper.
