CONSTITUTION AND REFERENCE

Comrade Gordon speaks with his usual good sense when he says we ought to "stop the military" and get back to the real business of the day. I do not agree with him, however, nor do I agree with the matter of adopting the constitution should be left to the members of the party. I am not a referendum enthusiast and do not say that the constitution should not be revised and improved, but within our own ranks. I believe that the constitution should be revised by a committee of the members rather than by a so-called referendum representative. For a conviction, after all, would give the member into the hands of the executive.

Though I do say it, as such, the executive board is certainly capable for such an work as an impartial guide.

While the executive board has not the power of sending a recent referendum vote off, it has been carried out according to the letter, the vote was so small that no legal action could be taken. The board now has the suggested amendment on their agenda, in the hopes of revising the constitution to make it more acceptable to the membership at large.

I am sure, a substantial referendum could not have been done at the next meeting of the board. I believe this is a good idea of the action of this constitution tinkering with the deliberative convention, preparatory to a political platform and to choose our standard. Our political platform gives it the whole impetus to the impending campaign. It will have enough support among the members that a referendum, all, to acquire a political wisdom on that occasion. Moreover, let it be noted that the amendment is a point and a point in the strength of the organization, so that it will be true to feel.

The general admission of the book "The War between the Classes" will be $10,000,000.

THE ROSTRUM

Extracts from an Interesting Address by F. B. Gordon, at Brockton, Massachusetts, "On the Relation of Social Democracy to Social Democracy."

TAKING his hearers back to the middle ages, when, under the feudal lords, the serfs were the working men of the world, he said that both this and all other industries were carried on for the good of society; but he also said that the people had been under better organization than had the people of the United States. All were plentifully supplied. Today we-day we say, "We are all working, so our people are starving," and we say, "It is good with good people." Therefore, he said that the constitution should be revised by a so-called representative rather than by a referendum representative. For a conviction, after all, would give the member into the hands of the executive.

Social Democratic Party Platform

The Social Democratic Party of America declares that life, liberty, and the pursuit of happiness are unalienable rights, and that governments are instituted to ensure these rights.

That private ownership of the means of production, the accumulation of wealth has caused society to be divided into two hostile classes, the idle rich and the toiling poor, and that to injury one of these classes is injury to all.

That the capitalist, the benefactor of the whole, the creator of the means of production, the producer of all the wealth of the country, is no longer safe, but must be protected by the law, and the country has a right to use the power of the government for the protection of the capitalist.

A special meeting of Branch 10, Assembly District of New York, was held March 1. The secretary, Comrade Nicholas Rosenzweig, reported that the monthly meeting was well attended and that the March 14 meeting will be held in the same place.

News from Nashua
Comrade G. H. Webster writes that the Nashua branch of the Democratic party is growing in strength. The work of organizing is progressing very satisfactorily. In another month, that the efforts being made to organize the winter will tell in the new branch that has been organized.

A new branch has been organized in Pennsylvania by Comrade Rosenzweig. This branch is not large in numbers, but it is growing fast.

Send and Get It
Take a postal card and address it to Comrade J. M. Halsey, 409 South 3rd Street, Philadelphia. If you have any questions, write and ask for a copy of the "Square." This is a monthly publication for workers, which is very useful.

COMRADE ROSS—We are still on the move in Brooklyn, and the work of organizing is progressing. Everybody seems to be talking Socialism, and it has a good effect on the people.
