CONSTRUCTIVE SOCIALISM -- PLATFORM OF THE WISCONSIN SOCIAL-DEMOCRACY FOR 1912

The Socialist Democratic party of the American labor-state, an expression of the same class interests, makes the following platform for the coming campaign:

1. Nationalization of the means of production. All land, water, air, minerals, harbors, public utilities and other means of production shall be owned by the people. All public utilities shall be under the control of local or state ownership, as the case may be.

2. Socialism as a program. Socialism is the only solution of the social, political, and economic problems of society. It is not a mere political program, but a comprehensive plan for the welfare of the entire community.

3. Direct Legislation. All laws shall be framed by the people themselves, through delegates elected by the people. All legislative bodies shall be directly responsible to the people.

4. Right to Free Speech. All forms of free expression shall be guaranteed, including the right to publish and to free speech.

5. Education for All. Education shall be free and compulsory for all children, from the age of five to fifteen years.

6. Taxation. All taxes shall be levied for the public welfare, and shall be used for the benefit of the people. No person shall be taxed without his consent.

7. Peace. Peace shall be maintained by all means fair, equitable, and just. No person or nation shall be allowed to threaten the peace of the world.

8. International Association. The people of the world shall be united in an international association, with a world government, for the promotion of peace, social progress, and the welfare of mankind.

Hottest Socialist Campaign Ever Waged Now Opens!

The Socialists are now launching their biggest campaign in the history of the Socialist movement. The campaign will be marked by a massive organizing drive, with a special emphasis on youth and women's issues.

The Socialist party will continue to fight for the ideals of social democracy, including nationalization of the means of production, direct legislation, education for all, taxation for the public welfare, peace, and an international association.

Socialism is the only solution to the social, political, and economic problems of society. It is not a mere political program, but a comprehensive plan for the welfare of the entire community.

The Socialist Democratic party is the only party that can truly represent the interests of the working class. It is the party of the people, by the people, and for the people.

Order is in His Footsteps

The Socialist Democratic party is the party of the people, by the people, and for the people. It is the party of order and progress, and it is the party of peace and unity.

Baseless Criticisms of Social-Democracy

Many men believe that the present is a bad time to talk about Social Democracy. A general feeling prevails that it is better to let the world pass without trying to explain anything. However, the truth is that the world is passing, and the explanation of the present is needed if we are to face the future.

A Surprise in November

By REV. GEORGE D. COLEMAN.

When Father was the first candidate of the Republican party in 1896, and when he was elected with a majority of 10,000 votes, the world was astonished and the political world was not. The same thing is true of the present election. The world is shocked by the results of the recent elections, and the political world is not.

The issues of the day

The issues of the day are the issues of the century. They are not the issues of the month, nor the issues of the week. They are the issues of the entire future of mankind. They are the issues of the entire future of the human race.

Socialism is Coming Over

By WINFIELD W. GAYLORD.

The time is coming when the working man will be in control of the world. The time is coming when the working man will be the master of his own destiny. The time is coming when the working man will be the ruler of the world.

Sacrifice of the Masses for the Few

Sacrifice of the masses for the few is the keynote of modern society. It is the keynote of the modern world. It is the keynote of the modern civilization.

Well, cheer up South side citizens, if we don't hear from our alderman just now when we need his services most, we shall hear from him again. He has been in the hole for a week, and we are not as yet sure that he is alive. When we get that information, we will publish it.

The Failure of Syndicalism as a Labor Weapon

The failure of syndicalism as a labor weapon is clear from the history of the Anarchist movement. The Anarchists have been unable to organize a single successful strike, and their efforts have been repeatedly crushed by the police and the courts.

Our Stand on Sabotage Displeasing to Anarchists

The other day, in an editorial concerning some changes in our editorial page, the editor mentioned that the hours of work at low wages and under unprofitable conditions for the worker are the main cause of labor unrest. The sweaters are taken by the management as a threat to the stability of the labor movement. The Christian-syndicalists, as a result, have been forced to compromise with the sweaters, accepting the status quo as the best that can be obtained.

Western Federation of Miners Expudiates Haywoodism

Direct action was turned down in the national convention of the Western Federation of Miners last week when referring to sabotage throughout the country. The convention passed a resolution that direct action is a form of terrorism and should not be used.

Our Young Folks

For your benefit, there was a fine line all of us the nation's women, men and boys of the young people, and for the old folks, especially those who need it, and for the education and training of the boys and girls of the future. The Wisconsin State Journal is the ideal place for this kind of advertising.

Intelligence of Spiders

Many people say that a spider is a very clever animal, and that it can spin silk in order to catch its prey. But in reality, a spider's web is not made for capturing prey. It is used for catching other spiders, and for catching insects. The spider's web is a very complex structure, and it is used to catch its prey.

Puzzles

The furt of the iron, as a labor weapon, is clear from the history of the Anarchist movement. The Anarchists have been unable to organize a single successful strike, and their efforts have been repeatedly crushed by the police and the courts.
