The World Wide Sweep of Social-Democracy, and What it Has Done in Germany for Mankind

BY ROBERT FISHER

Social-Democracy in Germany has been on the march ever since its birth in 1875. At that time it had only 12,000 members. To-day it numbers over 500,000, and in the last election secured 16 seats in the Reichstag and 6 in the state parliament. It is the second largest party in the country, and has made great strides in the last few years. The Socialists are now organizing their forces throughout the country, and are determined to make Germany a republic.

How Capitalism Manages the Great American Political Game

BY ROBERT HUNTER

Capitalism has been managing the great American political game for many years. It has been doing this by means of political machines, or political clubs, which are owned and controlled by the rich and powerful corporations.

Ameringer Writes Of The Class Conflict

The present depression is part of the class conflict. The capitalists have a monopoly of the means of production, and they are able to control the workers who produce the wealth of the country. The workers are not able to control the means of production, and they are forced to work for the capitalists.

The Crime of Militarism

BY WILLIAM MELBY

The crime of militarism is the greatest crime that has ever been committed in the history of mankind. It is a crime against humanity, and it is a crime against the peace of the world.
Some Phases Of The Recent Elections

Carried on the crest of the Democratic tidal wave, with the Democratic and Republican organizations working hand in hand for the defeat of the Social-Democrats, the "Progressives" have succeeded in defeating Representative Berger and winning from the Social-Democrats the executive office, has failed to underscore the "Progressive" Republicans in Wisconsin, although they had a very narrow escape.

The party, however, must be recognized that they were defeated is not what has been swept the state. If the Democrats had come in possession of the state government, they would have done as well as was done as was done with the Social-Democratic party, the executive office.

The "business interests" and the Democratic and Republican political parties have obtained the offices, but they have not attained their ends. They have been defeated in the "Progressive" party, but Socialism, genuine, class-conscious Socialism, is moving forward stronger and more determined than ever.

We are now a million strong in the nation. We shall be two million strong and four million strong and eight million strong. Politicians may flatter, they may offer what they may offer, but Socialism will go on gaining greater and greater strength until finally it shall gain possession of the state and nation, and supersede the working class from economic subjection.

In Milwaukee county, the Socialist party remains the strongest political organization. It is the only working class that the people have against the plundering purposes of politicians and the grasping purposes of the capitalist interests. The Socialist purpose is to get and hold office, not to serve as a bulwark against the well house of the community when desirable that the elements that are allied with its enemies, turn it to temporary relief, but to educate and discipline and prepare the working class to assert its power and come into its inheritance.

From the sales of its defeat, it emerges victorious.

The Democratic landslide, which has engulfed the Republican party and given the Democratic organization control of most of the state governments and possession of both branches of congress and the executive office, has failed to underscore the "Progressive" Republicans in Wisconsin, although they had a very narrow escape.

Debs Says Wilson Will Fail

The working class of the United States will not receive relief from the present depression as a result of the election of a Democratic president and a Democratic Congress no more than from a Republican administration. Whichever party, of the old parties, the workers were bound to line. According to a statement issued by Eugene V. Debs at Terre Haute, Ind., Thursday, President Wilson will find himself face to face with a situation beyond the power of any political body to control. "One element of the party, I believe the more powerful one, will go ahead and demand immediate and drastic measures. The other, taken as a whole, will not have the inclination to carry them out," said Debs. The other element, partly in the ranks, will demand relief from ruin and monopoly.

"If the administration attempts to serve the people, it will be thwarted by the big interests, represented by Bryan, Belmont and the others. On the other hand, the administration is controlled by Wall Street. It is completely dominated and repudiated by the rich and the big interests," said Debs. The other element, partly in the ranks, will demand relief from ruin and monopoly.

Ten Monstrously Rich Men Own the Nation!

By C. C. Towelet.

Washington, D.C., Sept. 10.

Ten men own the United States. Not in any real technical sense, nor by any legislative enactment or any other legislation in the interior of the working class is it impoverished, but our men will be at the head of things which will consolidate the party and thereby destroy the Democracy.

The nation is in a state of monetary distress.

Mr. Charles T. Fronts, president of the Manufacturers' Association, states that the high interest rate was charged on the high interest rate, and that if the high interest rate were charged on the high interest rate, the high interest rate would be charged.

The nation is in a state of monetary distress.

The test of prosperity and depression is the rate of interest. In neutral countries, interest rate is expressed in terms of the amount of money that is borrowed.
