MEXICANS FIGHT FOR FREEDOM OF ORGANIZATION CAPITULATED PRESS HAS NAILED Story That I. W. W. Struck Against Catholics As Such Shown To Be False As Strikers Happened To Be Catholics

To Electrical Workers, and Incidentally to the Rest of the Working Class

Los Angeles, Cal., Aug. 20. The "FRID & MURPHY" electrical workers, are without doubt the most progressive in the old-time CRAFT UNIONS and lately, as a result of the progressive spirit...

The ideas contained in the above mentioned circular letter is that the electrical workers change their constitution and form of organization to one that would permit them to organize into a union under the name of INDUSTRIAL UNIONISM AT THIS

GAS, LIGHT and POWER for the electrical worker. How much power could the electrical worker produce without water? Water operates the largest of our plants to day, the hydro-electric plants, and steam is only water gone away with the heat.

In the mine of today electricity is largely used, but that is not indispensable because of the fact that the most efficient agent for purposes to which it has been put is the world could GET ALONG

In the textile industry, which would be the most efficient agent for producing and General Production, motors and electric equipment play a prominent part.

The electrical worker has to eat the food raised on the land, he must have a house to protect him from the weather, and the material for that house will come from the quarries of cement, brick, clay or LUMBER.

Modern civilization and industrial development, has made mankind absolutely dependent upon another man's order that must live in the most efficient, same and mechanical manner.

(From "Public Ownership," Baltimore, Md.) The High street factory of Schloss Brothers, clothing manufacturers, last Friday was the scene of what was perhaps, the most striking illustration of the truth or falsity of the statements, has established an entirely new record for lying about the present controversy that has arisen between the firm of Schloss Brothers and the Industrial Workers of the World.

The readiness with which all the striking statements followed the lying lead of the "Baltimore Sun" goes far to prove that the I. W. W. is a real organization, the members of the entire class that they, the capitalist oppressor exist to defend—the Robber Class.

It was reported in "The Sun" that the position of the I. W. W. demanded the discharge of four employees of the firm of Schloss Brothers, who were Roman Catholics.

A matter of fact, 15 of the 17 members of the committee who called upon the firm are of the Roman Catholic faith, and the 150 local members of the I. W. W. employed in the clothing industry, fully 3,000 of them, are of the same faith.

Alleged interviews with anonymous officers were published in which these churchmen were quoted as saying that they had no objection to their repudiation of members of the I. W. W.

In reply to an inquiry on this point, the organizers of the I. W. W. now in this city, handed the reporter of Public Ownership an application card.

A red-hot, fearless exponent of revolutionary unionism dealing particularly with the lumber industry. Published by National Industrial Union of Forestry and Lumber Workers, Southern District.

While it may seem almost like a crime to spoil the poetic fervor of our correspondent's copy to the "Free-Footed Rebel," we are, nevertheless, tempted to draw our readers out of the clouds onto the ground of reality.

Rebel" must needs be the harbinger of a revolutionary idea and the forerunner of a revolutionary organization. But what is a "revolutionary idea" without hope of materialization?

According to our correspondent's argument, the "Free-Footed Rebel" is the forerunner of organization, but is not himself an organizer. That is to his credit, according to Bourne, since organization is really a nuisance...

A "spirit of revolt" will not free the working class, however necessary and inspiring it may be in the procedure of a new society. Hence, either or, not it spoils the poetry of the labor movement, we must insist upon a proportion of "organizing ability" to the "spirit of revolt."

DOLLAR FOOD 25 CENT WAGES

The Orange Judd Farmer, an agricultural journal of considerable authority, states that among the fore-catchers in the staple products will be dollar corn and dollar potatoes, with other food product prices in proportion; thanks to crops that are below normal. Already have we been treated to a forecast of 45 and 50 cent potatoes, for the same reason; so these latest forecasts may be taken as well founded. We may safely conclude, therefore, that higher prices in the staple products will benefit the workman and his family very shortly. With 25 cent wages, comparatively speaking, the workman will have a problem to wrestle with when he tackles dollar wheat, dollar corn and dollar potatoes, not to mention 50 cent potatoes. How will he settle that problem?

