The Taft-Taffy in Milwaukee Was Spent on the Wrong Crowd

The lead from Los Angeles to the nation's capital is a long and winding road. It is the road of democracy, where the people rule. It is the road of progress, where the nation moves forward. It is the road of freedom, where every citizen has a voice. And it is the road of civil rights, where every person is treated equally.

The nation's capital is the seat of government, where the laws are made and the policies are set. It is the place where the nation's leaders meet to discuss the issues that affect all of us. It is the place where the nation's future is decided.

The nation's capital is also the home of the nation's heroes, where the military protects our safety and the police protect our peace. It is the place where the nation's history is made and remade.

When the news of the nation's capital reaches the people, it is important to understand the context. The news is often complex and difficult to understand. It is important to read the news carefully and to consider the implications of what is being reported.

The nation's capital is a place of opportunity, where every citizen has the chance to succeed. It is a place of hope, where every person is treated with respect. And it is a place of change, where every day brings new developments and new possibilities.

Money Grabbed from County

Former Officials Kept Money Now Treasury - Amounts to $1,505.90 So Far.

House surveys indicate the county treasurer is now in deep water, as regards the money of the county, which has been misappropriated through the operation of his office.

Clara Marie Plato would average $1.30 a day, or $470 a year, for the combined duties of deputy, county clerk and county treasurer.

Plato paid $10,000 for a house in the county, but the county auditor, after examination of the county's books, has found that the treasurer has spent $5,000 of the money of the county on the house and has not paid for it, and that the treasurer has been living in the house.

The treasurer, a man of high character, has been in office for ten years and has been a model of integrity, but the auditor finds that he has been embezzling the money of the county, and that he has used the money for his own benefit.

Paid Disturbers in Socialist Ranks

Spies Hired by Master Class to Try to Disrupt Party Organization—Big Fund Raised by Them for Misconduct of Government in the Cause of Industry

By Mike Hooch

MINST, N.D., June 24—Are there paid disturbers among our party organization? And if so, why are they called "reformers" under police protection? Here is a story which every party member should read, whether he belongs to our party or not, and ask if there are "reformers" under police protection.

In the first place, this is a story which every party member should read, whether he belongs to our party or not, and ask if there are "reformers" under police protection.

In the third place, this is a story which every party member should read, whether he belongs to our party or not, and ask if there are "reformers" under police protection.

The story is this: a number of reformers were employed by the National Labor Union, under the direction of the Socialist party of Minnesota, to try to prevent the organization of a labor union in Minneapolis. The reformers were furnished with the necessary money, and they discharged their duties with energy and thoroughness.

NEW YORK'S BUDGET EXHIBIT

By Mary S. Oppenheimer

The city fathers have prepared a budget for the coming year and the present budget, which was adopted last year by the Board of Estimate and Apportionment. The new budget for the fiscal year 1932-33 is $50,200,000 more than the present budget, and the total amount of the budget is $50,200,000.

The budget includes a number of important new programs, including a plan for the rehabilitation of slums, a plan for the construction of new schools, a plan for the expansion of the public library system, and a plan for the improvement of the city's parks and playgrounds.

The budget also includes a number of new programs for the welfare of the city's poor, including a plan for the construction of new low-income housing, a plan for the expansion of the city's public health program, and a plan for the improvement of the city's social services.

The budget is also notable for its careful planning and its attention to detail. The city fathers have taken great care to ensure that every dollar of the budget is spent wisely and effectively, and they have taken great care to ensure that every program in the budget is carefully planned and well-executed.

The budget is a testament to the city fathers' commitment to the welfare of the people of the city. It is a budget that is designed to meet the needs of the people of the city, and it is a budget that is designed to improve the quality of life for all the people of the city.

McNamara Trial Drag

By Adolph O. Schermerhorn

The McNamara trial dragged on for over a month, and it was only with great difficulty that the jury was able to reach a verdict. The trial was marked by a number of legal and procedural issues, and it was only with great effort that the court was able to reach a verdict.

The McNamara trial was a highly publicized trial, and it attracted a great deal of attention. The trial was marked by a number of legal and procedural issues, and it was only with great effort that the court was able to reach a verdict.

Apples! Apples! Apples!

Very popular are the large and crisp apples, especially the Red Delicious and Mcintosh varieties. There are many farm homes, and all you want is to eat, which makes for plenty of fruit.

Over the ground, lay around for apples, for they are yours for the taking.

The fruit is pruned, and the trees are alive with the smell of new growth.

Eat all you want, and more than enough to pick.

Want to eat the little pale colored and the red apples every come to call. The wild apple in the orchard of the city that is rare. The wild apple is the largest of the large.

The fruit is a phenomenon of Wisconsin, very scarce to be plucked in, as the city is not much used.

A good plan is more than desirable—it is absolutely necessary. We can never hope to make our children capable of handling the small and efficient use of a piano made over to us.

A "good" piano does not necessitate a high-priced instrument.

It is a matter of selection for you to look for our line. "We mean what you mean when you have no special expense—we have the right instruments at the right price."

Come to see us before making your choice决定. Whether you buy or not, excellent advice will be gladly given you of the opportunity to see any piano played by a person, player, player, and other players anywhere in the entire Northwest.

There are not enough people who understand what it means to the city to have such a department, with such a board, and with such a manager and a city attorney.”

City Attorney Co-operators

One of the basic demands made of the Social-Democratic or Socialists has been the establishment of a city attorney. The city attorney’s office is the only one in the state that the state itself does not have. The city attorney is in charge of all the city’s legal affairs.

Social-Democratic Advances

The Social-Democratic party has been making progress in recent months. A number of new members have joined, and the party's influence is growing. The party's platform advocates universal suffrage, workers' control of industry, and the abolition of private property. The Social-Democratic party has been active in organizing strikes and protests against capitalist oppression, and its members have been arrested and imprisoned for their activities. The party leaders are planning a national convention to discuss election strategies and future goals.

TERRIFIC WASTE OF CITY MONEY

Million and a Half Dollars in Interest Alone on Street Bonds—How Social-Democrats Have Plugged a Big Bad Hole

By J. H. B. of Saint Paul

This is the story of how the Social-Democrats of the city went to work on the problem of the $1,500,000 in interest that is paid annually on the city's street bonds. It is the story of how the Social-Democrats of the city went to work on the problem of the $1,500,000 in interest that is paid annually on the city's street bonds.

The story is not new in the sense that the Social-Democrats have always been interested in the question of the interest on the city's street bonds. But it is the first time that the Social-Democrats have been able to take the initiative in the matter and to do something about it.

The problem of the interest on the city's street bonds is a serious one. The city is paying out millions of dollars each year in interest on these bonds, and it is clear that something must be done to reduce this burden.

The Social-Democrats have long been aware of the importance of reducing the interest on the city's street bonds. They have been working on the problem for many years, and they have been successful in impressing the public with the necessity of reducing the interest on these bonds.

The Social-Democrats have been able to take the initiative in the matter because they have been able to attract public attention to the problem. They have been able to do this by a combination of public meetings, pamphlets, and other publicity devices.

The Social-Democrats have also been able to attract public attention to the problem because they have been able to show that the interest on the city's street bonds is a burden that is unnecessary. They have been able to show that the interest on these bonds is a burden that could be reduced if the city were to take the initiative in the matter.

The Social-Democrats have been able to show that the interest on the city's street bonds is a burden that could be reduced if the city were to take the initiative in the matter because they have been able to demonstrate that the city is paying too much interest on its street bonds.
