The Tax Rate Is Low—However, the Rich Evade Paying Their Share

In this article, the author discusses the tax rate and how the wealthy often evade paying their fair share. The author suggests that the system is not equitable and that the working class can accomplish everything that the best non-Socialist could accomplish, and much more, much more humanly and much more justly and efficiently.

The author points out that the wealthy have resources to avoid paying taxes, and that the system needs to be reformed to ensure that everyone pays their fair share.

The author concludes by urging readers to support a reform of the tax system that is fair and equitable for all.
CARRY TO SOCIALISM

There are very many well-meaning people who, whatever they think of socialism, say:

"That's a foolish idea. It won't work out. There's no way it can work out."

Very certainly we will not say yes. "No," is a pity that things are not, and that there is never any chance for the world to work out.

The average citizen sees the situation and the necessities of the world, and never the way of a thing. He believes in the world of today, but in the world of tomorrow he is willing to see nothing but an empty space.

What's Your Council Doing?

Under the present, existing charges of Mayor Seldin that Frank B. Schmidt and his associates have been selling city property at below market value, the city has come under even more scrutiny. The recent revelation that Mayor Seldin's own son has been involved in the sale of city property has added to the controversy.

Labor Now Has Voice in National Congress

What Has Been Done by Milwaukee's Senator, E. Berger—Why Man

One hot day last August a man was seated in a car at the corner of 10th and Walker Streets, among the buildings of the House of Representatives of the United States. He was reading the Congressional Record and listening to the radio. This man listened with interest. He went to his hotel, changed a few dollars on the floor, bought a lottery ticket, and then sat down to a，“So he can work the rest of his life and not waste his time in the house of Representatives.”

What, then, is the meaning of a senator? If he can work the rest of his life and not waste his time in the House of Representatives, what is he to do? Is he just a glorified employee of the government? Is he the head of a newspaper? Is he the head of a bank?

This is the beginning of the answer. This is the beginning of an answer to the question of what a senator is. This is the beginning of an answer to the question of why a senator is in the House of Representatives.

Senator E. Berger has been in the House of Representatives for a number of years. He has been a Democrat. He has been a Republican. He has been a Independent. He has been a Socialist.

But the question is, What has been done by Milwaukee's Senator, E. Berger?

He has done a number of things. He has introduced a number of bills. He has spoken on a number of occasions. He has been a member of a number of committees. He has been a member of the Senate.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

But what has been done by Milwaukee's Senator, E. Berger?

He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees. He has been a member of a number of committees.

At the Theater

DAVIDSON—The Mysterious
Henry Miller, who played so well the part of the Shylock in "The Merchant of Venice," is back again this week, night for an engagement at the Strand, and the public is invited to see him again in "The Mysterious Davidson." Mr. Miller comes this season with a company of the brightest and best of the English stage who are under the management of H. G. Bache, in which he has been the manager for three years. The central role of "The Mysterious Davidson," is that of the detective of the same name, played by Mr. Miller. The play is a mystery, with a good deal of opportunity for the players to show their ability. The play has been very successful and is very well received by the American audience.

Are New Pavements Right?

Taking a Sample

Whether the cut-off method or the "chop and chip" method, is the new
pavement better than the old one? A sample of the new and
old pavement should be obtained and compared. The
sample of the old pavement should be carefully scraped
off and tested. The sample of the new pavement should
be cut off and tested. If the old pavement is better than
the new one, the new pavement should be installed.
