WILSON, TAFT AND TEDDY, THERE'S NO HOPE IN THEM!

WRITTEN FOR THE HERALD BY ALLAN L. BENSON

What does Woodrow Wilson promise? The platform which he is now drafting that a parliamentary tariff will be reduced to a revenue tariff. The only purpose of the tariff will be to add to the revenue of the United States. It will be reduced to make us pay for the working classes.

What does Theodore Roosevelt promise? He promises to put the tariff into effect. He promises to make us pay for the working classes.

We have always heard a few tariff would help. But that is one of the woes we are so often poor. We have permitted the gentleman who are nothing to do our lives. They have made you believe the tariff question is important to you. As a matter of fact, the tariff means only a little more than the weapon of the strong classes. It is in their interest to wreck the middle class, the working classes.

The situation is exactly this. The rich men are after your money. In the business of getting it, none of them can be helped by the tariff. Some of them can. It is an outrage upon the government. We are all for the working classes in which they are.

The men who object to the tariff are not the men who are rich, but who are not. We are all for the working classes. We are all for the working classes. We are all for the working classes. We are all for the working classes.

In short, it is not the tariff, but the trust that is hurting you. And when does Mr. Wilson say that is hurting you? He promises to put the tariff into effect. He promises to make us pay for the working classes.

The Economic Development Amply Proves the Socialist Philosophy

BY MORRIS HEIGHTON.

The economic development of the present day has become a matter of fact with all intelligent men. The great wealth of the nation is now concentrated in the hands of a few, and this concentration of wealth is the cause of all the social and economic evils that beset our country. The socialist philosophy is the only solution of these evils, and it is the only way to save our country from the ruin that is before us.

A Story of Official Rascality

BY ROBERT W. BURD.

This is a story of the corruption that is rampant in our government. The officials of the government are corrupt, and the public is the sufferer. The socialist philosophy is the only way to save our country from the ruin that is before us.

Wilson, Taft and Teddy, There’s No Hope in Them!

(Continued from page 1)

Your happiness lies in the fact that you are not among the rest of the people in jail. Why? Why, if they were all in jail, would you not think of them? You like them. They are your friends. They are your neighbors. They are your countrymen. They are your fellow sufferers. They are your fellow workers. They are your fellow citizens. They are your fellow men. They are your fellow men. They are your fellow men.

The plain truth is that those gentlemen can beat laws, but they cannot beat the law of nature. They cannot beat the law of justice. They cannot beat the law of God. They cannot beat the law of the people. They cannot beat the law of the universe. They cannot beat the law of the world. They cannot beat the law of the ages. They cannot beat the law of the centuries. They cannot beat the law of the millennium. They cannot beat the law of the ages. They cannot beat the law of the centuries. They cannot beat the law of the millennium.
The Lying About New Zealand by a Lawyer for Capitalism Challenged

BY JAMES A. HIBBIE.

Strengthening his attack on the dishonesty of the New Zealand capitalists and statesmen, a lawyer, Mr. Charles H. Corcoran, recently delivered a speech in Milwaukee, before a large audience. Mr. Corcoran accused the New Zealand government of using the press, as a weapon against the laboring classes, and of making false statements to the United States, in an endeavor to forestall the proposed United States investment in New Zealand. He stated that the New Zealand capitalists and statesmen had been using the press as a weapon against the laboring classes, and that they had been making false statements to the United States, in an endeavor to forestall the proposed United States investment in New Zealand.

Pennsylvania

Shall the People Own Trusts?

BY MAT WOODRUFF.

 rejoiced that a valuable platform of the United States has been recently published in France. This is a good sign, for the laboring industrial classes of the United States.

Socialism and Crime

It is a well-known fact that in European countries the laboring classes are constantly impoverished by the capitalist class. The capitalist class, in order to maintain their power, is constantly striving to keep the laboring classes in a state of poverty. This is done by controlling the means of production, and by controlling the laboring classes. The laboring classes are therefore forced to work for lower wages than they are worth, and are therefore constantly impoverished.

Our Young Folks

The Red Flag and Anarchy

Our reader suggests that the red flag has been used in various parts of the world, and that it should be permitted to fly in the United States. We do not think that the red flag should be permitted to fly in the United States, as it is a symbol of anarchy and revolution. The red flag is a symbol of rebellion, and it is therefore not proper to permit it to be flown in the United States.

Up Goes the Cost of Living

The increase in the cost of living has been one of the most serious problems of the United States. The cost of living has been rising in recent years, and it is expected to continue to rise in the future. This is due to the fact that the cost of producing goods is rising, and that the cost of living is therefore following the cost of producing goods.

Justice

Mr. and Mrs. Corcoran both went to the United States on the same boat, and they had their close connection.

Puzzles

A part of the puzzle is to be found among the most popular puzzles of the word. In some cases, the answers are not known, but it is generally possible to find the answer to the puzzle.