To all members of I. W. W. Locals: Fellow Workers—On August 15 will appear the sample issue of the Polish I. W. W. paper, "Solidarnosc." This copy is free of charge. There are Polish allies in almost every town and every industry. We know that they are the most class-conscious and patriotic group of workers in this country. It is the duty of every revolutionary worker to approach those allies and enlighten them on the principles of economic slavery and the one big union. Of course the inability to speak their language was always given an excuse for loafing on the job. But now is your chance to show what you are willing to do. You don't need to do any talking—the paper will do that for you. Just order a bundle for distribution—the sample copy is free—send the paper the work of advertising and educating. Do not wait for someone else to roll up his sleeves. Bring this up before your local, act yourself, see that your locality is supplied with all the necessary copies of "Solidarnosc." If you do your share, we will do ours and make the press fun.

Money is needed to publish the paper, although the editing and other work connected with the administration of the paper is done by fellow workers on their spare time for no charge. The printer, however, the paper manufacturer and the postoffice insist on being paid for their respective parts to the appearance of our paper. So—don't forget to get subs and donations for the press fund. Send all funds of "Solidarnosc," 4010 Clarendon Avenue, Chicago, Ill. Your or organization. PRESS COMMITTEE.

INDUSTRIAL UNIONISM CLEARLY EXPLAINED

(Continued From Page One.)

toil. Under this present system we are slaves for we have an appetite that must be supplied, in order to supply that appetite we must work. So when a man or a set of men have the power to say whether we can work or we must remain idle that man or set of men have the power to say when we shall eat and when we shall not eat; in other words when we shall die or live, for we must eat to live.

All real labor under the capitalist system being slavery, why should we restrict ourselves to certain forms of slavery only? A craft union card compels a man to engage only in that particular craft slavery and while the holder of a craft decide to change his occupation he must also change his craft privilege to slave. Why not one card for all forms of slavery?

The thing for the REID & MURPHY electrical workers to do is to remain in their own organization as it now stands and as individuals take out I. W. W. cards, start I. W. W. electrical workers unions and thus be able to propagate the full philosophy of industrial unionism in the ranks of the slaves who are still worshipping at the shrines of Gompers, Mitchell, Morrison, Lewis, Garrison and the rest of the American Separation of Labor Pie Card Artists. The organized men in the electrical business represent less than one per cent of the workers in the electrical industry. The capitalist never hires a single worker more than is necessary to the industry, by they man, woman or child. This being true it is necessary for the workers to have every worker in the industry organized in the union. Today thousands of workers in the industry are not eligible to the Reid Brotherhood but the members of the I. B. E. W. are eligible to the one big union that means emancipation for the working class and they should join in order to form the nucleus of the ELECTRICAL WORKERS' INDUSTRIAL UNION.

The I. B. E. W. cannot offer anything to the telephone girls or the groundmen or the other so-called unskilled workers for the reason that as unskilled workers they are not apt to be forced to change their place and kind of occupations. If changes of this kind were made their membership in the Electrical Workers International Brotherhood would be useless and it would be necessary to pay an initiation into the union of some other industry.

It is like trying to get away from the inevitable, for the various bodies now organized, to try and get away from the full philosophy of industrial unionism as advanced by the I. W. W. You may change the name but you cannot change the method. Read the I. W. W. literature and learn; present opinion is largely as a result of that molder of thoughts, the SUBSIDIZED capitalist. Do your own thinking. Stop condemning a thing just because the press that reports your enemy says it is to be condemned. The sooner you investigate the I. W. W. the sooner you will get the full product of your social toil, be emancipated from slavery and the sooner the parasite will be made to produce for himself. Yours for Industrial Liberty and Life.

