MILWAUKEE CLAIMS SOCIALISM FAILURES

New Government of City of Milwaukee

City of Milwaukee has been classed among the leaders of the socialistic movement in this country. The new government which has been established is a socialistic one. The city is under the control of the socialist party.

The socialist government is expected to bring about a number of reforms which will benefit the working class. Among these reforms are the abolition of private property, the establishment of a system of free education, and the provision of a minimum wage for all workers.

SOCIALIST PROMISES NOT KEPT

One Year Remaining To Keep Pledges Made to Voters

The socialist government has been in power for one year. During this time, they have made a number of promises to the voters. However, many of these promises have not been kept. The unemployment problem remains unsolved, and the living conditions of the working class have not improved.

The socialist government has failed to keep their promises to the voters. One of the main reasons for this is the fear of high taxes. If the socialist theories prevail, it is estimated that taxes will increase by 50%. This will have a devastating effect on the working class.

Socialists Have Outgrown the Tariff and Can Get On Without It

Socialist leaders have outgrown the traditional support for the tariff. They believe that the tariff is a obstacle to economic progress and that it is time to move beyond it. The socialist movement is now focused on the need for international cooperation and the establishment of a world federal government.

William Morris—A Memory

The name of William Morris will always be associated with the work of a high order of excellence, while it is a name which those who knew him will always bear with a sense of respect and admiration. Opponents of Conservatism
By John M. Work
(Continued from previous page.)

"We're all in the same boat," said Mr. Work. "There is no answer. We have to live with what we have and make the best of it.

"We have a choice. We can either make the best of it or we can make the worst of it. We have to decide what we want to do."
Comrades! Friends!! Sympathizers!!!

WAKE UP!

10,000 × $10 = $100,000

What's an easy example isn't it? And it will be just as easy to get the amount required to start our daily Socialist Paper. In order to start this daily paper we are going to sell 10,000 bonds (secured by mortgage) at $10 each. That's easy isn't it?

Remember, this is not a donation — this is an investment — and a good investment at that. These bonds bear interest at the rate of four (4) per cent. per year.

If you had a friend who asked you for $10.00 as a loan and you knew he needed the money, wouldn't you loan it to him? Sure you would! The Socialist movement is your best friend, and when you are asked to help this cause will you refuse? You surely won't. Especially when you get interest on the loan! You know, and so do the 9,999 others who know that this city is in dire need of a Socialist daily paper to refute the false representations of the daily press. Think of how dandy it would be if we had a Socialist Daily to champion our cause instead of you having to answer verbally—event as it were—all the lies which the capitalist papers are grinding out wholesale.

And all this can be done if you and 9,999 other comrades and sympathizers will give one grand bound, 10,000 acting at one time. There wouldn't be a sight — and then— Press on! — the daily appears. Easy, isn't it? Sure! Now don't think there are enough others to help without you — you must help — you are the one.

You Furnish $10.00
Others will do the rest

Milwaukee Socialists Fighting Unequal Taxation

The Milwaukee Socialist Party has filed a suit in the Circuit Court to compel the city officials to equalize the tax assessment of the various parcels of real estate in the city. The party claims that the present system of taxation is unfair and discriminatory.

Uniform Payrolls for Milwaukee

The Milwaukee Social Democratic Publishing Company has presented a petition to the city council asking for uniform payrolls for all city employees. The company states that the present system of payrolls is irregular and unfair, and that uniform payrolls would be more efficient.

General

The Milwaukee Socialist Party is planning a series of meetings to discuss the various issues facing the working class. The meetings will be held in the Social Democratic Hall, located at 123 W. Wisconsin Ave.

That Projected Cross Line Street Car

The Milwaukee City Board of Estimates on Monday night approved the preliminary plans for a cross line street car extending from North to South. The car would be in addition to the two other cross line streets already in operation. The car would run on the north side of the street, extending from North to South, and would connect with two other routes at the points of intersection. The crossing of the Wisconsin Avenue and West streets would be the point of connection with the existing lines.

The crossing would be made possible by constructing a tunnel under Wisconsin Avenue. The tunnel would extend from the point of intersection to a point where the street car tracks would be laid on the north side of the street. The tunnel would be lined with concrete and would be wide enough to accommodate the car. The crossing would be made possible by constructing a tunnel under Wisconsin Avenue. Keeping Watch on City Hall

Never before in Milwaukee has the Social-Democratic party been so alert to business of the city through the city hall from top to bottom. A Social-Democratic administration is responsible for the city administration. It is a Social-Democratic administration that is responsible for the city administration. Not a day goes by without some Social-Democratic policy being carried out. The Social-Democratic party is now thoroughly familiar with the city political system and is prepared to carry out its policy in any direction.

