Another White Worker Says “Misled CRS” Is All Wrong

Editor—Southern Worker

The former socialistic, C. W. A. of North Carolina, recently referred to the local newspaper reporting that the state has spent 930,000,000 for unemployment relief. It is frequently claimed that the Socialists have been misled by the CRS, the Communist Relief Service, which was established in 1918. The CRS, however, is not the same organization as the Socialists.

The Socialists have been working for the betterment of the working class for many years. They have been active in the political field, and have been instrumental in the establishment of the Socialists as a political party. The CRS, on the other hand, has been engaged in the relief work of the working class.