STRIKE METHODS COMPARED.
Members of the I. W. W. cite the reason the employers and all their lackeys are so bitterly hostile to their organization is because, when a grievance arises, no time is given the employer to prepare for the fight.

The crafts affiliated with the A. F. of L. they say considerably notify them in advance, giving them sometimes as much as six months' notice of their intention to strike if concessions are not granted.

This, it is claimed, gives the employers an opportunity to shift the increased cost of production upon the workers in other industries, who, when they go to buy clothing, must pay a higher price. This, it is argued, carried on in all branches of industry, results in keeping the purchasing power of wages at about the same level.

The delay in the calling of a strike which all crafts affiliate with the A. F. of L. is said to experience, is unavoidable on account of the provisions of their constitutions, which make the calling of a strike a slow and tedious process. This delay gives the employers time to work up a quantity of goods to tide them over

Centralization, Decentralization or Industrial Unionism?

For some time in the past we have been confronted with this question.

We have seen members on either side who are willing to adopt any tricks or method to put to the front their pet hobby. For my part I am not so much concerned in splitting hairs as I am to get at what is the best form of organization to present to the overwhelming majority of the wage workers who are at this time in an unorganized state.

It seems strange but true that we of the I. W. W. are not above putting our petty prejudices in the forefront instead of working for organization first and then if possible to tie them up on the structure of the General Organization.

What I mean by this is, that as soon as there is an apparent chance for a job or a place at the proverbial pie counter in the organization, there are as a rule many among our loudest-mouthed rebels who, in their desire to feed at the expense of the organization will adopt the most despicable, contemptible, low-lived, dirty tricks to land on the job. Never thinking for a moment of the effect it will have on the membership, they will lie, steal and blackmail any who oppose them. They immediately become the saviors, or desire to become such, at so much per.

At times we find these same people keep well in the background until the die is cast and then they come forth with glowing tales of their peculiar ability to the membership, until sentiment is worked up for them. Should you dare to question or to oppose them, they begin a series of secret meetings, conferences behind closed doors, and wholesale letter-writing, to get rid of the obstacle in their path.

I have seen recently where a certain person was continually railing about the unjust treatment accorded him by another person in the organization. This person on account of his indignation proceeded to malign the other fellow worker, even to insinuate as to the latter's integrity, and to threaten to take the stump for the defeat of the person. The aggrieved party is a decentralist.

On the other hand we are called upon to witness the spectacle of another who calls himself a centralist who wants to confine the powers of the organization to a committee to look after the much-abused rank and file, as the membership are not capable or competent to look after their own affairs. These people in question would legislate and in fact perform every function for the membership except paying their dues and the expenses of the organization. Yes, like the decentralist, they are more interested in drawing their salary than working for the body. Their wages from the pie counter are their chief concern.

Now, centralist and decentralist in a measure adopt the same tactics. I do not wish to refer to all of either element in this manner, but to those who "see a great danger to the movement" (rather they see the danger to themselves) of the person who is straight enough not to be coerced and will not be controlled by persons with ambitions, and then again begin more secret conferences, etc.

It looks to me as though it is about time such characters should get wise, for such tactics are bound to lead to the acts of politicians like those in the legislative hall, as we understand them today. There should be no necessity for logrolling in the I. W. W. or any part of the organized working class.

While we come out in some cases against the acts of the politicians of a political sect; while we ridicule their attempts to do things; while we call upon the workers to organize at the point of production, we on numerous occasions will use methods too slimy for the most degraded politician. He would be dishonored if he came out and worked some of the tricks employed by some so-called rebels in the I. W. W. It is very unfortunate that we are afflicted with this species. We did get rid of some of them in the past. We will get rid of others in the future, but I suppose will have to contend with these in part in the future, as they are a part of the wage working class.

