**WAGES OF LABOR AND PRODUCTION IN PENNSYLVANIA.**

Advance sheets of the forthcoming report of the Pennsylvania Bureau of Labor Statistics showed that the wage-earners of the state received in January an average weekly earnings of $23.30 per week, or $131.80 for four weeks. This is an increase of $2.90 a day of 22 hours. Eighty-six and one-tenth per cent of the gain in the manufacturing industries of the state is due to the combined cause of 20 per cent of the manufacturing industries, 15 per cent of the coal industries, and 12 per cent of the steel industries. The combined effect of these factors, along with the rise in the cost of living, is significant in the determination of the real wage-earner's income.

**BERMUDA BILL.**

The Bermudas have a surplus for the fiscal year ending March 31, 1899. The surplus is estimated at $250,000, and the income tax for the current year is $250,000. The expenditure for the current year is $250,000, and the balance for the next year is $250,000. The revenue for the current year is $250,000, and the deficit for the next year is $250,000. The expenditure for the current year is $250,000, and the balance for the next year is $250,000. The revenue for the current year is $250,000, and the deficit for the next year is $250,000.

**A PERSONAL METEOR.**

By Prof. Frank Parsons.

It is marvelous how much a personal meteor is regarded. In old times it was common to believe that a person who saw a meteor would die within six months. This belief was so firmly established that it was only by personal experience that one could be convinced of its falsity. Now, however, the belief is rapidly disappearing, and it is now generally recognized that a meteor is not a sign of impending death.

**POINTED PARAGRAPHS.**

Whoever expends energy of mind or body on any one is entitled to his result. But the writer who taxes his patience is entitled to his result. He who doubts his ability is entitled to his result. He who is doubtful of his result is entitled to his result. He who doubts his result is entitled to his result. He who doubts his success is entitled to his result.

**A JOURNALIST'S INSTRUCTIONS.**

An American journalist recently wrote a letter to the editor of the American Citizen, asking for instructions on how to become a successful journalist. The editor replied as follows:

"The first step in becoming a successful journalist is to acquire a thorough knowledge of the trade. This can be done by studying the work of established journalists, by reading their books and articles, and by observing their methods."

THE HERALD LEAFLETS.

To supply the need which has long been felt for a series of brief and popular summaries of Socialism and the aims of the Socialist Democratic Party, which can be distributed gratis, we have undertaken the publication of what will be known as "THE HERALD LEAFLETS," to be issued at 2 cents each. The first number has been fixed at 500 per thousand, postpaid. Great care will be used in the distribution of these leaflets, and those who desire them will be able to receive them in any number. Each number will be given to all who apply for it, and no one will be expected to exert himself to put 100,000 copies of every issue into the hands of the people.

NUMBERS 1 AND 2 ARE NOW READY FOR DELIVERY.

No. 1 contains "A WORD WITH YOU, JOHN!" being an admirably prepared paper on "Socialism and the Church." It is printed on 16-page paper and bore the title at "THE REAL MASTERS"-pertinent question addressed to workers.

The "DECLARATION AND POLITICAL DEMANDS" of the Social Democratic party, which is a statement of the social and political aims and demands of the Socialist Democratic Party.

No. 2 contains "ARMS, YE BLAVERS!" a ringing address by Eugene V. Debs of the Social Democratic party. The text contains a simple reply of the people of the world to the armament movement. It is printed on 16-page paper, and bore the title at "THE EMPLOYEES." A bunch of pithy, pointed, "no-data/alarum" narratives, calculated to make people think for themselves.

THE PUBLICATION OF SOCIALISM.

To the editor of the Chicago Herald, Chicago, Ill., November 27, 1884.

I am a worker in the United States, and have been a reader of your paper for several years. I have noticed with great pleasure the growth of the Socialist Democratic party in the United States, and feel that it is time to express my sentiments on the subject.

I have always been of the opinion that the Socialist Democratic party is the most logical and practical movement for the working class in the United States. It is based on the principle of the unity of the working class, and the necessity for the working class to unite in order to achieve its goals.

I have been a member of the Socialist Democratic party for several years, and have been actively involved in its activities. I believe that the Socialist Democratic party is the most effective way to achieve the goals of the working class.

I would like to ask you to consider the possibility of opening a Socialist Democratic office in your city. I believe that such an office would be a great asset to the working class in the United States.

Sincerely,
