beckon to visit various large cities in the country, as I had heard that the German immigrants were being neglected by the St. Louis chautauqua. It was a great relief to me to find that they were not and that I was able to go to Chicago, New York, and other cities.

BEFORE going to St. Louis, I had a conversation with several of the businessmen of the city and was told that the German immigrants were most anxious to see the sights of St. Louis. I had been told that the German immigrants were being neglected by the St. Louis chautauqua. It was a great relief to me to find that they were not and that I was able to go to Chicago, New York, and other cities.

I have been in St. Louis for the past six weeks and have had the opportunity to see the sights of the city. I have been impressed with the great number of German immigrants who have been here and have been able to see the sights of the city. THE COMICAL HUMILIATION OF THE MILWAUKEE ANTSOCIALISTS

The "Antipartisan" administration of Milwaukee has offered to sell $475,000 of municipal bonds bearing a 6½ per cent rate of interest. It is reported in The Free Press that there have been no bids.

We, the Milwaukeeans, through the public debt commission, offered the bonds to the world. There were no takers. It is not due to the weakness of the municipal credit.

This is quite different from the experience of the Social-Democratic administration. When Mr. Solms was mayor bonds were sold at 66½ or 70 per cent. In every instance, the bonds were sold and sold at a substantial premium.

The "Antipartisan" through the Socialists ought to have done better and were quite sure that the credit of the city had been injured by the fact of a Social-Democratic administration. But we've found that with "Antipartisan" in office, the city's credit has never been injured.

The explanation is that the "money market is tight." But our "Antipartisan" officials imply no confidence in the fact that we were sold and with selling the office of mayor. Korchinski and Connors would have the credit of Milwaukee and the Milwaukee credit would be "restored."

A WORD TO YOUNG MEN

BY JACK LONDON

Young men! The hours are short, and your work is heavy. The good roads of life have been plowed by the toil of thousands who went before you. But you, the men of the new day, must take their place in the great work of building the future. The roads you travel may be rough and rocky, but they are the roads of progress and prosperity. The future belongs to those who are willing to work for it.