What is needed is for the elements in the I. W. W. to form industrial unions instead of the mixed variety of the present. Charters should be granted only to the workers in an industry, and if there are some who are inclined to do some propaganda let it be done by propaganda leagues or clubs as is provided for at the present.

Insist upon those who wish a voice and vote in the I. W. W. to get it through an union or branch formed in the industry in which they are employed.

Let us get over this turmoil of "Does it pay?" "Shall we have a convention?" "I am a centralist." "I am a decentralist." "Shall we have a messenger boy, or shall we have a hello man?"—and proceed to organize wage workers to fight the boss, and to proceed to organize wage workers to fight the boss. To teach these workers that they have but one enemy, and bring about a realization of the idea which the majority of the wage workers want—to put the capitalist class away from the helm, away from the power which is his at present. To do this will mean that the bloodsuckers of wage labor will have to work for a living with the rest of the human race.

To do this, let us have more organization and less squabbling. When we spend our time forming industrial unions and relieve our enemy of the power of control over economic production, we'll begin to control society.

LET'S MAKE OURSELVES USEFUL TO THE MOVEMENT AND QUIT WRANGLING.

THE TRIAL OF A NEW SOCIETY

-By- Justus Ebert

IN this book Fellow-Worker Ebert gives the best exposition of the constructive and social philosophy of the I. W. W., that has yet appeared in print. It is not a work of fiction nor of speculation, but a matter-of-fact, practical treatment of recent phases of the industrial, social and political life, as revealed by the great textile strike at Lawrence, Mass., and the trials of Etor, Giovannitti and Caruso growing out of same.

Interesting as a story. Should be read by every worker and social student

the period of suspension, but also offers opportunity for grafting by dishonest labor officials.

The demands of the I. W. W. are made without warning, allowing no opportunity for the employers to shift the burden to the backs of other toilers. Furthermore they have no time to make elaborate preparations to defend a protracted strike. This, I. W. W. members declare, is the reason why their organization is so successful in winning strikes against employers' and members to their swelling ranks.

The "Social General Strike."

As Arnold Boller's pamphlet, "The Social General Strike" is in great demand, the Spokane locals of the I. W. W. have taken steps to secure a new edition and ask the assistance of the other locals.

In order that the locals may not have to rely upon individuals the committee in charge have decided to handle the matter through the I. W. W. in New York city, where the pamphlet was originally published. As some complaint was made against the former publisher the Spokane locals advance notice, as they have had communications they sent out regarding the matter.

If satisfactory arrangements cannot be made with the former publisher the locals will issue the pamphlet direct, as it is not copyrighted. No profit is sought on the pamphlet. Forty dollars has been collected and with \$60 more the pamphlet could be issued at once. The price will be \$10 per 1000, purchaser to pay express charges. The retail price will be five cents. Spokane locals will stand responsible for all orders sent direct to 115 Browne St., Spokane, Wash.

As Local 145, Butchers and Packerhouse Workers, I. W. W., Cleveland, Ohio is on the map yet and doing good work for the organization, we ask all I. W. W. locals to send communications to the newly elected secretary, J. Stepan, 3316 West 56th St., Cleveland, Ohio.

All communications for the Spanish paper should be addressed to Editor Juan Horta General, 420 N. Los Angeles St., Los Angeles, Calif. All locals are requested to forward items of importance to the above address.

Anyone who is desirous of doing something to help a fellow-worker who is confined in Walls Walla Penitentiary can do so by sending him reading matter, such as books and magazines or letters of cheer.

This fellow-worker has been confined for doing active work on behalf of the Rubber workers of Akron, O. last spring. I had occasion to call on this same fellow-worker when the organization was sadly in need of active pickets and he promptly responded.

He is permitted to write letters once a month but will be allowed to receive mail at any time. Address to JAMES GILL, care State Penitentiary, Walls Walla, Wash. Yours for Industrial Freedom, SAM HIGGINSON, Local 94