When the Social-Democratic party becomes the majority party in the city council, it will have the opportunity to carry out its program. This program is based on the principles of the Social-Democratic party and will be designed to improve the city's economic and social conditions.

The Social-Democratic party believes in the power of the people and is determined to make Milwaukee a city for the people. The party is committed to the principles of democracy, equality, and social justice.

News of Organized Labor

Today, the Social-Democratic party is offering the Milwaukee Sentinel Easter Sunday edition. This edition will include articles on the history of organized labor in Milwaukee and the role of the Social-Democratic party in supporting the rights of workers.

In the past, organized labor has been the backbone of the Social-Democratic party. The party has always been committed to the rights of workers and has fought for fair wages and safe working conditions.

At the present time, the Social-Democratic party is working to organize the city's workers and to make Milwaukee a city for the people. The party is confident that with the support of workers, Milwaukee's future will be a brighter one.
Public Utilities and Public Confidence

Negotiations between a Municipality and its Public Utilities should be conducted on a basis of fairness to both the public and the company. This is the message by which the best results can be accomplished.

When questions arise in regard to service for the Public, the City and the company concerned should not be placed in the attitude of opponents.

It is unfair to assume that the company must be seeking to take some unfair advantage of the City, or that the City can benefit most by driving a hard bargain with the company.

A Public Utility Company is serving the interest of the public when it is serving the public best. This should be assurance of a reasonable disposition on the part of the company.

The Public can be served best by a company that is not hampered by unreasonable requirements and unnecessary restrictions. In this lies a powerful reason for liberality on the City's part.

THE MILWAUKEE ELECTRIC RAILWAY AND LIGHT COMPANY earnestly desires that a feeling of mutual trust and confidence be maintained in its transactions with the City. It feels that it is entitled to this from the City and its people.

In nearly all questions arising between the Company and the City the chief object sought by both the Company and the City is the same. Each desires that the street railway service shall be the best that is practicable.

Opinions frequently differ as to plans intended for the betterment of the service, but in nearly every case a thorough study of the situation in a spirit of fairness and mutual confidence would remove all misunderstanding.

The Milwaukee Electric Railway and Light Company

River Park

As for this river park which the company has been trying to build, we think it is a good investment for the city and a long way better than some other amusements proposed by that same company. Since the Social Democrats mean to spend some money in an immaterial manner, that reason, and the fact that Mr. Berger and Mr. Schrauben have expressed an interest in building the park, may prompt the Social Democrats to interest themselves in the plan.

An Annual Message of Milwaukee's Social-Democratic Mayor

OFFICE OF THE MAYOR

Milwaukee, April 14, 1911.

To the Members of the Common Council:

The Social-Democratic government of Milwaukee has been in existence for a year. Among the many changes that have taken place during this period, there is one fact that distinguishes our new political order from all of those that have preceded it: the independence of the local government from the control and direction of the national party organization.

The absolute integrity of the city government is maintained in a council of elected representatives who are selected by the people. With regard to honest business, honesty is in the interest of the city. The present city government of Milwaukee realizes this necessity.

It is a small portion of the people in the city who are interested in the council and therefore it is necessary to use every avenue of public opinion to carry our message to the people. There are many who have been appointed in the past as public speakers and who are known as public figures.

The city government has been supported by the members of the city council. There is a vacancy in the position of the city council, and there are candidates for the position of the mayor. The city council is in the process of selecting a mayor and this vacancy will be filled.

Milwaukee, Look at Milwaukee!

Every daily newspaper in Milwaukee is in a fight against the Social-Democratic Herald. The battle is a battle for the heart and soul of the city. The Herald is a daily newspaper that has been publishing for the past 9 years. It is the voice of the working class, and it is fighting to keep its readers informed on the issues that matter to them.

The Herald has a loyal following, and it is not afraid to take on powerful interests. Its reporting is fearless and unflinching. The paper has been targeted bygangs, strikers, and even the police. But it continues to publish, and it continues to speak truth to power.

The Herald is a beacon of hope in a city that is often bleak and despairing. It offers a vision of a better future, one where workers can organize and fight for their rights. It is a newspaper that is necessary, and it is a newspaper that is important. So please support the Herald, and help it to continue its vital work.
