SHAMEFUL CASE OF BANKER MORSE, SHARPER

In the editorial that follows, the Columbia (S.C.) State proposes what it undoubtedly considers as an argument against Socialism.

Cleveland Citizen—By a vote of more than twice to one, A. F. of L. officers, of Columbus, have deplanted the department for over a year, which means that the local officers for the last three years will be present in the city. The local officers will be present in the city.

In a recent interview with the party members, the officers of the party acknowledged that the party members did not have any special training for the duties of the office, but they assured the Department of the correctness of their policy in the past.

The Department has no connection with industrial organization, and its officers have been interested in the work of the party.

It is to be hoped that the Department will continue its work and stand forward more firmly.

THE COMING NATION FIGURES

The coming nation figures for 1928 of

the Social Democratic Party are

predicted to be far greater than any

year in the past. The party is

expected to make significant

progress in the upcoming election

year. The party's strategy is to

focus on the issues that
care the most to the

working class and to

continue to build

organizing in the

industrial areas.
