CALL FOR MASS CONFERENCE AGAINST LYNCH-LAW

Issued by the Provisional Organization Committee for the South of the American Negro Labor Congress

To All Negro and White Working Class Organizations:
To All Labor Unions:
Greetings:

The year of 1930 has already witnessed the brutal murder of 27 Negroes at the hands of lynch mobs. With guns, with torture, with the rope of the cowardly lyncher mob; the white rulers of the South have this year surpassed their own bloody record in the savage murder of Negro and white workers who dared fight for their rights. In one week three Negroes were lynched in Georgia alone. Two more barely escaped with their lives in Huntsville, Ala. Sarecly a week passes without another brutal killing of some working class fighter.

Lynch law is the answer of the Southern ruling class to the demands of the 16 million Southern workers who are unemployed. It is the answer of our masters to any attempt of the white and colored workers to organize in unions for the struggle for better conditions and more wages in the shops and mines. It is their answer to the demands of the Negro nation for full equality with the whites.

The state and national governments, far from putting a stop to this reign of terror, encourage and condone it. Governor Graves of Alabama, after the shooting down in cold blood of six Negro workers at Emelle, Alabama, last July, offered a reward of $500.00 for the capture "dead or alive", not of the white mob which did the killing, but of those Negroes who bravely defended their lives from the blood-thirsty mob. In the lynching of George Grant, at Darien, Ga., Sept. 8th, it was definitely proven that no lynch mob, but the jailer, who was supposed to guard him from the mob, actually shot the defenseless Negro down in cold blood in his cell.

Nor is lynch law used against the Negro workers alone. In Gastonia, white strikers were shot down by the bosses' gunmen. In Miami, Florida, a few weeks ago, a mob beat up and tarred and feathered a white worker because he advocated the organization of white and colored workers in unions on a basis of equality. In Alabama the organizers of the Communist Party receive death threats from the Ku Klux Klan and the police alike, and their bodies are burned in effigy by the murderous Ku Klux Klan. In Atlanta the boss men of the South are today trying to burn six workers, two of them Negroes and four white, in the electric chair for the "crime" of organizing workers to fight against intolerable conditions.

This bosses' campaign of mass murder of the best fighters of the Southern working class cannot be halted by the workers themselves. Only the building of a powerful organized mass movement of white and colored workers against Lynch law can in any degree be made to this reign of terror. To organize such a movement, to map out plans for the exploitation of the best forces of the Southern workers for the campaign against Lynch law, the American Negro Labor Congress has called a mass Conference of representatives of white and colored workers and working class organizations to convene in Chattanooga, Tennessee, on the Odd Fellows Hall, 134 East 4th Street at 1 p.m. Sunday, November 9th.

Labor Congress calls on our organization to elect two or more delegates to this conference against Lynch Law and Bosses' Terror. Take up this call in the next meeting of your union, club, lodge or church and see that delegates are elected to represent your organization at this historic conference where the Negro and white workers of the whole South will meet to plan the fight against Lynch Law, against Jim Crows, against all forms of racial discrimination for full equality for the Negro nation.

Workers in the Shops and Mines! The American Negro Labor Congress calls upon you to organize Committees of Action in the shops, mills and mines, to mobilize the workers for the fight against Lynch Law. Get together with a few of your shop mates now; hold a meeting and elect delegates from your shop.

Down with Lynch Law!

Answer the murder campaign of the Boss Men with a mass conference of white and Negro workers representing the bands of Southern workers on November 9th, in Chattanooga.

The farmer explained how the farmers in the South are being oppressed by the landlords, who control the entire process of production, from the point of crop to the market, and how this results in a false sense of ownership among the farmers.
