WHY THE PARTY MUST HAVE A SOCIALIST PLATFORM FOR FARMERS.

BY VICTOR L. BERGER.

It is a mistake to believe that the party can stand on anything until it has established a socialist program for the farmers. The party must have a socialist program for the farmers, and it must be a socialist program for the farmers, and it must be a socialist program for the farmers, and it must be a socialist program for TRADES UNIONISM AND THE S. D. P.

[From the Seattle Journal-Star]

The trade union is the oldest form of labor organization. The trade unions of England had their origin in the 18th century. They were organized to protect the workers from unfair competition and to improve their working conditions.

The trade union movement in the United States began in the 19th century. It was primarily a response to the rapid industrialization of the country and the exploitation of workers in the factories. The trade unions in the U.S. have been instrumental in improving working conditions, wages, and benefits for workers.

The trade union movement in the U.S. has faced many challenges over the years, including government suppression, economic downturns, and changes in the workforce. However, the movement has continued to evolve and adapt to the changing conditions of the labor market.

The trade union in the U.S. is an important component of the labor movement. It provides a voice for workers and represents their interests in negotiations with employers. The trade union movement has played a crucial role in the history of labor in the U.S. and continues to be an important force in today's economy.
