Comment on Passing Events
By Frederick Haise
Con concentration on the inside and the outside.

The increasing need for legal rights and a new perspective on human rights. A profound change in the way governments and other institutions view human rights. This is often accompanied by an increased recognition of the importance of the individual's rights.

The Way Out
By John M. Work

There was a time when people thought that the solution to world problems lay in the hands of politicians. They believed that if only the leaders of nations would sit down and negotiate, they could reach a peaceful resolution to their conflicts. However, the past few decades have taught us that politicians are not the answer. The problems we face today are too complex and require a different approach.

The key to finding a way out is to focus on the individual and the community. We must empower people to make decisions for themselves and work together to solve their own problems. By doing so, we can create a more just and equitable society. The time may be ripe for a renewed commitment to grassroots movements and community organizing. Let us not be deterred by the challenges we face but rather let us embrace them as opportunities for growth and transformation.
Mr. Berger’s Congressional Debut

Washington Evening Star (Col)

When it was announced the other day that Mr. M. G. Berger, Representative from Wisconsin, was to be a candidate for Congress, a great many people were taken by surprise. It was not an air-sounding statement that the Star was breathing, but a very definite and well-considered decision that Mr. Berger was a man of action and that he intended to do something for his constituents. The Star also expressed the opinion that Mr. Berger was a man of ability, and the Star has every reason to believe that Mr. Berger is a man of ability.

Mr. Berger’s decision to run for Congress is something that will be welcomed by the people of Wisconsin. It is not a show of weakness, but a sign of strength. Mr. Berger is a man of action, and he intends to do something for the people of Wisconsin. He is not afraid of the responsibility that comes with the office of Representative, and he is determined to do his best to represent the people of Wisconsin.

The Star also wishes to point out that Mr. Berger is not the only man who has decided to run for Congress. There are other candidates who have also decided to run, and they are all equally qualified to do so. The people of Wisconsin have a right to expect the best of their representatives, and they deserve to have the best.

Side Lights on Legislation at Madison

Madison, Wisconsin may be divided into two sections. The north end is the old town, where the administration buildings are located. The south end is commercial. The two sections are separated by a broad range of hills.

On questions concerning the forthcoming legislation, the farmers are divided. Some are in favor of governmental aid, while others want to keep the city clean.

What the "Shills" Did to Us!

Some people seemed to think that there were too many "shills" in the market. Shills are those people who have a vested interest in keeping the market prices high. They can be identified by the large hat and the loud voice. Sometimes they throw pennies at the crowd to create a false sense of demand.

Town Topics by the Town Crier

The present duty of the town crier is to sound the alarm in case of fire. He is also responsible for passing on important news to the citizens. The town crier is chosen from among the most respected citizens of the town.
