SPECIAL MAY DAY NUMBER

May Day is a day of toil. Our workers, who have been the hewers of wood and drawers of water, are going to celebrate May Day in those countries which have had the enlightenment to recognize the rights of labor. The workers of this country will be among those who celebrate May Day.

MAY DAY GREETINGS

To the toilers of the world, a happy May Day! May your labor bring you joy and satisfaction. May your struggles for a better life be rewarded with success. May your unity and solidarity strengthen the foundation for a brighter future.

TWENTY-FOUR HOURS IN PATERSON—BY EMIL SEIDEL

In our twenty-four-hour strike in Paterson, we witnessed the power of organized labor. Our workers stood firm against the greed of the capitalist class. Our solidarity was unbreakable, and our determination unyielding. We proved that we are a force to be reckoned with.

INTERNATIONAL SOLIDARITY

In the struggle for workers' rights, we are all in it together. Our solidarity transcends borders and divides. We must support each other in the fight for a just society. Let us stand together and fight for a world where the rights of labor are respected and valued.
PRESIDENT WILSON'S SOCIAL PHILOSOPHY KNOWS NOTHING OF WAGEWORKER

President Wilson has contributed an article to the Truths Work, which is one of the many that have been written in support of the principles of the organization, in which he states that he has lost his ideal of "industrial harmony." His philosophy of "freedom" is not yet sufficiently developed, he says, to be of much practical value. The new world of "freedom" and "order," he says, is not yet sufficiently developed to be of much practical value to the wage-workers.

There is no other way to compete with the men who own the machinery, than to unite the associations into a single organization. The only way to make the machinery work is to be able to cooperate and work in concert.

THE STORY COLUMN.

The Dog Language.

I have often heard people say that the dog language is a queer thing, and that the dog knows nothing about it. The reason is that the dog does not understand the language of man.

As to General Strikes

As to General Strikes, the statement is true, but it may not be so true as it sounds. The dog language is a language that is not understood by the dog. It is a language that is understood by the dog. The language of the dog is a language that is understood by the dog. The language of the dog is a language that is understood by the dog.

Halt Truths Are Lies.

Halt truths are lies when the facts are not known. The facts are not known because the dog does not understand the language of man. The dog does not understand the language of man because the dog does not understand the language of man.

The Words of Jesus and Their Modern Application

The words of Jesus are words that are applicable to our time and place. They are words that are applicable to our time and place. They are words that are applicable to our time and place.

The Story of the Cross.

The story of the cross is a story that is applicable to our time and place. It is a story that is applicable to our time and place. It is a story that is applicable to our time and place.

FIGHTING THE TRUST

The fight is on. We are determining to win the anti-trust fight even against the most overpowering odds. We will not be ruled by any system. We will act on the principle that we have put into practice a system of contracts and alliances with dealers everywhere, which enable us to control large sections of the market and to control prices. We do not believe that the anti-trust is illegal. But we do insist that it is necessary for the maintenance and growth of our industry.
