NEGROES SUFFER MOST IN CRISIS

TENN. BOSSES READY TO WAR ON JOBLESS

INSURANCE FOR JOBLESS IS ONLY WAY OF RELIEF

More and more workers and their families face unemployment and the desperate struggle to make a living. More and more workers are finding that the old system of insurance is no longer adequate - that the insurance companies are no longer interested in the worker's welfare. The sooner we organize the workers, the better.

BOSSES TREAT NEGRO MINERS LIKE SLAVES

By a Worker Correspondent

Atlanta, Ga. — There are two incidents that occurred during the past week which prove that the bosses do not treat the Negro miners right. In one case a man was killed and in the other a man was fired.

In the first incident a man was working in the mines when he was killed by a piece of rock. The bosses tried to blame the accident on the miner, but the miners were able to prove that it was the bosses fault.

In the second incident a man was fired because he told the bosses that the coal was not being properly sliced. The miners were able to prove that the bosses were at fault.

Both incidents show that the bosses do not treat the Negro miners right.

The Fish Committee

Hamilton Fish, Jr., and his four fellow congressional red hatters, con-
fronted their new and first committee assignment, in January, will
serve as the next session of congress, leaving little time for the
front of the House's labor committees. The committee, under the
leadership of House Majority Leader Rep. Hamilton Fish of New York,
will have the task of investigating labor organizations and their
activities, to determine if they are engaged in activities that
contradict the principles of democracy and the Constitution.

The Fish Committee, established in response to the growing
strength of the labor movement in the United States, is designed to
prevent the spread of what it considers to be radical and subversive
trends within the labor movement. The committee aims to ensure
that labor organizations operate in accordance with the principles of
freedom of speech and association, and to prevent the spread of
activities that undermine the stability and security of the nation.

Build The Southern Worker!

Our special drive to build the SOUTHERN WORKER is on and it
requires that we make a direct appeal to every section of the
workers in the South. The Party members have realized the importance of
firmly grounding the SOUTHERN WORKER in the South and have,
therefore, put forth the necessary energy into the drive to make it
a success.

In every case, the drive has been successful and energetically done.
The Atlanta unit was the only one which not only obtained the subscription
quota, but also over-subscribed it. New York, Boston and New Orleans,
did the same. The following is a list of the units who exceeded their sub-
scription goals: New York, Boston, New Orleans, Chicago, St. Louis,
and Baltimore.

Great Depression on the American economy and the measures
put in place to mitigate the effects of unemployment.

MY LIFE

By a Negro Working Woman

The Story Thus Far:

The Negro working woman who wrote this story worked as a cook
with her family on the farms of western North Carolina. At the age of
15 she left home to seek her fortune. Her first job was as a maid in a
wealthy home in New York City. She later worked in various positions
in the city, including as a domestic in a large household.

The report on "Hoover Solves Unemployment" was written by
the staff of the SOUTHERN WORKER in response to the growing
concerns about the economic conditions in the United States.
The report provides an analysis of the policies and strategies
implemented by the Hoover administration to address
unemployment and its effects on the working class.

The Reds say...

By Jim Allen

The Reds say that the recent events in the South and the political situation
in the United States have led to a rise in the Red movement. They
claim that the Red movement is gaining strength and that it is
seeking to establish a new order of society based on equality and
social justice.
