LET THE REFERENDUM TAKE THE PLACE OF THE SENATE!

In the House of Representatives, April 27, 1912. Mr. Reitan introduced the following joint resolution:

Proposing an amendment to the Constitution of the United States, thereby providing for a direct election of senators by the people of the United States. The amendment provides for the same number of senators as now exist in the Senate, under the same qualifications and requirements for the holding of senatorial office as are now required by law. The number of senators to be elected shall be fixed by law, and the election shall be held on the first Monday in November of each year.

The resolution provides for the election of senators by direct vote of the people, and shall be submitted to the states for their approval or rejection. If approved by a majority of the votes cast in the states, it shall become law, and the senators shall be elected by the people of the United States, instead of by the state legislatures.

It is the belief of the supporters of this resolution that the direct election of senators will tend to make senators more responsive to the will of the people, and will enable them to represent the interests of the people more effectively.

Milwaukee Socialist and Union Daily Assured—Individual Comrades and Supporters for Oil on the Fire—The Workers' Sick and Death Benefits Will Be Increased

Thus Far, Subscribed, A Gain of $2,500 Over the Past Two Years

The Milwaukee Socialist and Union Daily, which covers the lives of the workers, has once again set a new record for subscriptions in the past two years. The paper has exceeded the $2,500 mark, a significant increase from the previous years.

The Socialist and Union Daily is committed to providing news and information to the working class, advocating for social justice and workers' rights. Their dedication remains unwavering, and they continue to grow their audience with each passing day.

Platform Pledges Kept—A Record of Better Things for Milwaukee

The Socialist and Union Daily, one of the oldest and most respected newspapers in Milwaukee, has made a series of pledges to improve the lives of the working class. They have kept these pledges and continue to work towards a better future for Milwaukee.

Their goals include better housing, improved working conditions, and fair wages for all workers. They believe that these changes will not only benefit the workers, but also the entire community.

Conclusion

The Socialist and Union Daily is dedicated to providing a voice for the working class. They believe in the power of workers together and continue to strive for a better future for Milwaukee.

The Cost of War

The cost of war to the American people is staggering. The total cost of war to the American people is estimated at $30 billion. This is a staggering amount of money, and it is difficult to imagine what the American people will have to pay in the future.

Jolts for the Capitalists

By Henry F. Jones
The capitalist in this country is the real life of the nation. He is the backbone of the country, and he is the one who makes the war possible. The capitalist is the one who profits from the war, and he is the one who should be held responsible for the cost of war.

Socialism is the New Patriotism

Socialism is the new patriotism. A system of government that is not based on the principles of freedom and justice is not a government that is built on the foundation of patriotism.

The Masses

A strong argument on behalf of socialism is that it is a cure for the capitalist system, and a way to make the world a better place. Socialism is a system of government that is built on the principles of equality and justice, and it is a system that is based on the idea that everyone should have an equal chance to succeed.

The Cost of War

But adds to human suffering, the cost in money, the cost in the waste of life, is also enormous. There is no quantity of any kind that is paid for by the total cost of the war. But if we could have had no war to begin with, and if we could have had a definite, limited, and peaceful solution of the international problems, we would not have had to pay this enormous sum for the war. We are at a point where the sum of the world's wealth is not only more than it has ever been before, but also more than it can support. And as the net result, we will have to pay more in the future for the loss of life and for the loss of property.

The American people are entitled to the facts, not only the official version but also the full story. This is not to say that there is no truth in the official version. But the truth that we need now is a truth that is told from the standpoint of the American people, not from the standpoint of the government or of any other single group. We need to know what the war has cost us, not only in terms of lives and property, but also in terms of our national character. We need to know what the war has done to our economy, not only in terms of the immediate damage done, but also in terms of the long-term effects on our future. We need to know what the war has done to our international standing, not only in terms of the immediate damage done, but also in terms of the long-term effects on our relations with other nations.

church from the state and the school. In this country this does not exist, and the State has not an interest to control it as a thing, but against the principles of democracy, including many Catholics, world opinion.

