This is German Socialism in the year of grace 1911. It is a giant oc-topus, extending its feelers into every corner of the empire, to be seen with the naked eye or deciphered in the columns of unemotional statistics. It has grown thus in forty years, in proserous times and in a land economically the best situated on the continent, and among a people hither-to regarded for their intelligence and conservativeness. Could history thus repeat itself in our land of freedom. and plenty? Would a change or check in our "good times" for they

cannot continue forever - precipitate such a movement and lead to like results?

A few years ago, Professor Werner Sombart, the well-known German sociologist, came to America to study its conditions, and on his return to Europe he published his results in a work entitled "Why Is There No Socialism in the United States?" The book discusses the economic, political and social conditions which have thus far made impossible the successful propag .... of continental Socialism in the United States, and yet Sombart closes his volume with this re-markable sentence: "All the factors that have up to this time retarded

the evolution of Socialism in the United States are on the point of van ishing, or of changing into their con traries, and, as a consequence, So-cialism will, in all likelihood, during the next generation attain, in the union its highest development." #### May 17. Answer

Mr. H. S. Gilbertson, the' Short' Ballot Organization, New York City. Dear Sir: The Socialist party has never expressed itself on the short ballot movement. I can therefore give you only my individual opinion which, believe fairly represents however, 1 the general Socialist attitude.

The short ballot movement is substan' ally based upon the time-honored "good-man" idea in politics. Mr. Richard S. Childs, the secretary-treasurer of your organization, and probthe most conspicuous exponent of the short ballot, sums up the theory in the following language: "Good government is entirely a

matter of getting the right men in the first place. Nothing else is so vital. No system, however ingenious, will make bad men give good government or keep good men from getting superior results."

The advocates of the short ballot assert that one of the greatest ob-stacles to securing good men for public office, is the "long ballot," i. e., The public aster, the large number of public officials elected by popular vote The voter, they argue, has no personal knowledge of the merits of the opposing finance and maintain it. ## **A New Milestone**

Get The Herald into the Hands of Your Friends and Start Them in Reading the Account of the Conference of Elected Socialist Officials This Will Attract Their Attention and Hold It

Thirty-five Socialist mayors and scores of other elected Socialist officials will hold a conference in Milwaukee from August 11-15.

This conference will be the most significant gathering that has taken place on the American continent for a century. In all probability it will be the first of what will in the future become a great annual national gathering to consider great social problems by Socialist legislators and executive officers, municipal, state and national.

From all present indications the fall and spring elections of 1911-12 will add hundreds more to the elected Socialists throughout the country.

What can you do that is so likely to land the people of your community in the Socialist camp as to have them read the account of what Socialists in action are doing from week to week?

Get a club at once and have them start reading The Herald which will contain a full account of the conference of America's elected Socialists.

Remember, you get a History of the Milwaukee Campaign and Victory for each club of eight you send in. No active Socialist or branch can afford to be without one of these books to refer to when planning educational or campaign work.

# Pavement Expense as a Tax

The Milwaukee Electric Railway & Light Company

To burden a street railway company with expense for pavement between its tracks is unjust.

If this cost is imposed upon a company it must be regarded as a tax, for pavement is not a part of a street railway. It is not necessary to either the construction or operation of operating expense accounts. In addition, the Company expended approximately \$500,000 in construction and reconstruction of paving in connection with its tracks.

In the same 11-year period the Company paid in taxes otherwise imposed against its street railway property the aggregate sum of \$1.458.258.2

The pavement does not belong to the company. It is owned and controlled entirely by the city. At the end of a franchise period or in case of removal of the tracks, it must remain in the street, the property of the city.

Manifestly, it is unfair to tax a street railway for property which it does not own and from which it derives no benefit.

THE MILWAUKEE ELECTRIC RAILWAY AND LIGHT COMPANY. under its franchise, is required to pay for the maintenance of all pavement between and adjoining its tracks. The city pays the original cost of the first permanent pavement, between tracks as elsewitere.

In eleven years, from January 1, 1900, to December 31, 1910, this Company's expenditures for maintenance of pavements amounted to \$189,607.62, as shown on its books in its

This makes a total of \$2,147,865.88 paid in taxes on account of the street railway system in the 11-year period.

In addition to the other forms of taxation in force in 1910, the Company is required now to pay the cost of sprinkling its roadway. The amount of this additional tax in 1911 will be not less than \$25,000.

Besides this, the City of Milwaukee recently enacted an ordinance requiring the Company to pay a car license tax of \$15 per car per year. The amount of this tax, on 587 cars, for the year ending April 30, 1912, will be \$8,805.

Every dollar added to the Company's taxes is an increase of 100 cents in the cost of providing service. Every increase in the cost of service must ultimately be borne by the public, either in inferior quality of service, or a higher rate of fare.

