Trust Smashing Is As Silly As the Bull Against the Comet

The recent decision of the United States supreme court in the Ludlow-Brown case is the latest round in the controversy over the Standard Oil trust. The court declared a part of the Standard Oil trust to be illegal, but the case does not necessarily mean that the Standard Oil trust is in any way being dissolved.

But the decision is important because it is the first time in the history of the country that a supreme court has declared a part of a large corporation to be illegal. The decision will undoubtedly have an effect on other large corporations, especially those in the oil business.

The Standard Oil trust, which is the largest corporation in the country, is the result of the amalgamation of a number of smaller companies. The decision of the supreme court will undoubtedly have an effect on the other large corporations, especially those in the oil business.

The decision is also important because it will undoubtedly have an effect on the other large corporations, especially those in the oil business.

Old Age Pensions

Copenhagen, March 25—Swedish and Norwegian labor leaders have submitted their respective national old-age pension systems to foreign attention. It was presented as model systems of security for the citizens of the two Scandinavian countries. The system of pensions in Sweden is well known in the entire world and has been copied in many other countries. The Swedish system is based on the principle that the state should provide for old age, sickness, and disablement for all citizens. The Norwegian system is similar but includes provisions for unemployment and the care of children.

A Great Book

"THE STRUGGLE FOR EXISTENCE" by Walter Thomas Mills

The book has a larger title than any other Irish American Socialist work ever a day. It covers the whole field of the social, political, and economic life of the common man. And it tells the story in a language that any one who wants an English language can be helped. "The Struggle for Existence" is essentially the school teacher; it makes every topic clear. So you will have a larger book, a larger knowledge, and a larger understanding of the social, political, and economic life of the common man.

In your library.

Socialism is the New Patriotism

The Socialist Party in America has been formed in order to carry on the fight for the principles of LABOR, LIBERTY, and SOCIALISM. The party is not founded for the purpose of agitating the religious question, but for the purpose of carrying on the struggle for freedom, equality, and social justice.

Our platform calls for an end to the war, for the abolition of the usury system, for the establishment of a system of social insurance, and for the prosecution of law reform. We believe in the abolition of all forms of monopoly, and in the establishment of a system of social credit. We demand the immediate abolition of the income tax, and the establishment of a system of social credit. We believe in the establishment of a system of social insurance, and in the prosecution of law reform.

The Socialist party is a truly democratic organization, and is open to all who are willing to work for the advancement of the cause of social justice. The Social-Democratic publishing company, 532-533 Ogden St., Milwaukee, Wis., will be glad to supply you with the "Socialist American" and other publications of the Socialist party.

Another Frightening Chapter of Awful Conditions Existing in "The Ukraine of America"...Continued from Social-Capitalist Page

As in the case of railroad property, the federal government, through the Department of Justice, has been compelled to keep the peace in Westminster, Colorado, where a labor union has been established and work is being done by members of the union. According to the latest reports, the workers have been attacked by armed bands of thuggs, who were called out of town by the so-called "business men." The workers have been ordered to leave the town or face the consequences. In addition to the violence directed against the workers, the government has been compelled to take steps to protect the lives of the workers and their families, who are in danger of being killed by the thuggs.

The Builders' Column

Do You Know ???

Comrades: Do you know that our new press prints from twenty-five to thirty-two thousand copies of the Herald an hour? Do you realize that it is only running a very small part of the time? Do you ever consider that we can supply an unlimited quantity of papers?

Do you ever stop to think that you could lose a few new subscribers now and then and that we are as important links in the co-operative chain of publishing a Socialist paper as the editor or the press? We are doing everything we can make the paper what it should be—outstanding, editorial and typographical standpoint.

Now we ask your assistance to circulate it. Take that club blank you found in your paper last week and secure a club of new readers. Without your help the work of the editor and circulation manager is in vain.

What steps are being taken to improve circulation? What is being done to attract new subscribers? How can we make the Herald more appealing to potential readers?

If you have any ideas on how to improve the Herald or attract new subscribers, please share them with us. We are always looking for ways to make the Herald more appealing to potential readers. Thank you for your support and assistance.

Then, in the integrity of society. What of the integrity of that society? This is the great question. What is it, after all, that the society is that we are trying to get? Today society is in the most extraordinary situation. Men may try to define society in terms of the economic division between the working class and the capitalist class, but what is it that we are trying to get? What is the best institution of society? Everybody else says it is there: that you shall not pay more than a dollar for a pound of meat, and so on.

Already there is the great fundamental division: there are great differences in wealth. Everybody else says it is that the rich are able to help themselves, and the poor are not. The industrial revolution has caused the rich to become richer and the poor to become poorer. The railroad company makes money for the capitalists to spend. Everybody else says that that is the best division of society. Everybody else says it is the best institution of society. Everybody else says it is the one that should not be changed and that we should not try to change it.

The dominant faction concerned with trying to change this is the socialist faction, and they are trying to make the system work better. Everybody else says that that is the best division of society. Everybody else says it is the one that should not be changed and that we should not try to change it.

Socialism is a solution of the economic problem. It is not an end in itself, but it is the means to an end. The end is the abolition of the economic division between the working class and the capitalist class. The end is the establishment of a just division of society.

It is a great question. What is the best institution of society? Everybody else says it is there: that you shall not pay more than a dollar for a pound of meat, and so on. However, in terms of the economic division between the working class and the capitalist class, it is not the best institution of society.
