The Reds Say--

By Jim Allen

According to reliable sources, the Reds have been working hard to ensure that the upcoming election will be fair and free from interference. They are calling on all workers to vote for the Communist Party and to fight for a socialist society.

The press has been under attack by the capitalist class, which is trying to control the news and misinformation. The Reds have been using every means at their disposal to counter this. They have been publishing their own newspapers and organizing rallies to spread their message.

We stand united with the working class and the poor everywhere in their struggle against exploitation and oppression. We call on all workers to join the Communist Party and to fight for a better world.

The end result will be a socialist paradise, where all men and women will be free and equal. We will have a society where the basic needs of all are met, and where everyone works together for the good of all.

We call on the workers of the world to unite and fight for a socialist revolution. We stand ready to help anyone who wants to join the fight for the future.