The answer to those who say, in the matter of church control of the schools—meaning by that the public schools. Labor is by no means united in its desire to have the church get out of the schools, but against the principles of democracy, including many Catholics, world opinion. Labor, in the matter of church control of the schools—meaning by that the public schools. The German Emperor—the Monarchie is Prophetic

In the meantime, if our own inhabitants should become interested in the education of the young people, the German Monarchie is prophetic. Germany is a revolution, and France has revolutionized the French Empire. In this case, because the Socialist members of the German parliament have renounced their faith, and as a result, because the Socialist affords religion to be a platform, and the State should not press any religious body to having such a platform.

In the matter of compulsory secular education there was some difficulty in this country a few years ago, but the matter appears to have been happily adjusted. The State maintains a standard of secular education in the public schools of the country, which is one of the greatest experiments in the world, and the result has been, that in the last few years, the German demand for education is essentially for the establishment of the Catholic Church and the religious principles, by voluntary organizations and voluntary societies.

Let me read you the definition of the word given by a professional

The conditions of having no part or share takes away or wanting to avoid an equal part or share take away in the word given by a professional

So that integrity covers these two things. When any man speaks out of his heart, integrity has to do with it, and also integrity is something that he has not done.

We shall assume that he means it in both senses.

The call for the Socialism organized by Socialism. Perhaps it would be the best of all if the organizers of Socialism were to take a stand in which the social role of labor belonged to the whole people; and not to the one who is the master of the estate. The great problem of labor is the most difficult one in the history of the world. It is a problem that has not been solved, and the next generation of men shall have to solve it. The Socialism is in no condition to solve it any longer. We are not yet ready to do it. We are not ready to do the thing for which the Socialism was organized.

The Socialism is in no condition to solve it any longer. We are not yet ready to do it. We are not ready to do the thing for which the Socialism was organized.

To Crush Ironworkers’ International Union by Fixing Crime Upon It
Unions Must Take a Stronger Stand Against Labor Men Because They Are Labor Men Are Reprehensible

Action at Indianapolis Conference—American Federation of Labor Executives Council Demanded to Receive and Disburse All Funds for Defense

The entire country has been in an uproar in succession to the arrest and kidnapping of J. B. Cassie, president of the Ironworkers’ International Union, from Wrigley, together with his three associates. In that city, as in others, the worker has developed a spirit of self-defense. The threatened strike for higher wages and better working conditions has been changed into an anti-union movement. The government has been called upon to assert itself in behalf of the worker.

The American Federation of Labor has always been an antagonist to the Labor Movement. The work of the miners, the strike in the coal fields, and the rank and file of its members, have always been against the workers. The American Federation of Labor is a combination of capital and labor, a combination of the interests of the employer and the interests of the wage-earner. It is a conspiracy against the workers, a conspiracy against the workers’ movement, a conspiracy against the workers’ interests, a conspiracy against the workers’ rights.

J. B. Cassie, president of the Ironworkers’ International Union, has been arrested and is now in jail. He is accused of violating the law by carrying on a conspiracy against the workers. The government has called upon the workers to defend themselves, to resist the government, to defy the law, and to carry on a conspiracy against the workers. The workers have refused to do so.

The workers have been threatened with arrest and imprisonment if they do not submit to the government. The workers have been threatened with the confiscation of their property if they do not submit to the government. The workers have been threatened with the loss of their homes, their families, their friends, their belongings, if they do not submit to the government.

The workers have refused to do so. They have refused to submit to the government. They have refused to be stopped. They have refused to be silenced. They have refused to be whipped. They have refused to be beaten. They have refused to be killed. They have refused to be murdered.

Who broke up the homes of the great army of children in the factories and the sweatshops of the great cities of the world? Who is making it safe for you to walk the streets of the city and not to be afraid of your own home? Who is making it safe for you to go to sleep at night..." (text truncated)
