WASHINGTON, July 30—Complying with the provisions of a new law, Mayor West of Washington ordered all public parks closed at sunset, to be opened only from sunrise to 9 p.m. The new law, passed in May, requires that all public parks be closed at sunset, to be opened only from sunrise to 9 p.m. The law is designed to prevent idle loitering and vandalism, and to promote good order and peace in the parks.

What's a man's worth now, any way you look at it?

Once there was a time when the right-to-right,

Social Democratic, Socialist, Progressive,

was a household word. But to-day it is a distant memory, a relic of a bygone era. The world has changed, and so has the definition of what a man's worth is. But one thing remains constant: a man's worth is not measured by the number of votes he gets, but by the quality of his work.

The socialist program is the latest thing in congress. It is a program designed to benefit the working class, and to create a more just and equal society. It is a program that is designed to make the world a better place for all people.

The Quitter—By John M. Work

You are tired and discouraged and you are losing hope.

There are times when we think, "Why not try to get a new job?"

When the newspaper is in your hand you think, "Well, I won't give up hope.

We are throwing the fire from the campfire into our faces."

When our mental and emotional breakdowns come, we think, "What is the matter with me?"

In our case, the answer was always the same.

We do not have the ability to work.

"Are Any Mules Killed?"

Carl Sandburg, Chicago, Ill.

In the speech of Congressmen Boggs and Gibson, they said that the American people are a nation of the mule.

They are continually making beautiful speeches about the mule's valor and loyalty.

The mule is a sacred animal, according to them.

The mule is a symbol of our country.

The mule is a symbol of our freedom.

But the truth is, the mule is a stupid animal.

It is a slave to the farmer.

It is a slave to the industrialist.

It is a slave to the capitalist.

And for this reason, we must kill the mule.

To Gen. Harrison Gray Otis—An Open Letter

By M. V. Dugan

Dear General Otis:

I address you, not as a member of the G. V. D. but as one who has been the recipient of your generous hospitality and friendship for many years. The warm appreciation and respect which I felt for you as a military leader and statesman has been a constant source of inspiration to me. In my letter to you, I wish to express my admiration for your service to the country.

First, let me remark that I deplored the outbreak of the war and the suffering it caused. I knew that the conflict would bring great sorrow and distress to millions of people. I felt that it was a grave mistake to enter into the war without consulting all the facts. I knew that it was a mistake to rely on the assurances of our enemies.

I believe that the war was a failure. I believe that it was a mistake to allow it to continue for so long. I believe that it was a mistake to allow the enemy to have such a large influence. I believe that it was a mistake to allow the enemy to control the atmosphere of the country.

I believe that the war was a failure. I believe that it was a mistake to allow it to continue for so long. I believe that it was a mistake to allow the enemy to have such a large influence. I believe that it was a mistake to allow the enemy to control the atmosphere of the country.

Remember you get the History of the Milwaukee Campaigns and Victory as a premium for securing a club of eight readers of the Milwaukee Social-Democratic Herald.

Every active Socialist should have one of these books. Every Socialist local and branch should secure at least one copy for reference in planning educational, propaganda and political campaigns.

It is absolutely the best book obtainable for hints on how to reach the masses with the Socialist message.

There is nothing in print which contains such a mine of valuable political information, to help you in your work of spreading the gospel of Socialism.

Get the book for yourself by putting the Herald in the hands of those you wish to become Socialists. Remember where the Herald goes, Socialism grows.

WHAT IT CONTAINS:

Full agenda, names of the delegates, who have taken part. Full account of the Milwaukee Convention. Full account of the platform adopted at the Milwaukee Convention. A full account of the Milwaukee program. Full account of the platform adopted at the Milwaukee program.

The book has been well-received and will be published in every Socialist community.

SOCIAL-DEMOCRATIC ADVANCES — Coroner Nahin's Record in Workmen's Cases

A workman on the North-Western Railway at Deception Bay was found dead, apparently at the side of the track. He had thrown himself under a train and was run over by one of the engines. The body was discovered early in the morning by a track gang. The workman had been employed on the railway for ten years, and was well known to his colleagues. The cause of death was as yet unknown.

Planning a Street Railway System

The planning of a street railway system is a scientific problem. The building up of a well planned system is a work of years.

Routing of car lines cannot be arranged satisfactorily by chance or guesswork. It must be based upon careful study of local conditions and by the results of experience. It must be governed by the principles of engineering.

This is true not only of Milwaukee, but of other cities, notably Chicago, Pittsburgh, Detroit, Toronto. In these cities, a traction expert was employed and the conditions in order that the best street railway system practicable, for these cities, could be worked out.

The usefulness of a street railway system depends upon the efficiency of its car service, which is dependent in part upon the efficiency of its cars. To perform its full share in street railway service a car must not only be useful in one district of the city, but contribute to the efficiency of the whole system.

A street railway company cannot afford to consider any of its lines independently.

We Must Test the Home Rule Bill

By a previous resolution connected with pedestrian election laws before mentioned, a ballot on the home rule bill was fixed for June 12, but the resolution provided that an election should be held in the city if a majority of those entitled to vote should sign a petition asking for an election. It is now the time to reach the necessary majority.

Dishonest Taxing

It isn't enough that you go to the tax commissioner's office and find that your little home has been fairly assessed. That's just where you can be fooled into thinking things are all right.

The point is this:
If certain others are under-assessed it means that you and others will have to make up the other fellows' dodged taxes next tax time.

You will be taxed on the full value of your place and enough more to make up for the tax-dodging all over the city by the under-assessed properties.

The taxes have to be collected. If some pay less than they should, YOU will pay more than you should.

Assessment Game a Huge Swindle—Millionaires and Plain People Get the Limit—Honest Assessment Would Give Milwaukee Low Taxes

Thanks to the hold-over Dave Rose tax department the assessment game money escapes assessment.

Tax dodging is not found among the people who have their property offered as an asset. It is too bad. The people who would be the most interested in buying the city of the city and in the interest of the city for their personal benefit are the people who know the tax assessor. Their houses are safe from tax dodgers. Thomas J. Hovey recently said in the paper that he would be willing to do it. He said that if the people would see the necessity of it they would be willing to do it. It is a demand that rich people escape and little homes are taxed too much.

The little homes are over-assessed and the city is unable to get the benefit of the tax. A large number of people have been assessed too much and the city has been able to get the benefit of the tax. As a matter of fact it is special import of one of the manufacturers in the city. This is a demand that rich people escape and little homes are taxed too much.

All property, real estate, in the city is taxable on ALL property assessed. A lot of people own property in the city, and some of them own property in the city. And personal property owned in the city is taxable on all property assessed.