Brockhausen Chosen Again In his annual report, Secretary rederick Brockhausen served notice that he wished to sever "all official connection" with the organization. Later, however, on being nominated and elected by an almost unanimous vote, he consented to serve for another year. He announced definitely, however, that this will be his last ear as an officer of the federation. Delegates Templin and Henderson, igarmakers, Milwaukee. by instruc-tions from their organization. intro-

To Come Up Next Year The resolution was fought by Am-bach, Green Bay, and Burhop, She-

boygan, both cigarmakers. They held as did also General Organizer Frank Weber, that the passage of the resolu-tion could not possibly affect any but one person, Secretary Brockhausen.

State Federation Convention The La Crosse cenvention was a fully his service and his loyalty. But use of spies and detectives by employ

the cigarmakers and that the cigar-makers should f. at reduce Brockhaucenters of unionism in the state, a fine average of delegates was in at-tendance. And those who came felt that the convention was of success in that all went away with bigger and bolder ideas of unionism and the aims and methods of the Wisconsin State Enderstion sen from full standing in that union before bringing such a matter to a state federation convention. It was brought out that Brockhausen had seldom had more than one man in his

employ and delegates pronounced it ridiculous that any danger should be feared from the operator of a small "buckeye." The consensus of opinion seemed to be that the cigarmaker delegates were not entirely in the wrong and that during the next year the situation should be gone over thoroughly and given attention at the next convention

Compensation Law Described Hot resolutions condemning the anarchistic, kidnaping of McNamara were passed and \$100 appropriated for the legal defense fund. The continuance of the state federation defense fund was approved. It is contributed to by all members of the federation and is held as a reserve for use in strikes and other emergencies.

J. D. Beck, commissioner of labor, and Deputy Commissioner Frey spoke to the convention on Friday on the operations of the workmen's compensation law. They urged all workmen to enter under the law, giving their assurance of co-operation. A digest of the law will be made and sent to all organization secretaries over the state so that union men will have full opportunity to know what their rights

are under the new act. Keen interest was shown in this matter. Comment was quite general also about the close contact with law-making and administrative power enjoyed by the federa-tion. Secretary Brockhausen, who was a member of the state legislative committee that framed the compensation act, declared in his report, "While we did not get all we wanted and while we must go much farther than the provisions of this act, it is a step in the right direction and as such we must understand it and take advantage of it."

### Weber Hits at Spies

Frank Weber, general organizer, vas at all times one of the active and interesting figures of the convention. The section of his report in which he discussed "the scab" made a strong Templin and Henderson explained appeal to the delegates. Just before ing, "Sweetheart, I that they were not personally opposed adjournment Thursday. Weber took Sheboygan." So to the secretary, that they recognized occasion to describe the increasing picked for next year.

But despite the distance of La Crosse from the main centers of unionism-in the state, a the cigarmakers and that the class bor unions in the United States is 6,-000. During the past year, more of these have been found out and there pects" than in previous years. It in-dicates, he believes, an increased activity on the part of employers in combating labor. Weber has attended the entire nineteen annual conventions, dating back to the initial or-ganization of the state federation.

Organizer James of the boot and shoe workers, urged more label agitation.

## "Concentration" and Success

At the Thursday night banquet an address was made by Mr. Doerflinger, proprietor of the large La Crosse department store. He descanted on the qualities necessary for success in life and said Determination, Concentration and Imagination were the re-quisites. Frederick Brockhausen, who followed, made the statement that while Milwaukee does not propose to antiex La Crosse geographically, it does expect to annex La Crosse economically and politically. Frank Weber, referring to "Concentration." said that about the only thing the matter with the working class is that it does not understand how to con-centrate. "If the working class will concentrate its full strength in a compact economic and political organiza ion." he said, "there is no power that can prevent its triumph."

A sunset trip in steamboats up among the blue hills lining the Mississippi was a feature of the program Friday night.

#### Daily Newspaper

In the closing hour of the convention Saturday, speeches were made by Henderson and Sandburg on the im-portance of establishing a working class newspaper in Milwaukee. It was pointed out that such a paper standing ready to issue special strike editions during emergencies, and as an educator of public sentiment on the label and on all matters involving the good of the workers, would be worth thousants of dollars. Delegates were urged to present the mat-ter to their unions and purchase bonds to help get the daily started. Wausau, Madison and Sheboygan all presented their compliments and asked for the convention of 1912 Sheboygan tied in the buttonholes of the delegates heart-shaped cards say ing, "Sweetheart, I want you, 1912. sudden awakening of civic pride For years we have had business administrations, conducted by so-called the present condition of affairs on the business men, and during all these Socialist administration, put the blame years the cry of the men who com-prise the Taxpayers' league for improcement in municipal affairs, when compared with the howl they are now raising, was like the meow of a kitten compared with the roar of a lion.

