The True Inwardness.

The Scheme of the Colonizers Was to Divide and Conquer - It Was Planned in Advance.

Justice, Not Revenge.

Rewritten in Condensed Form from a Recent Article by William Norris, by Frederic Heade.

The word revolution, which we usually connect with the idea of a violent change, involves a terrific sound in most people's ears, even when we have explained to them that it does not necessarily mean a change accompanied by riot and all kinds of Violence, and cannot be made change mechanically, and that the work of it, by a group of men who have somehow managed to seize on the executive power for the time being, is accomplished.

Even when we explain that we use the word revolution in the political sense, as meaning a change in government, not only by force, but by the act of a majority of the people, and when we tell our hearers that now they are aware of the fact that the other men in society, people are scared at the word, and ask us what we will do to change the system.

We will do so, we work towards a great revolution, and we ask the people to join us in that work. It is not difficult to understand the revolutionary, but it is difficult to understand the conservative. I am not a conservative, but I am a revolutionary, and I will work as hard as I can to bring about the revolution.

And so, my friends, when you hear the word revolution, think of us as the revolutionaries, and not as the conservatives, and you will understand the difference between us.

The Trade Union Movement.

It is a mistake to suppose that the trade union movement is only a means of securing higher wages and better working conditions. It is far more than that. It is a means of securing a better social order, and of making the world a better place to live in.

The trade union movement is a movement for the emancipation of labor, and for the establishment of a society in which all men shall be free and equal, and in which the rights of labor shall be protected.

The trade union movement is a movement for the abolition of the class system, and for the establishment of a society in which all men shall be free and equal, and in which the rights of labor shall be protected.

Social Democrat will enunciate land and labor policies in detail at its next convention.

What is it? It is some part of the sum total of these countless small facts and skills of a human being.

As economically free people, making these facts and skills accessible to all is the basic vocation of government and should be at the center of all our economic policy.

Comrade Wm. Millett, who appointed him on the editorial board of the Social Democrat, paid a most cordial tribute to the convention, held in Chicago, May 10th, 1899, a goodly number of brothers and sisters, members of the Social Democratic Party of America. The convention appointed the following to serve as members of the executive board of the Social Democratic Party of America:

E. A. EDWARDS

Editor: A. Edwards.

Social Democrat is in the business of the working class control over the means of production, and through such a proposition there can be no capitalist without a capitalist.
