Even Sheep Do Not Elect Wolves to Rule Them!

The political parties are simply the expression—the practical embodiment of the capitalist class. The economic conditions of the working class are so arranged that the surplus wealth or surplus labour of the working class is not produced by the working class itself.
The Power of German Socialism

The following account, somewhat condensed, is taken from a recent resolution passed by the Social Democratic party of Germany. It gives a very good estimate of the great power of the Socialists throughout the country.

The number of Socialists in Germany is estimated to be about 2,000,000. They have control of the government in many cities and are in a position to influence legislation. They have a large number of newspapers, and are influential in the educational and industrial fields.

In their policy, they aim at the establishment of a socialistic system, where wealth and work are distributed according to need.

A Socialist's March

A Socialist's March was elevated to the dignity of a holiday by the Social Democratic party of Germany. The march is a protest against the existing social and economic conditions and a call for a better world.

On this day, Socialists all over the country march in procession, carrying banners and flags, singing songs and chanting slogans. The march is intended to promote the cause of Socialism and to attract new members to the party.

Pavement Expense as a Tax

To burden a street railway company with expense for pavement between its tracks is unjust.

If this cost is imposed upon a company it must be regarded as a tax, for pavement is not a part of a street railway. It is not necessary to either the construction or operation of the railway.

The payment does not belong to the company. It is owned and controlled entirely by the city. At the end of a franchise period or in case of removal of the tracks, it must remain in the street, the property of the city. Manifestly, it is unfair to tax a street railway for property which it does not own and from which it derives no benefits.

The MILWAUKEE ELECTRIC RAILWAY AND LIGHT COMPANY, under its franchise, is required to pay for the maintenance of all pavement between and adjoining its tracks. The city pays a fixed cost of the first permanent pavement, between tracks as elsewhere.

In eleven years, from January 1, 1900, to December 31, 1910, this Company expended amounts to $101,000.75, as shown on its books in its operating expense accounts. In addition, the Company expended approximately $300,000.00 in construction and reconstruction of paving in connection with its tracks.

In the same 11-year period the Company paid in taxes on street railway property the aggregate sum of $1,438,253.20.

This makes a total of $2,147,068.29 paid in taxes and expenses imposed against its street railway property in the 11-year period.

In addition to the other forms of taxation in force in 1910, the Company is required now to pay the cost of sprinkling its roadway. The amount of this additional tax in 1911 will be not less than $25,000.

Besides this, the City of Milwaukee recently enacted an ordinance requiring the Company to pay a car license tax of $15 per car per year. The amount of this tax, on 587 cars, for the year ending April 30, 1912, will be $8,800.

Every dollar added to the Company's taxes is an increase of 100 cents in the cost of providing service. Every increase in the cost of service must ultimately be borne by the public, either in inferior quality of service, or a higher rate of fare.
Federated Trades Council of Milwaukee

State Federation Convention

The La Crosse convention was a great success. It was the first convention that the trade councils have ever held in the state. It was a great opportunity for the trade councils to meet and discuss their problems.

What Went Down

The results of the convention might be summed up as follows: An important and necessary matter was the question of organizing the trade councils of the state. The trade councils have a great deal of work to do, and they need the support of the trade unions.

New President for Organization

In his annual report, Secretary Franklin reported that he had been elected as the new president of the organization. He outlined the work that he wished to accomplish during the next year. He also announced that the organization would continue to work for the betterment of the trade councils.

To Come Up Next Year

The next convention will be held in La Crosse. The trade councils have been asked to send delegates to the convention. It is hoped that the trade councils will continue to grow and that they will be more effective in the future.

News of Organized Labor

Conducted by Walter P. Fisher

Address, 418 La Crosse Hotel

There has been a great deal of interest in the question of organized labor. The trade councils have been working hard to organize the workers in the state. They have been successful in organizing a number of workers in various industries.

Engineers Get Increased

Convention of the Brotherhood of Locomotive Engineers was held in Chicago. The convention was a success, and the members were able to increase their wages by 6 percent.

Chicago's Main Line

As a result of a survey by the trade councils, the question of organized labor has been brought up for discussion. The trade councils are working hard to organize the workers in Chicago.

Wisconsin State Federation of Labor

La Crosse, July 10. The Wisconsin State Federation of Labor held its annual convention last week in La Crosse. The convention was a great success, and the members were able to discuss their problems.

Our Effort to Organize

The federation is making every effort to organize the workers in the state. They are working hard to increase the wages of the workers and to improve their working conditions.

Rascally Assessments Clearly Shown—Little Home Owners the Victims—What the Figures Show—The People Must Act!

For men who claim to have done everything they can to make our system better, and his force show a surprising list of cases in which the assessments of homes and land are too high! And it is all because the councilmen are not up to the mark.

They have not been doing the work they should have been doing, and the result has been that the assessments have been excessive. The councilmen have been acting in a manner that is not consistent with the best interests of the community.

The assessments are too high, and the councilmen are not doing enough to correct the situation. It is time for the councilmen to take action and lower the assessments to a reasonable level.

One of the Victims

One of the victims of this excessive assessment is Mr. Jones, who lives on a small farm near the town. His assessment is too high, and he is being overcharged for his property.

The councilmen have not been doing their job, and the result has been that the assessments are too high. It is time for the councilmen to take action and lower the assessments to a reasonable level.

If you think that the assessments are too high, you should write to your councilmen and express your opinion. It is time for the councilmen to take action and lower the assessments to a reasonable level.