One would imagine that the Social-Democratic administration, during the year and a quarter in which it has been in power, had so tangled and debauched the affairs of our city that bankruptcy and municipal ship-wreck is the result of their acts.

## Ship-Wreck Was Threatened

Yes, Mr. Chizen and Taxpayer, bankruptcy and ship-wreck is threat-ing your city. It has been threaten-ing your city during the last fifteen years, but you didn't know anything about it until the Social-Democratic diministration of the city's affairs. This administration entered and let in the light on the true condition of affairs confronting you. You never were told was a deficit. much in bygone years of the things which were going wrong in the city half until a few years ago, when the Social-Democrats forced an opening wedge into the mysteries of municipal government.

## Why Money Was Borrowed

The present administration is ac cused of borrowing money. It must plead guilty to that charge. But why was it compelled to borrow money? The answer is, because the previous administration left the city in debt to the extent of \$217,000, and failed to make provision for the payment of that lebt when they made up their budges in January, 1910. The bills came due and had to be paid, and to the city from a financial black because of the debt left by the eye, because of the debt left by the other fellows, the present administration had to borrow money, and when they did this they did not borrow it on the sly; they let the citizens of Milwaukee know they had borrc wed it.

Read the Taxpapers' league bulletin and instead of placing the blame for on the previous administrations, where it properly belongs, and you will have a better understanding of the situation.

## O. That Deficit

The Taxpayers' league further charges the present administration with increasing the budget for 1911 over the budget of 1910. In the first place, the 1910 budget was lower by \$217,000 than it really ought to have been. This is the deficit which the clever financiers incurred, who ran the city before the present administration took hold. That deficit should have

was the first time in many years, Mr.

Bookkeeping on the Square When the Social-Democratic administration made up its 1911 budget, it determined to do it "on the square." It included the deficit. Naturally, the budget was immediately increased to the extent of the deficit, where the former administration's budget decreased to the extent of it making a difference of twice the amount of the deficit between the two budgets. Do you catch the point? Besides the deficit which had to be provided for, there is a natural increase in the expenses of the city in the fire, police and other departments, and you. Mr. Taxpayer, surely understand that as your boy grows larger he needs larger clothes and larger clothes cost more money. Likewise, when your city grows larger its expenses begreater, and the budget natural-

The issuing of refunding bonds was due to the same, causes was which led to the borrowing of money and the increase of the 1911 budget over that of 1910. The former administrations bought park lands on land contracts and instead of paying any installments on the principal they simply paid the interest, and when these land contracts fell due this year they had to be paid or you would have lost your parks, together with all the money you paid in for improvements. So here again the present adminis-tration had to assume the responsi-

bility for the sins of those of the past and had to provide for the payment of these land contracts. The only way possible to get the money was to issue refunding bonds, and they provided for \$160,000 worth.

#### Instead of a Deficit

The refunding bonds have just been authorized to be issued by the com mon council, and, Mr. Taxpayer, the Social-Democratic administration so conducted the affairs of your city dur-ing the past year that instead of showing a deficit for their own con-duct of the city's affairs, they show a surplus of nearly \$66,000. Therefore, they were able to reduce the amount of the refunding bonds to \$100,000 instead of \$160,000.

It is impossible for an assessor, be he ever so honest and conscientious and full of gumption, to make a safe estimate of the personal ownings of a be determined. financier.

Where is the man, for instance, who could say how much Charley Pfister is worth, or Tom Neacy, or the Falks

and Kieckhefers? So the law provides that such men shall be required by the assessor to make a statement as to their property and to sign the same. This has its value, for should it be shown at any time that the statement s false, the men can be haled into is talse, the men can be nated into court on a charge of perjury—and perjury is a serious thing to be charged with, even where a man is rich enough to employ the most criminal and high-priced of lawyers to

help him out. In case a property owner refused to make a signed statement the assessor is given the power under the law to bring pressure to bear by put-ting down what he thinks is a full value of the man's property, even though it is five times higher than it should be, thus compelling the man to appear before the board of review and to them make oath to his hold-

But once you get it into that hard head of yours that they are dodging taxes at YOUR expense, you will not feel so philan-thropic—and you should not. It is a downright shame, Mr. Smith,

It is a damnable shame, because Mil-waukee ought to foster home owning. Home owning makes good citizenship. But overtaxing the little homes dis-courages people from trying to get little homes of their own.

There is no reason why a man who pays taxes on his wealth when it is in real estate should be permitted to es-cape paying full taxes on that wealth if he sells his real estate and puts his money into bonds, mortgages, or other valuable securities.

We have spoken above of the mil-lions on deposit by Milwaukee peo-ple in Milwaukee banks. And right here comes a suggestive little piece of information. Within the last few weeks two Milwaukee banks (the First National and the Wisconsin National. we understand) have transferred two millions of the moneys on deposit to Chicago banks, to he kept doubt-less until the storm blows over.
