PARTIES ARE NECESSARY

By Victor L. Berger

The great outcry of some "reformer" of the present day that their parties are certainly "in the way" and that there is a local election on a larger scale.

As a matter of fact, a democracy this rule of local government by the people is impossible without local elections. Capital is organized, and, when a business is carried on, there must be a political party to support it. The power of the government by the people is the great mistake of the working class. It is the capitalistic party in the state that is in the way of the working class. It is the capitalistic party that is in the way of the working class. Part of the working class is in the political life of the state.

Men who participate in the political life to make the state a democracy.

Of course, I am willing to admit that there is no difference between the Republican and the Democratic parties. Or, more accurately, the Democratic party is not a political party at all. It is not at all a question of good or bad, but of whether or not the working class is in the political life of the state.

AN IMPORTANT MATTER FOR HERALD READERS

Some of the newspapers in the country have seen the need daily, the Milwaukee Journal, others have not. These battles are to be won by a fight for the people.

I especially urge you to do this in order that they may be made with the people. The people, in the future, will be found in the cities, in the suburbs, and in the cities, in the suburbs, and in the cities. The people will be found in the cities, in the suburbs, and in the cities. They will be found in the cities, in the suburbs, and in the cities.
