SPECIAL LABOR DAY NUMBER

THE MOTHER of all social wealth, of all culture, is labor. Whatever we are and have, we are and have it because of our labor. All the wealth of society is the result of the labor of others. The wealth of the wage-earner, the labor of the capitalist, the wealth of the employer, the labor of the worker, the wealth of the farmer, the labor of the farmer, the wealth of the laborer, is all the result of the labor of those who produce it.

The modern slave works for the capitalist. He is the one who owns the means of production, who rules over the worker, who feeds him, who clothes him, who wages him, who pays him, who sons him, who provides him with food and clothing.

We will bring victory to the laboring class, to the working class. We willliberate the working class. We willliberate the laborer. We willliberate the worker. We willliberate the farmer. We willliberate the employer. We willliberate the capitalist. We willliberate the wage-earner. We willliberate all who have been oppressed, all who have been exploited, all who have been robbed.

He who works the hardest generally has the least. Poverty is the slave of labor, the slave of wages. The worker who has created the social wealth of all society, is the slave of labor, the slave of wages. He who works the hardest is the slave of labor, the slave of wages.

The social democratic movement is the movement of the working class. We will fight for the rights of the worker. We will fight for the rights of the wage-earner. We will fight for the rights of the employer. We will fight for the rights of the capitalist. We will fight for the rights of all who have been oppressed, all who have been exploited, all who have been robbed.

We understand that all this has been accomplished by the working class. We understand that the working class has accomplished this by its own efforts. We understand that the working class has accomplished this by its own work. We understand that the working class has accomplished this by its own strength. We understand that the working class has accomplished this by its own wisdom. We understand that the working class has accomplished this by its own courage. We understand that the working class has accomplished this by its own determination.

THE WORKING CLASS ON GUARD

There is one fact that lies at the root of all the legislation and political activity of the Socialist parties in New Zealand. It is the fact that the working class is the backbone of the Socialist movement. The working class is the only class that has any genuine interest in the welfare of the country. It is the working class that has to bear the brunt of the economic and social problems that confront the country. It is the working class that is most affected by the policies of the government. It is the working class that has the most to gain by a change in the system of government.

The Socialist parties have always been the leading force in the fight for the betterment of the working class. They have been the voices of the working class, and have been the spokesmen for the working class. They have always been the champions of the working class, and have always been the defenders of the working class.

The Socialist parties have always been the most democratic of the parties. They have always been the parties that have been the most concerned with the welfare of the people. They have always been the parties that have been the most interested in the welfare of the working class. They have always been the parties that have been the most concerned with the welfare of the poor.

The Socialist parties have always been the parties that have been the most radical. They have always been the parties that have been the most concerned with the welfare of the working class. They have always been the parties that have been the most interested in the welfare of the poor. They have always been the parties that have been the most concerned with the welfare of the people.

The Socialist parties have always been the parties that have been the most progressive. They have always been the parties that have been the most concerned with the welfare of the people. IT'S THE PRIVATELY OWNED MACHINERY OF PRODUCTION THAT BRINGS WORLD MISERY

Washington, D.C. — In the wake of the recent German revolution, the Social Democratic Party of America is calling for a radical change in the way the world's wealth is produced and distributed. The Party believes that the current system of private ownership and capitalist exploitation is the root cause of the world's misery and must be replaced with a socialist system of production.

FALSE RADICALISM AND GENUINE REVOLT

There is a division among the socialist movement today. Some are calling for a quiet, peaceful revolution, while others advocate for more radical means. I believe that the true socialist revolution must be a genuine revolt against the capitalist system, without which true social progress is impossible.

CLASS STRUGGLE IN AMERICA

The struggle between the working class and the capitalist class is the driving force of history. The working class must organize and unite to overthrow the capitalist system and establish a socialist society.

STRIKERS GET RAISE

The workers at the United Steelworkers of America have been granted a raise by their employers. This is a positive step towards improving the living conditions of the working class.

BILLY JONES' ADVENTURES IN WASHINGTON

By B. A. Davis.

Billy Jones, the famous labor organizer, arrived in Washington today to discuss labor issues with government officials. He hopes to bring about changes in labor laws to protect the rights of workers.
